" An example: A 10mL vial of Testosterone Cypionate costs \$42 with a coupon for CVS or Walgreens. A 5000iu vial of hCG costs about \$23 overseas. Both will last you for a couple of months. You can get anastrozole from the site sponsor or overseas VERY cheaply too. I haven't bought Clomid yet, but do a search and see how much you can get it for.

It's important to remember MORE does not necessarily mean better. In fact if you can make gains with less volume all the better as overtime you can increase the volume to keep sustainable improvements coming ☐
