

Manual Curation Project

- A delegator is somebody who is delegating Steempower to the curation account.
- Delegators can delegate at any time, but at the beginning the accounting will be done on a weekly base.
- If the delegation is increased during a cycle, it will be take effect from the next cycle.
- If the delegation is going to be reduced, the current cycle will be calculated with the reduced amount.
- The minimum delegation amount is 1,000SP and the minium amount of increase and decrease is the same. Amount less then 4 digits will be counted down.
- As soon as we have automated the process for accounting, the project is considering to reduce the minimum amount of SP and also the timing of the cycle.

- Curating accounts are managed by the Triple A team.
- There are currently no AAA token powerups planned for curating accounts.
- Curators autonomously curate within the scope defined in the curating project.
- The applied upvoting power % and timing of upvoting is left to the curators.
- The general plan is to use about 20% of the upvoting mana per day.
- At the beginning of the project the curation account will be managed and runned by @jayplayco.
- The operation of the curator account may change as the project processes.
- Language that are considered for curation are mainly Korean, English, German.
- The account operation fee has been set to 18%, which is on a similar level like the non-profit project @ocdb.
- The fee is going to be used for the SP-}Steem transistion, support the project TripleA and curators.
- **In the moment it is not planned to use the Downvoting Mana of the curation account.**

- The reward had been changed to a ratio of 5:5 after HF 22.
- Based on the characteristics of curation rewards, these rewards are distributed 100% in Steem Power and not liquid Steem.
- The curation account itself is basically going to be operated through delegation and it is planned to power down as much as it is required to compensate the reward distribution for delegators .
- In order to be able to distribute the rewarded Steempower directly as Steem, we will convert it internally similar to @finex or @likwid.

About Power Down

Power
Down

- The account will powerdown on a weekly base.
- Once a power down cycle is over, a new power down will start for the required amount.
- The curation account will be in a continuous power down state.
- Rewards for delegators will be paid on a weekly base, until automation.

About Steem Power reward

Delegator
Reward

- The rewards for delegators will be powered down from the Steem Power.
- The reward will be distributed on a weekly base, based on the % of delegated Steem Power.

Example)

- Total delegated SP to the account 10,000SP
- Delegator A delegates 1,000SP
- 1 week total curation reward 25SP
- Excluding 18% operation fee = 21.5SP
- Delegator A total % of delegation is 10% = 2.15 Steem will be send.

Curation rules

- Curation will be focused on reviews posted on Triplea.reviews.
- Considered languages are Korean, English and German. Other languages may be curated if readable and reviewable based on an automated translation.
- Only reviews that have the correct DB link and critic that TripleA requires will be considered for curation.
- Reviews are going to be checked for plagiarism, wrong citing, etc. and not curated if there is doubt about the source.
- Postings that are trying to abuse or just milk the system are going to be ignored.
- If there are not enough reviews for curation, the curation range will be widen to all kind of postings on the Steem economy.
- Postings about politics, religion, hatespeech, attacking people or groups, etc are not going to be curated.
