

Accounting Interview Questions and Answers

Want to prepare some accountant interview questions and answers? Here are some accounting [job interview questions and answers](#) to help you prepare.

Q: What made you choose to become an accountant?

A: I've always loved numbers. Loved math in school, and I just want a job that allows me to stick to the figures all day.

The interviewer wants to see that you have some sort of passion driving you.

Q: Do you set goals for yourself?

A: Yes, every year I make sure to set some goals for myself. Then I spend the whole year tracking my progress -- making sure I work as efficiently as possible.

The interviewer wants to see that you're organized and ambitious.

Q: Where do you see yourself in five years?

A: Hopefully still in accounting. This is my dream career path, so just being here would be great.

The interviewer wants to know that you don't have plans to bail on the job a year or two from now. It's alright to want kids, but now's not the time to mention that.

Q: What is it about our company that makes you want to work for us specifically?

A: All the research that I did on you guys shows that we share a lot of the same values.

The interviewer wants to make sure you want the job for more than just the money.

Q: Name the accounting applications that you're comfortable with.

A: I'm comfortable with Quickbooks and Netsuite. However, I'm computer savvy and believe I could learn another system relatively quickly.

Even if you don't know the program they work with, the interviewer is okay so long as you mention that you're willing to learn their system.

Q: How do you keep yourself motivated?

A: It isn't hard to stay motivated when I'm allowed to do what I love. The interviewer wants to see that you're a self-starter.

Q: Your position is very important to the company's bottom line, so I feel compelled to ask: how do you eliminate mistakes?

A: Mistakes are a part of the human nature, which is why it's so important to be diligent. I double check all of my work -- doing it once on the computer, and a second time by hand. If they match, I'm sure that I have the right answer.

Accounting is all about money, and the last thing a business wants is someone making a careless (or even just not-careful-enough) mistake with that money. The interviewer wants to know that you have a system in place to make mistakes very rare.

Q: Tell me your views on creative accounting.

A: All accounting should be creative accounting. It's not just a matter of crunching numbers. It's about making sure those numbers work as best they can. A good accountant isn't afraid to be creative. He or she comes up with innovative solutions to make the numbers work.

The interviewer wants to see that you do everything you can to help your employers save money.

Q: What salary are you hoping for?

A: I was hoping to make roughly \$60,000 per year.

The interviewer wants to know what you think your value is.

We hope you enjoyed this accounting interview questions and answers pdf (or, if you're on the website, non-pdf). If you study accounts or [receptionist interview questions and answers](#), you're sure to have a leg up on the competition.
