Welcome to Spearpoint International LLC

The risks faced by global business are greater now than ever, the increasing danger from terrorism and the ever present threat from organized and opportunistic crime means individuals and organizations wishing to partake in business must consistently review security procedures and develop their crisis plans.

Spearpoint International provide tailored solutions for clients, developing services to meet the company profile, enabling them to concentrate on core business with peace of mind that assets and employees are protected. The risks faced by all businesses depend on many factors, the type of business, location and public perception of the company all add to the risk profile.

Working closely with a network of global partners, our aim is to deliver a seamless crisis solution or security product, with the flexibility and experience to adapt in an ever changing business environment.

SPEARPOINT

+ SECURITY PERSONNEL

EXECUTIVE PROTECTION

The requirement for specialist protection is escalating with physical attack and kidnapping becoming more commonplace. Intimidation and harassment is widely used by individuals or groups for personal, political or economic gain. Spearpoint will provide highly trained and experienced personnel who can provide the level of protection required.

ARMED SECURITY DETAIL & CONVOY SECURITY

The provision of trained security details to protect personnel and equipment during movement in medium and high-risk regions.

RESIDENTIAL SECURITY

Residential teams for domestic and corporate property provide high caliber personnel on a permanent or short-term basis. These personnel provide front of house security staff, for key locations or resident teams in high value property during times of absence by the owner.

OUTSOURCED SECURITY MANAGER PROGRAM

The outsourcing of security is commonplace in many corporations. Spearpoint enhances these outsourced operations by supplying a dedicated manager. This on-site manager is a permanent fixture for the client, either at remote or overseas locations, or at corporate head office level.

Our manager will have the right experience and knowledge to fit within the clients working model, will not only provide the full corporate security manager function but as part of the outsourced Spearpoint team, he or she, has the full support of Spearpoint International, this is, up to date intelligence, a 24/7 response capability, regular training for Security and HSE needs, and a dedicated support team during times of crisis.

+ OIL, GAS AND MARITIME SECURITY

OIL & GAS SECURITY

Spearpoint International identifies threats and mitigates risk for our Oil & Gas clients. Our team has a full understanding of the industry, the economic and environmental constraints, the political and civil situations that must be factored by working closely with you, our client and seasoned experts in the field.

Spearpoint encompasses superior assessment and response capabilities.

Services include:

Risk and Threat Management

Experienced expat managers and consultants

Recruitment and training of local security personnel

Base life support

Medical

Logistical services

- Vehicle fleet management
- Integrated security system
- GPS and GSM Asset / People tracking

Emergency and medical evacuation planning and services

MARITIME SECURITY

Spearpoint International provides protection of maritime assets with strategic security planning. We offer security threat and risk assessments, mitigation strategies, and technical solutions to facilitate optimal and cost effective security management.

Spearpoint provides fully trained and licensed Ship Security Teams to assist a vessel's Master and crew when transiting through high-risk waters.

Throughout transit we provide:

Permanent monitoring and reporting from our Operations Center

A comprehensive survey of the vessel and an anti-piracy review of the Ship Security Plan

Intelligence and piracy reports

Physical defensive hardening to the vessel to prevent hostile boarding

Provision of a fully equipped and experienced Armed / Unarmed Ship Security Team

Security training and drills for the crew on procedures and counter measures to adopt. The team will assist the Master to conduct a risk assessment of the vessel's security and preparedness, plus advise and assist in making improvements where appropriate

All Ship Security Teams are:

Equipped with modern security and safety systems

Fully trained and licensed personnel

We are able to operate from a number of ports in the Indian Ocean Region, West Africa, Gulf of Guinea, Persian Gulf, the Mediterranean and the United States.

SPEARPOINT INTERNATIONAL™

“Our aim is to deliver a seamless crisis solution or security product, with the flexibility and experience to adapt in an ever changing business environment.”

+ KIDNAP, RANSOM AND EXTORTION

Kidnapping, once synonymous with Latin America, is now a worldwide problem. As business travellers and individuals venture further afield they are continually at the mercy of those that would harm or extort them.

The motives for kidnapping are not always monetary. A growing terrorism threat adds to the dangers faced by international travellers. These threats are no longer just overseas. People of wealth, leaders in business and political prominence face just as great a threat in their home countries.

In today's world more than 20,000 kidnappings occur every year. Spearpoint will train companies and valuable individuals to plan and respond to myriad scenarios and ensure the best possible level of prevention and protection.

Spearpoint's crisis response team is an uncompromising mix of in-house expertise and partnerships with the world's leading providers of intelligence and response services.

The service is configured to support Kidnap, Ransom and Extortion (KRE) insurance policies and the peripheral services supporting each policy. The service is client centric and complete, ensuring full support at every stage.

PRE-CRISIS

CONSULTING AND TRAINING:

Crisis Management Leadership, Design, Training, Exercises

+ SPECIAL PROJECTS

MILITARY ADVISORY

Military advisory support and combat advisors recruited from the World's leading Special Operations and Intelligence Agencies. These advisors are able to assist in conventional warfare and counter terrorist operations and training.

All consultation is provided by subject matter experts who will teach and mentor the units, developing the leadership, command and control, and the overall operational capabilities.

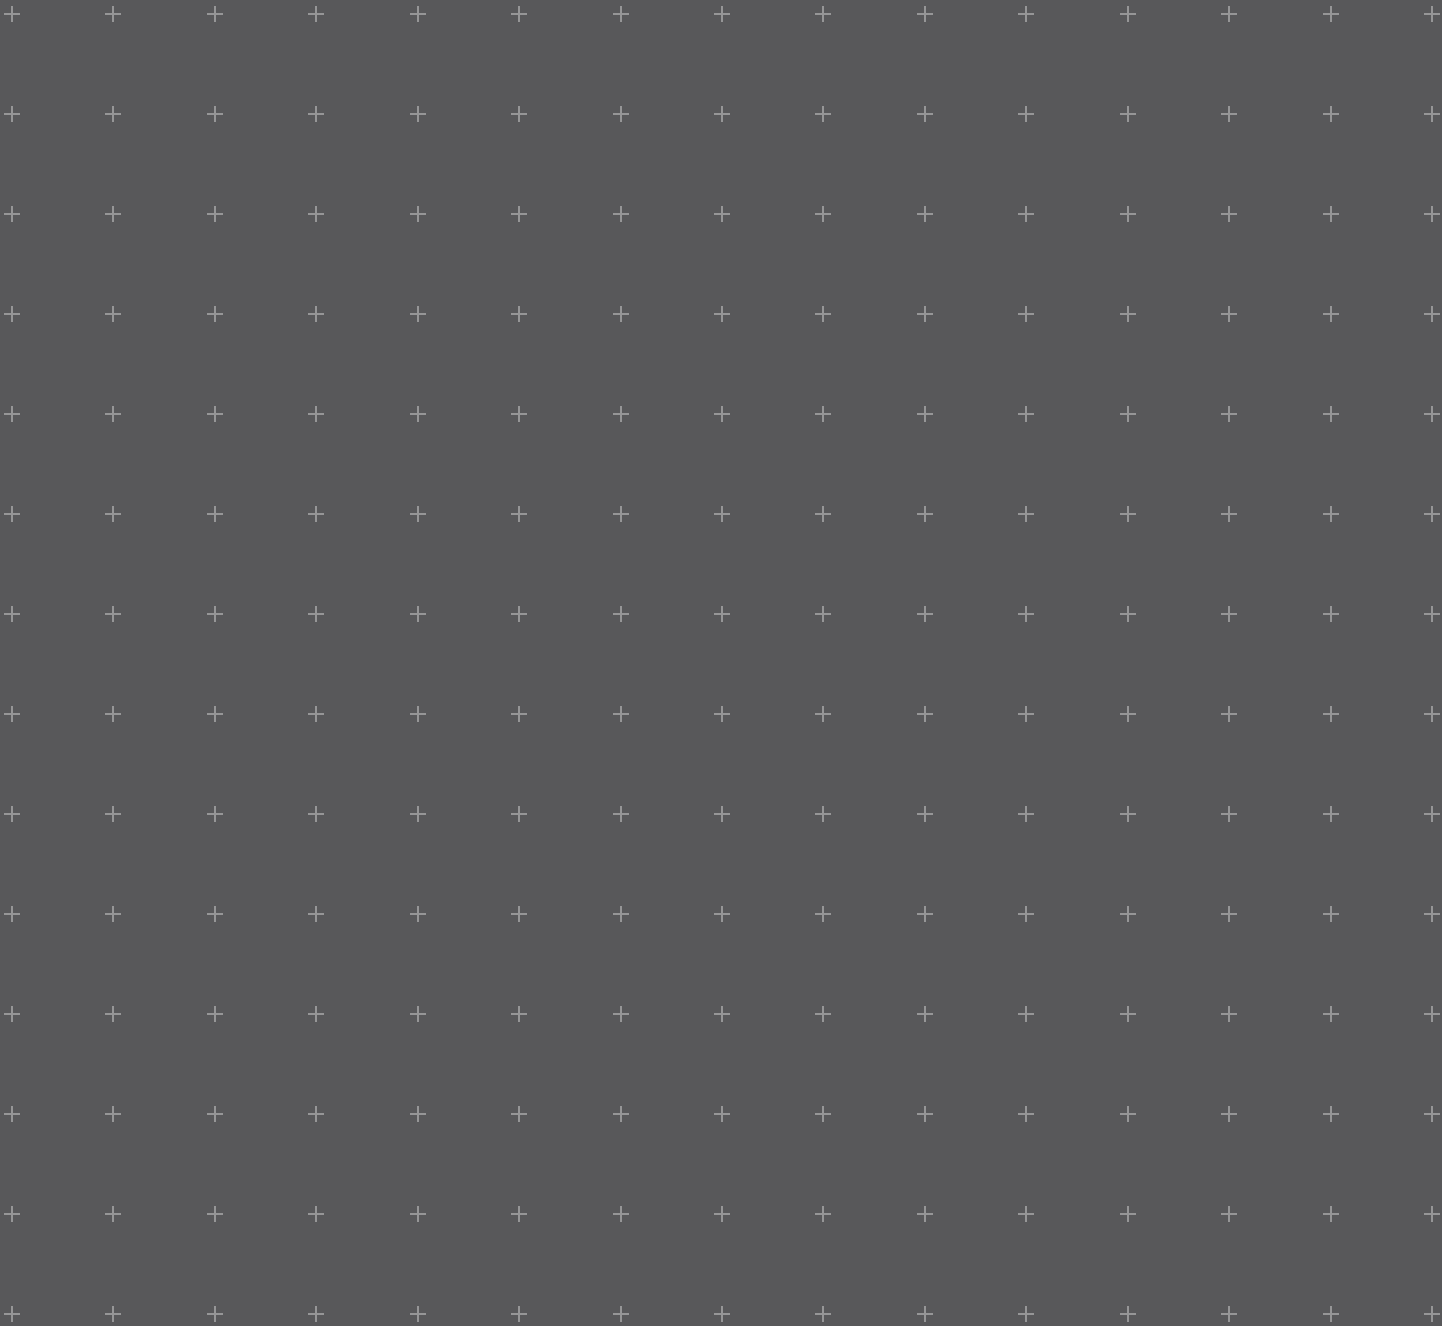

Training is carried out using a systems approach providing up to date content delivered by experts.

EQUIPMENT PROCUREMENT AND EVALUATION

Spearpoint will provide consultation on the procurement of latest generation military equipment, the development and evaluation of specialist products, including small arms and ammunition, load carrying equipment and surveillance, and counter surveillance electronics.

REMOTE SITE SECURITY

Working in remote or hostile regions requires knowledge, experience and planning. Spearpoint delivers full in country services for security and life support, working with local government and people, ensuring liaison with correct authorizing bodies, the recruitment and training of a local security manpower by experienced hostile environment consultants, transportation and communication planning, medical services, and response emergency evacuations.
