Minecraft Hosting FAQ

Why should I choose Shockbyte to host my Minecraft server?

We offer many more features and utilize more powerful hardware than any of our

competitors, even at a lower cost. Shockbyte has been hosting Minecraft servers since 2013. With hundreds of thousands of customers served and more than half a million servers hosted, we have an incredibly strong reputation among the Minecraft server community.

We are confident you will be happy choosing us to host your Minecraft server. For a full refund, you can contact our support staff within 72 hours to cancel your order. All we ask is that you let us know why so we can further improve our service.

If you are still unsure, take a look at the thousands positive reviews left by our customers on Trustpilot.

Which Minecraft server types are supported?

All Minecraft hosting plans from Shockbyte support Java Edition and Bedrock Edition and are always up-to-date. We have every possible Minecraft server type available as a one-click install, updated each hour by our automatic system.

Every Minecraft server version is supported, including Spigot, CraftBukkit, Forge, Sponge, BungeeCord, Fabric, Vanilla and Snapshots. We also support all Bedrock Edition server types (MCPE), such as PocketMine MP (PMMP), NukkitX, Bedrock Dedicated Server, and Bedrock Dedicated Server.

Additionally, every Minecraft server hosted with Shockbyte supports all modpacks including Feed The Beast, Technic, ATLauncher, and any modpacks not listed.

You can also install custom server types or your own mods. We provide full access to your server files via our control panel, so you can upload any Minecraft server types, plugins or mods. Our 24/7 support team is available to assist if needed.

Can I change my plan or upgrade my server later?

You can upgrade or decrease your plan from the client section at any time. After you submit the order the plan change will be applied instantly and automatically. No files or settings are lost when upgrading, your server will simply be upgraded to the new plan you have selected.

Our customers range from first-time server owners to large-scale Minecraft server networks with hundreds of players. With Shockbyte, there is no limit to the size you can grow your server.

Every part of your game server can be changed at any time. You can change any aspect of your server such as the type, plugins or mods.

This is my first Minecraft server, can you help me if I get stuck?

Our customer support team is available 24/7 to assist with any Minecraft hosting questions. If you have any questions, please drop by the Live Chat (bottom right of the page) and submit a ticket.

There are many tutorials that can help you with managing your game server. They cover almost every topic.

If this is your first time using a Minecraft server, we recommend you watch our Getting Started video playlist and our Knowledgebase.

45 Days of the Enjin Advanced plan is provided with all Minecraft server hosting plans. Enjin is the most popular solution for Minecraft server website hosting. Enjin offers many features, such as a donation shop, vote for diamonds, and many other options.
