

2023 in Review...

Home Constructions

We completed construction of a home in Tarentum, PA, providing a family of six with their very first home.

Home Preservations

With our Brush with Kindness project, we've preserved and revived over a dozen homes for local families.

Community Partnerships

We have partnered with over ten local nonprofit organizations to help broaden our impact.

Volunteer Hours

More than 100 dedicated Habitat for Humanity volunteers put in a total of 4000 hours last year.

Recycled Materials

Over the last year, we have diverted over 125 tons of material from area landfills.

A PLACE TO CALL HOME FOR LOCAL VETS AND THEIR FAMILIES

Habitat for Humanity is excited to announce that we have partnered with the Alle-Kiski Veterans Foundation to provide affordable homeownership to local veterans, military service members, and their families. We are currently in the process of identifying veteran families in need of housing in Allegheny Valley and have plans to work in partnership to construct four new homes in 2024.

With this initiative, we hope to foster a supportive and inclusive community for our veterans. The transition from military to civilian life can be very challenging, and many veterans lack access to housing and other critical resources. By working in collaboration with local partner organizations, we will help ensure veterans receive the support and services needed to assimilate back into society and help them build a brighter future for themselves and their families.

Thanks to the support of PNC Charitable Trust and Lowe's Home Improvement, and the ongoing support of our donors and volunteers, we will have an opportunity to give back to those who have given so much in service to our country and continue our vital work to bring hope and opportunity to our communities as a whole.

LOOKING FOR AN OPPORTUNITY TO MAKE A POSITIVE IMPACT ON YOUR COMMUNITY? VOLUNTEER WITH HABITAT FOR HUMANITY TODAY!

Habitat for Humanity is always looking for volunteers to help us build homes for those most in need and strengthen our communities. It's now easier than ever to find the right volunteer opportunity for you! Join us today by scanning the QR code to download the Civic Champs app, where you can see all of our volunteer projects, or sign up online at www.civicchamps.com.

WORKFORCE DEVELOPMENT TRAINING PROGRAM FOR AREA HIGH SCHOOL STUDENTS

We are proud to announce that we are kicking off a new workforce development training program in partnership with Valley High School, aimed at empowering and equipping young individuals with the skills and knowledge they need to succeed in the professional world.

This initiative will bring local high school students together to participate in hands-on training and education, build homes for families in need, and help make a difference in their communities. Participants will learn basic construction skills as well as safety procedures. Once they have completed the trainings, they will participate in supervised home builds, giving them the opportunity to put what they have learned to use and hone their new construction skills.

In addition to acquiring technical skills, students will also gain invaluable soft skills such as teamwork, communication, problem-solving, leadership and a deeper understanding of the importance of community engagement and social responsibility. The training program will consist of weekly training sessions and will be held at the ReStore. Each session will introduce a new topic and provide hands-on training. At the end of the training program, students will have a chance to utilize their new skills and work alongside members of their community to help construct a home for a local family in need and help strengthen our community.
