the WD International Alliance as the first biggest steps in our Human History, and the First Big Steps to the Direction of our human future.

the Same format of the Colony is interested as the Invitation for every Corporation, and the Business man's all around the world. form of the Global Business government who is based on the Unification of people, the same interest as the UN organization and function of Unification social people, too in form of Political Rights for the People and the State as the Mean Majority for Governmental Self-determination and Rights of State for political activities without blocking from the Dictatorship.

the WD and the Corporatocracy Colonies, form of the Strategic subjects for strengthening the Global Power of Safety and defend, option for cooperation against enemy or illegal opposition, be the Power of the Global Business, the Global Governments and Policy, the Global Media and the Society. It mean, that the Justice system of World wide claims and rights to use Justice recompensation, or in another way in format action of Global Movement Reaction, than there love every form of the opposition is automatically liquid and izoled into the name of the Black Cat who in any one contact mean hard bankrupt for existence of every alliances, and people with any dimension of power.

I very Thank You, very Much!!

the last term agree for the OSC cooperation, or the option for time if it is Your Interest, I therefore like plea about your support to contacting about the option for foreign relations, the transnational organizations as the organizing partners of the United Nations organization, with interest to present my plea, about the ID's Federal Government interest for membership and cooperation for development.

Is it really true, that I am really very like and glad if Dear UNASUR Member State's support our relations and therefore we can too create our full legal cooperative agreement's, declaration's and affairs, or contact's, consular cooperation, bank contract cooperation and the friendship. I am too very glad if the UNASUR is interested for supporting the Imperium of Diamond's membership in for the United Nations organization be voting in the General Assembly. Today, the ID's International plan's of cooperation can really very STRONGLY support in any important forms of the UN organization Goals, projects, interests and function, in the mean format supporting for the World Peace and Safety, Global cooperation and too for development of the Right Global Intelligence.

Today is too true, that the ID's Federal Government can developed the success with power of the Global supporting to the position of permanent member state of the UNSC, therefore it mean immediately full function of the World Peace and Safety, full Stability for all Governments all around the World and "HARD" monitoring of the UN or UNSC political position abusing and monopol, the ID's success is success to the whole world and for it principle is dedicated the Imperium of Diamond's federal constitution.

Time when the ID's government is function, we are can commonly start our projects and success full cooperative partnership, development of the Cosmic Civilization's and Security Infrastructure, we can commonly develop many forms of common planetary cities and civilizations, we can create too many business between our corporations and institutions, our mean activity is development of our State's civilizations and the ID's can support for developing of the New skyscrapers, the cities, special factories, special transport's and many all another forms of common business.

In our relation can raise the Trade's in values development form as the +100% up of the GDP your national economy, and grow up the GDP be common relations, it is really standard plan for the Imperium of Diamond's Government.

the Common Legal Relations, many forms of our profitable cooperation in today legal situation which your Government's can claimed the lost profits, for recompensation be the European policy because their criminal and world terrorist identity, today legal claim's for recompensation from times of years 1998-2000 to to now, or to times when we can full freely start our cooperation without alert risks.

the Imperium of Diamond's can invited all UNASUR State's for common cooperation and success full, declaration of minimally 100's profitable and interesting or civilization functional agreements.

We can start our full-power Partnership, therefore we really support important powers of our nations and their future generations.

the Imperium of Diamond's federal government have interest for the Global cooperation between all government's around the World. In interest of the American relation be the ID's communication at now, I have the interest for start cooperation political and diplomatic relations with the Central American States, the Caribbean countries and nearly with the Gratulation for the Cubanese republic, Dear Mr. Raul and Mr. Fidel Castro, for the Victory in Stop the U.S.A. blockade be the support of the Global Power, the UNCA.

I too like support the African-South American Friendship and I am interested for development of the Multi lateral relations for trade and cooperation, common support's and friendship. The ID's Government have many development interests in target to African Civilization developing and therefore support modernization and urbaning the populated centers, full function of civilization, and modernize the industry or the agro-centers, many forms of the skyscrapers and the cities, stop every poverty and radical problems.

Therefore is it for the America too very interesting strategy, support the African state's and coopered in the neighborhood. the Latin-America and today Africa, important relations for future trade, security cooperation, the Atlantic development and State's cooperation. I am supporting for the America and Africa relations.

In my interest is too meanly develop the cooperation with countries of the Arabic and Islamic worlds. Common friendship and respecting, support and development.

The ID's interest to the cooperative relations is directed all around the world, the Asia, the Middle East, the Oceanian countries and states, the Australia, today currently I am too very interested for cooperation with the European "Legal" countries, the post-countries of the Yugoslavia Federation, the Balkan zone, the East Europe and the North Europe.

One of the main goal to the South American states, my interest of supporting and cooperation is declare friendship with the Government of the Bolivarian Republic of Venezuela, development for the Venezuelan economy restoration, stabilization and grow into standard forms, save the country out of bankrupt threaten.

My interest is from year 2014, and today I am under communicative blockade, therefore my ability for communication is out of possibility. European corrupt policy like better support terrorism and Informational blockades.

Today European terrorist activity hardly damage and posed against all political principles or legal affairs. the European policy lost their rights for political existence. the European states, the state service, publicly national supporting and organized crime cooperation, in form of act is European situation in the same legal format as the 2003 expansion into Iraq and Afghanistan with interests for terrorist groups and therefore people liquidation, just today is here situation when the European government's is full under terrorism and organized crime cooperation, the Global War threaten, in position of Global Duties for immediately reaction as the liquidation every dimension.

My text's can be understand as a hard ideology, just I therefore must really repeat that I have interest's only for peaceful horizons and cooperation, I am not based on radical standards.

Europe is today real existence of the First Global War threaten, and their policy is based on contraspy strategies and disinformative cooperation with monopoly.

European policy today lose all rights for their political existence and debts of territory and state, financial debts powerful than values of planet Earth.

European states and civilization's must go to the bankrupt, stop their existency. European states therefore must support liquidation of their corrupted and terrorist policy and start Justicial trials.

Europe damage, violet every form of the International Rights, and too Jurisdiction of more than 190 states around the world. Today acts of genocide, atentats, spy, fraud and rob, organized crime, coopered for overthrow of regimes, planing and active real forms of State-terrorist attacks, occupation, colonization, ... European government's in many times rapidly outstrip all values of the WW II. Global Crimes.

European Government's and states today not legally existed. Terra Nullius... and Global Duty for liquidation with the WM ID's.

the ID's government have legally and according International Rights full claims to the Declaration of sovereignty and therefore too support Liberation of the European States from today EU terrorist government's occupation.

the French Guyana, the ID's claims for sovereignty, and therefore prevent to the full State, Civilization, Society bankrupt. Stop existence. Therefore, time when I can have a success in the National Self-determination because the ID's is only one option for civilizational existence, than therefore the Imperium of Diamond's declare all interest's for the UNASUR membership and legal cooperation as the South American States in Union.

Another European States, be the European continent, the Imperium of Diamond's directed the sovereignty into format of the World Diamond International Alliance and the Common Sovereignty cooperation of all countries around the world, and therefore new sovereignty into form of the high level from the UN Trustship Council, prevention and stop dictatorship sovereignty in the same format as today European terrorist regimes full publicly present their "live occupation of Europe".

According International Rights, European policy is only occupational force and in the same legal form as the ISIS, Boko Haram and another terrorist's movements.

I really and in every case Very Thank to You, for every State of the UNASUR, the Union of the South American States, I really Very Thank to Dear Mr. General Secretary Ernesto Samper Pizano, I very thank you for all, because you are support the International rights and function of Legal World Political Systems and relations between World Policy, I am very glad for your efforts to the prevention interest against the Global War threaten and active without our power for defend against the Europe and therefore health and traumatic risk of the 7.000.000.000 people genocide.

I really very thank You for your UNASUR activities and political function, I am glad that today in the world can exist intelligent people who can start action against the crimes and terrorism.

I thank you for your activity in standard relation, real support of International political function and stability.

Today the World live in time when we must be threaten from the most biggest risks in human history.

Thank you, for your support to the Africa, thank you for support to the safety development, and too observations.

Europe, more than 6 years in the past, they are threat of the Zika virus expand and war, the same as the Ebola killing, threaten more than 10 years, today the Europe secretly manipulated with economies of another states and continued into the their-war economy statistics, the manipulation be use the technologies for direction reality around us and manipulation with incidents, Quantum mathematics, the Nepal terrorist, the Sandy, the Nepal earthquake, many another catastrophes.

Mean and important prevention, isolation of all European Banks and their economies, change the NATO terrorist alliance be membership of more than 50% states Global terrorist, therefore importance is expand the WD Safety cooperation and prevent against risks of financial or security crisis.

the WD expand and cooperation mean in every case only better score for every one state, better positions than today European relations in function.

Stop the North European states and the U.S.A. in the NATO cooperation, or start Anti-corruption kidnap-missions, Best options for World Safety and stop threaten.

The Charter of the United Nations give the Rights of defend the Humanity, the Duty who is for every one state all around the world. The UNSC must immediately stop all European policy, the UNSC is responsible for world safety and liquidation of European terrorist structures or states. The UNSC not respected their duty and obligation, our safety and peace or justice, it mean that the UNSC is not functional subject. Not function of UNSC mean that the UNGA members posse the Legal Rights of the UNSC. Now, the UNSC must accept their responsibility for judicial trial be the International Criminal Court and in many Courts, the judicial trials of all every one countries all around the world.

The UNSC is not active according today "urgent" reaction for defend World Safety and Stop terrorism. Now, the UNSC therefore full support threaten of the first Global War starting and therefore the UNSC is too responsible for situation when the UNGA all states have the right to their life and existence, and therefore legal and without blockation, full open option and duty to produce the Weapons for Mass Destruction and therefore full liquidation of every European terrorist states.

Our position, REAL ACTS of European terrorism mean that the 7.000.000.000 people is threatened to their life and the Government's is under terrorist occupation, the occupation be monitoring and manipulation, blocking and destruct development rights, damage safety or function of our International Rights who give safety existence for our States. According the Charter of the UN, every one State around the World have all rights safe their existence and therefore full liquid the European terrorist states.

The liquidation of European terrorist regimes mean safe life and peace of 7.000.000.000 all around the World, value of the Human race existence of the Earth.

The NATO, the OSCE, the EU, the CofE, the OECD, the UN, according legal principles, every one must immediately and urgently Stop cooperation with terrorists, community support isolation of European terrorist group and their political dislegitimation in every case.

the World Diamond International Alliance, this is "form of the Prevention against risk of financial dependence and crisis, prevention against instability of safety and monopol abuse of terrorist policy.

the World Diamond, step to the development of the Powerful world between on single week and rapidly outstrip power of the European threaten and terrorism.

the World Diamond, system of the Constitution who powerfully outstrip all values of the European existence and we can start Victory between today's. Every European terrorist act will be immediately punished by the dimension who hardly outstrip form of the Global Power.

the World Diamond International Alliance, open cooperation of the Common Sovereignty all Government's countries, with our new territories and civilizational dimension around the Start four Galaxies in the Universe and powers who hardly outstrip Human dimension. the WD, commonly we are can easily and quickly prevent against all of European threaten and violence. We are lose every dependence on the USA abusive policy and their interest's for support European terrorist stability because we are is the Great Confidence against power of the USA monopol system, and we are is by the Army, Security, Information share, option for cooperation, economy, population, civilization, Global Political Democracy, the Intelligence, Development and Prosperity, stability and centralization, development of common affairs, the Independence, we are is in every interest's much powerful than the European terrorist Alliance, their USA support, and too the Russian threaten with CPR support or ISIS acts as a one the same people group of our opposition.

the USA must immediately stop all common relations with Europe. the WD mean, that independence is without risk of financial crisis or safety threaten. If USA Like opposed against us and our right for existence, than the USA there love is form of terrorism and directed only to the Legal bankrupt. It is true, that according the WD Alliance Legal Political Power and Rights of the World Democracy, therefore we can immediately Internationalize the U.S.A. and EU territories, between time of our reaction in today's with our success and our victory.

the WD, our military Intelligence, we can easily and massively produced Security technologies who can liquid every power of the North-Earth Military Infra-zones and between a single 5 minuts.

Commonly, we can too use special Computer's who can read about our Reality Mathematic Rhythm, and therefore we can predict every terrorist act against us and therefore blocked the terrorist's in time when they are is without defend power. Our computer's can too easily calculated how to manipulated with our reality and therefore full manipulation possibility for direction of our enemy, his sources and contacts, his emergence or finance relations, everything around him.

the system for manipulation of our reality today use the U.S.A., more than 30 years, may be 50 years. They are know and managed development of your country and political relations, mandates of your policy and government's or born of national Businessman's and their companies for business, the Global Neocolonisation.

They are know your Bank number all accounts, their passwords, password's in the Internet Infrastructure, telecommunication, or too all acts and interest's of the Personal activities of all important people in your countries.

At now is confirmed, that the USA have a very great activities for Global Spy by National agencies potential contra-cooperation and monitoring of every digital activity in the world. Every move. Therefore, you are can use the personal Confidant that your Reality is under monitoring.

the USA today support European policy and their power's. Cooperation on the Reality Manipulation be the Special technologies.

We are is under terrorist occupation and our only one option for safety prevention is only the WD cooperation and therefore full possibility for development the same technologies and than develop the Global Shield and Power for isolation of our enemy.

the Europe and the USA, they are too have the Secret Civilizations in the Universe and there love secret population, the first USA clone short time after 2000 year, than too threaten that the USA will can posse the Valuable civilizations in Universe and for they are is not any problem for liquid the full dimension of the Earth exist.

Therefore, the World Diamond, real form of the Important Step for our Safety and Power of Defense against terrorism.

With Intelligence, we can really easily develop many forms of technologies who can immediately detect all secret civilizations in the Universe, detection all forms of civilization in single few hours.

The USA or North European States have right for cooperation with us, the WB, just only if the Countries Governments Stop all their cooperation with European Terrorist alliances, and public all every important information about crime and threaten.

Today is therefore very important, support our agreement in interest for development of the Military Planetary Civilizations and start our power. Stop every form of the Threaten and Violation against us.

After, the next risk's of the Russian threaten be their responsibility of annihilation the Crime a peninsula, we are is without any threat or risk because we is the WB Global Power.

Threaten from the Russia Federation is too supported be the European Terrorist Alliance member's, the France support partially cooperation for Russia and too the Czech republic support the Russia friendship in interest for prevention their today crisis be the escape against the world, and than federalized with the Russian Federation.

The Czech regime is first country who start today threaten of the first Global War, Liquidation of 7.000.000.000 people all around the world. Czech regime must be immediately stoped, full discriminated and violed. Transformation into the WB.

I understand, that I am the person who representing many forms of today International Conflicts, and therefore I am not very ideal man for partnership.

Therefore, I am pleased for the Respecting of the American States to the my activity when I represent International Right's and Duty of all policy, and therefore I am the Man who support safety, rights and existence for your States and Civilization.

I am the man who is under terrorist occupation, the same as you are every one all around the World.

Therefore I plea too for your support, because our Global Pride for "reaction" is immediately powerfull score and step than every options of European "terrorist alliances".

We are can only start successfull cooperation and therefore full overthrow European threaten against us. Next, we have the legal right to transforming the Europe into our sovereignty and than therefore immediately started our Victory and Success.

Today, the United Kingdom of the Great Britany and the Ireland support Independent of their country against the European Union. This is very important step to us, and for our success, Legal Right's and function of International Right's, the Global Safety Powers.

The United Kingdom Independence against European terrorist regime, this is step very Great to the Humanity. We are have better power and Europe is more in the depend on the world reaction of us. The UNSC not can abuse policy and we are can create easy steps for the Victory, the Pride for every people around the world.

European terrorist is in depend on the World reaction's, and therefore they are start much massive and powerfull attack's against people and government's. In the past, the Ebola, the Zika virusess, the Air-Plan crashes, the Earth quakes and Tajfun's or storm's, manipulation with reality around us, Global terrorist activities.

Last day's, the European terrorism against the Thai-wan because my invitation for trade development, I therefore must too very pleased for share the Incident into the ICC, International Criminal Court and support the legal Punishment for attempt to genocide, violation, aggression, damage International Right's and confirm of Global War real threaten and power.

If the ICC is without ability to reaction, than the situation can apply into your Constitutional or State court's because the attack against the Thai-wan mean threaten against

the safety of your Business corporations and the threaten against stability of World System,
the system who can save our rights and life's.

the European terrorist act's too mean that our option for full legal cooperation
is damage and therefore our rights is violated. We are have rights for cooperation, we
have now legal duty for reaction and liquid of all capital cities of the European terrorist.

In the End of the text, I really very thank to you, for All member
States of the UNASUR, I Thank to the Union of the American States and the members,
Thank you to the General Secretary Mr. Ernesto Samper Pizano, and I too very plea for
your "easy" and primary support in form of the medical public, support the Wikipedia
knowledge and too my option for medical communication.

European terrorist power is mainly based on the power who is active only
because the people not can full know their real situation, because media is under
blockade and censorship, and therefore European terrorism is today without opposition
supported from many people all around the world, and mainly in their states.

European states is today therefore full active on terrorism, and than therefore
to today is here very Big risk who confirm our duty to liquidation of all Capital
City without the respect to the people because they are support terrorist regime and it
is their Self-determination, because to today not any one can give to him invitation
for another step.

Media must be active and people therefore can massively know, where they
are life, live, and what is real threaten against they are.
