Analysis

Our brief investigations show that **ALTRON** and its principal subsidiaries such as **Bytes technology group** are well placed to get a stake in the National Health Insurance through offering health care IT management systems that may assist in the management of healthcare insurance efficiently. It is

plausible that **Medi-switch** may assist in the efficient management of health care insurance claims which is what it does currently.

Conclusion

ALTRON Group and its subsidiaries are well placed to provide their services through the **National Health Insurance** through its provision of healthcare IT systems. Currently their other services are in the telecommunications and electricity ^{where} ~~were~~ their major clients have been Telkom, Eskom, Transnet and major district Municipalities as well as metros such as Ekurhuleni and The city of Cape Town.
