The Future of Digital Service Delivery

BrightMarbles Group Holding (BMGH) is a global assembly of engineering houses with around 160 experts operating from one of our 7 offices.

Our team helps clients across industries build the most secure and innovative software products that move people, businesses, and the world forward.

We're proud to be referenced as a "digital leaders creator" and a "unicorn builder" with five award-winning software products and seven unicorns in our client portfolio.

Where We Are
