WINTER MAGAZINE 2020

## winter - new horizons

Hello Winter, you always sneak up on us and, it seems that the shorter days and a cold bite in the air are not the only things that have taken us by surprise. In my Autumn letter, I expressed a longing for rain and relief after a devastating fire season - and although rain blissfully fell in many places, it seems relief was not on the cards just yet...

Without dwelling on what has been an incredibly tough time for everyone - I hope in amongst the rollercoaster of emotions - you, like me, have been uplifted by the stories of love, strength, camaraderie and resilience. We have experienced these things not only within our team and community but also witnessed them on a global scale.

With so much uncertainty, what can we be certain about!? Well, even with restrictions easing, we are spending a lot more time at home, so we hope this mini mag fills up a glorious moment to yourself curled up in your favourite corner. Those frosty mornings and crisp evenings are also pretty reliable so we have filled this mag with outfit ideas to keep you feeling toasty (and stylish) inside and out.

We are all adapting with many of our regular activities out the window - here at the nest we have started what we are affectionately calling "birdsnest TV". Without the usual photoshoots and models, our styling team have quickly evolved to producing home-style videos starring birdsnest girls and lots of fun styling tips! They certainly put a smile on my face, hopefully yours too.

Looking ahead to winter and new horizons - while cliché I really don't think it can be overstated (for me anyway) that every human on the planet is in this together and this too shall pass (hopefully sooner rather than later!!).

*love, Jane & the birdsnest girls*
