

FANTASTIC NEWS WE HAVE ALL BEEN WAITING FOR – SMARTABUY HAS ARRIVED!

After a lengthy period of development and testing, our very own ILCoin based global merchant platform is now ready to conquer the world and open a new chapter in online digital commerce!

Yes, it was Ilgamos who first created the idea of a global e-marketplace where merchants (suppliers, manufacturers, retailers) can offer their products and services to a fast growing customer base in exchange for a combination of EURs and digital currency – ILCoin.

As you know, it has been a long and difficult road until the launch Smartabuy. But the real journey is just starting! We are now inviting merchants from all over the world with high quality products and services to join Smartabuy – they will get new clients, new markets and enjoy new opportunities offered by this exciting new world of digital currencies.

Smartabuy will operate under wraps until the end of October – this means that although the site is fully functional, it will show no real products and services available for purchase. We want to use this introductory period to attract merchants, old and new, with a special offer: they can join Smartabuy free of charge until October 30.

Repeat: no joining fees, no costs, no expenses until October 30 – yet, merchants receive all the services and enjoy all the benefits of Smartabuy! They will immediately receive new customers, greater exposure and advertising opportunities. They can also accept and accumulate ILCoins - as members of the Ilgamos family of ILCoiners – and see the benefits of a high quality coin gaining recognition and value.

As we outlined before, the Smartabuy global merchant platform (www.smartabuy.com, which will be available in English), is an „umbrella site”. It will live side by side with local Smartabuy platforms (like smartabuy.kr, smartabuy.ro, smartabuy.vn, smartabuy.bd, smartabuy.kz, smartabuy.ua, smartabuy.ch, smartabuy.ru, smartabuy.in and so on), which will offer their services to local merchants and local customers in local language, with local advertising and promotion in your local languages. Quality of products and services will be strictly monitored.

The launch of Smartabuy opens a new chapter in the Ilgamos history book. The launch and stable growth of Smartabuy is the main element in developing ILCoin into a widely recognized and traded digital currency. We have always said: no matter what trick most coin companies use, a coin can not survive in the long term if it cannot be used to buy real products and services with it. It has always been and it always will be our goal to help our partners earn, spend, trade and accumulate ILCoin in the real world.

At the same time as launching Smartabuy, we are moving to boost ILCoin trading on open markets, away from the internal trading platform. In order to support ILCoin on public exchanges, from now ILCoins in your „ILCoin Purchase Account” will be purchased by Ilgamos automatically on public exchanges!

It also means that partners earning ILCoins from their work will receive more ILCoins, for the same amount of € bonus - at least until the price on open exchanges becomes higher than the price on the internal trading platform. It continues to be a primary goal to increase the price of ILCoin. It will take some time, just like the price of Bitcoin needed years to increase to its present levels.

The target price of ILCoin will be increased gradually, from phase to phase, under carefully controlled conditions. The target price in the first phase will be €0.50 (on C-Cex and other open markets). Ilgamos will monitor and analyze market trends (Smartabuy growth, Ilgamos growth, etc.) and determine the next target price (next phase) accordingly. During this changeover period, your 30% weekly bonuses received on week 36th and 37th (to your ILC Purchase Accounts) will be spent on ILCs until September 25.

The Ilgamos internal trading platform will continue to operate at this stage. Partners can experiment with trading techniques and practice buy/sell strategies. This knowledge and experience can later be used on the open market exchanges. The price of ILCoin on the internal exchange will continue to rise gradually, as before. This price (the internal trading platform price), currently €1.7386, is the short term target price for ILCoin on C-Cex and the public market.

Smartabuy merchants, at the time of the launch, will accept ILCoins at the €0.50 target price set for the first (current) phase. This price will also be monitored and adjusted on a regular basis.

Dear ILCoiners, it is time to rejoice – and also time to get into action! We must work together to invite and register as many small and medium size businesses (merchants) and new customers (partners) as possible – they will all become registered Ilgamos partners, which will make communication and payments simple, easy, fast and secure. We will arrange leadership training sessions and also roadshows to generate as much publicity as possible. Great times are coming. We are building a great global digital system.

Best regards,

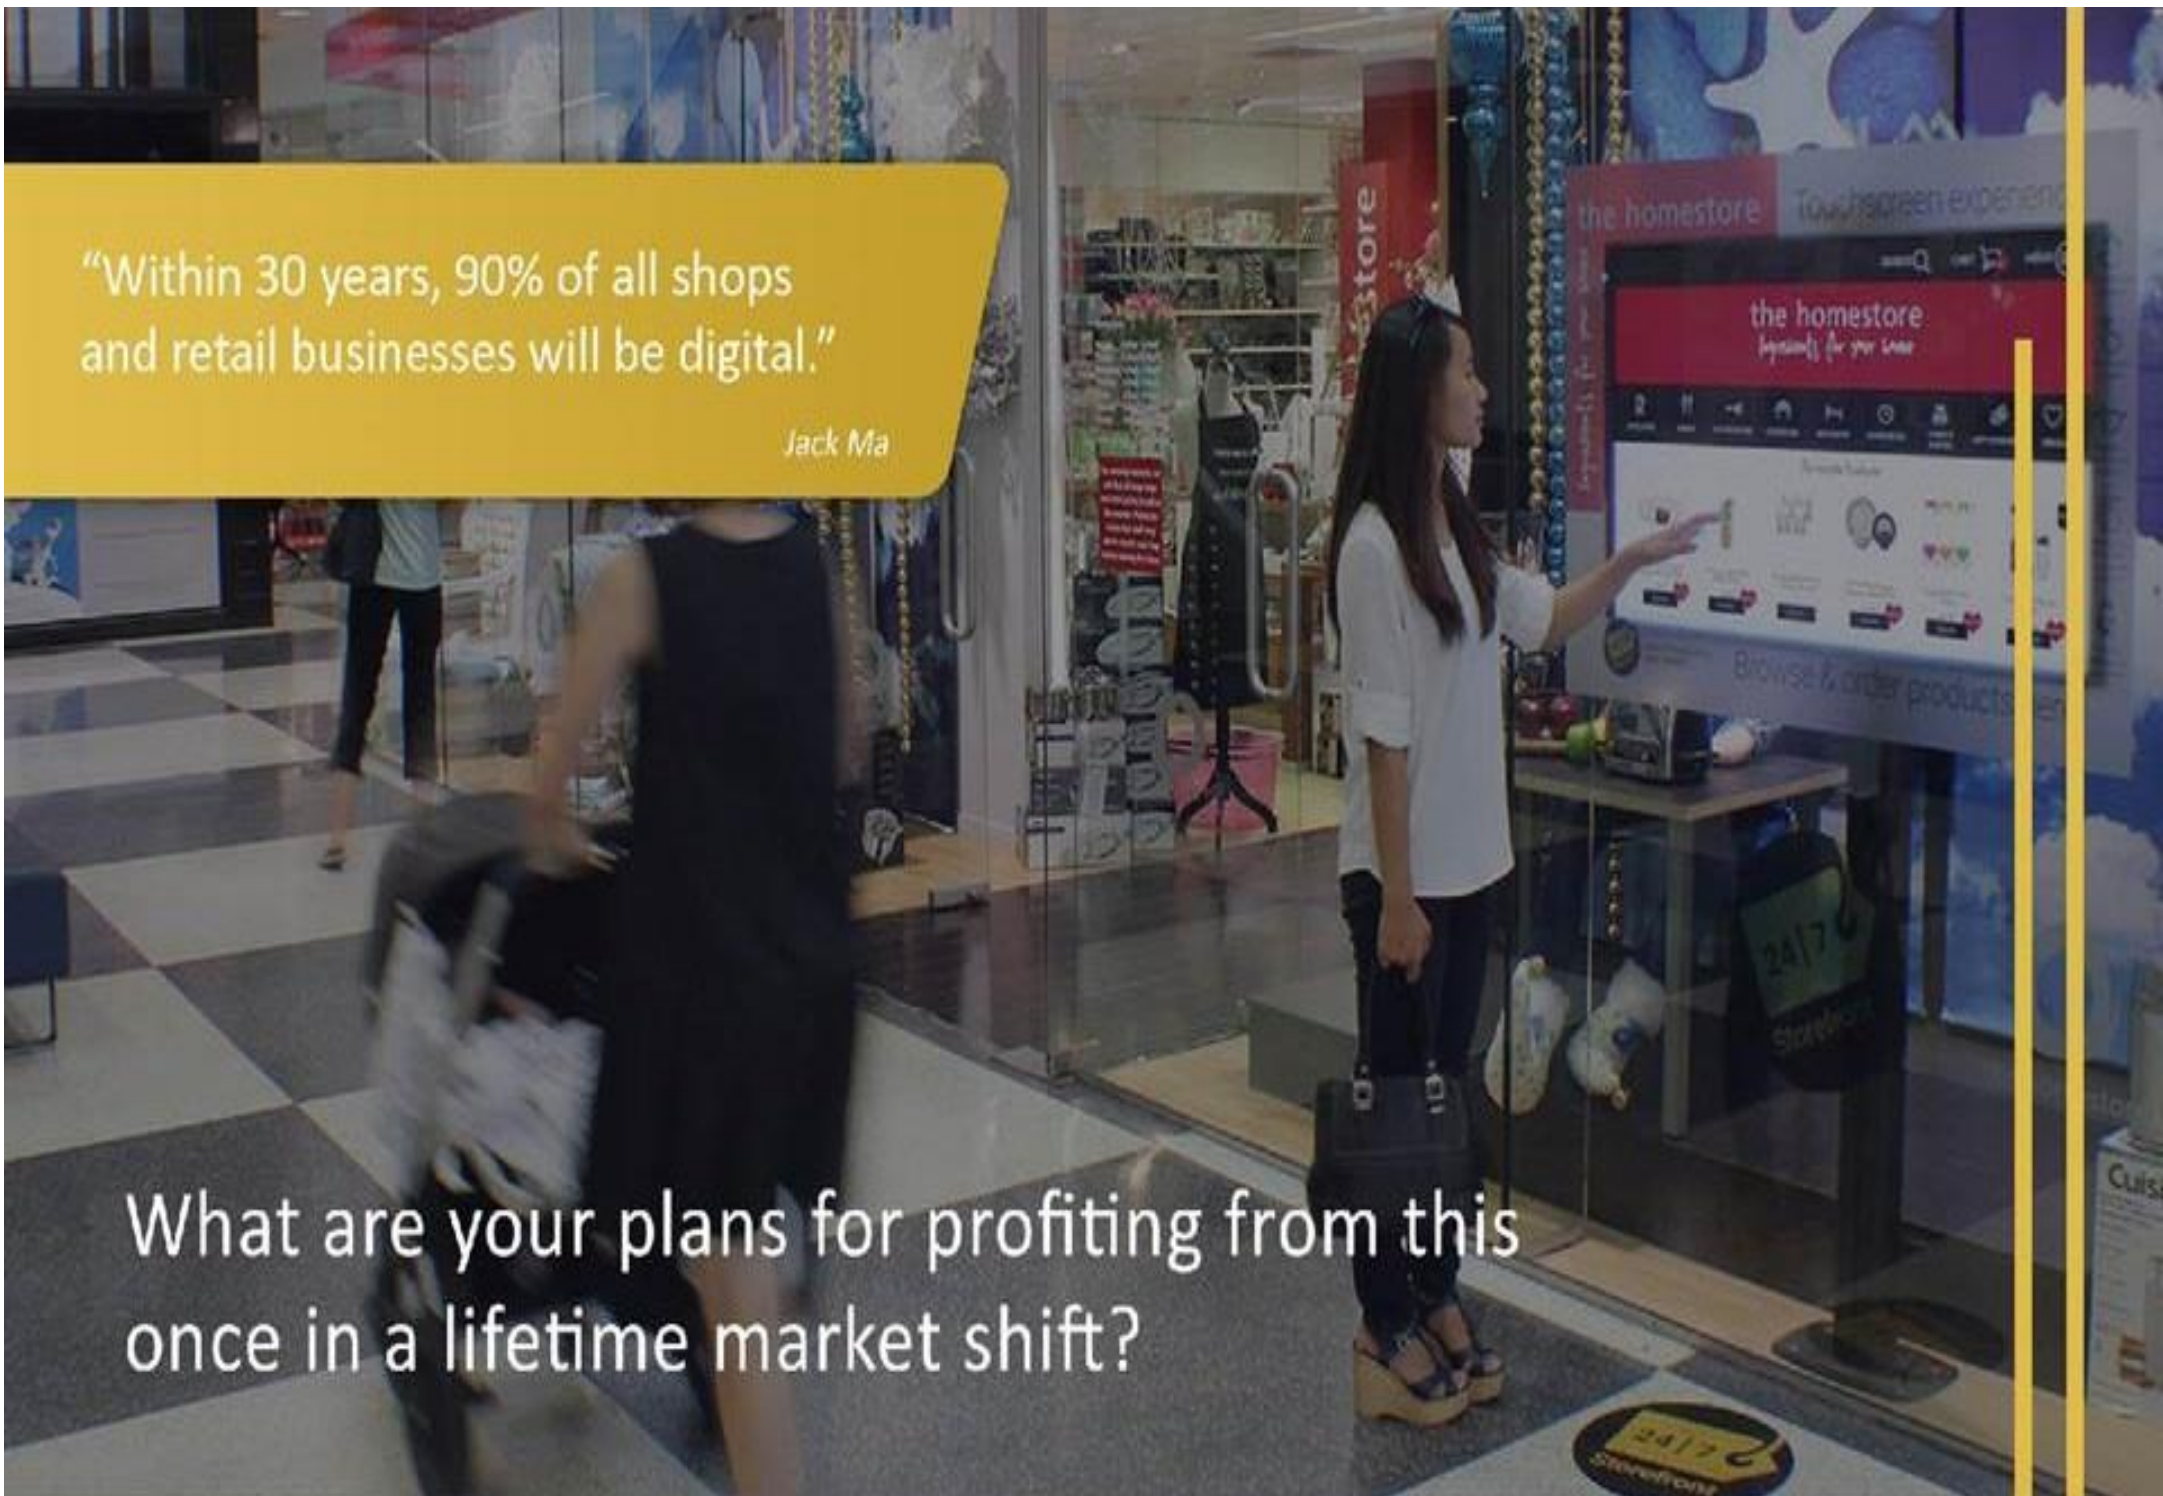

Aleksandar Bozovic

Executive Director Ilgamos.

“Within 30 years, 90% of all shops and retail businesses will be digital.”

Jack Ma

What are your plans for profiting from this once in a lifetime market shift?

YOU CAN ALREADY BUY ALMOST ANYTHING ONLINE

■ retail ecommerce sales
■ % change
■ % of total retail sales

Retail ecommerce sales will increase to \$4.058 trillion in 2020, making up 14.6% of total retail spending.

NEW SOLUTIONS ARE NEEDED

Current payment options:

bank transfers

bank cards

online wallets

Cannot keep up with the fast growing
requirements of modern e-commerce

Obvious solution: DIGITAL CURRENCIES

Pro's:

direct (peer to peer)

fast (instant)

almost cost free

decentralized
they cannot be manipulated

The money the Internet -
the Internet of money

IT ALL STARTED WITH BTC

zero
knowledge

2009

Today

tens of thousands of
businesses accept it and
millions are using it daily

it is here to stay

August 2017

Why ILCoin?

state of the art technology

safe, stable, comprehensive system

wallets for Android, iOS, Windows, web and physical

own blockchain technology, own block explorer

up to 5,961 transactions or 240 M ILCs per second transfer capability

C-Cex listing plus other exchanges - potential of technology

ILCoin ready to support the global growth of
e-commerce based on ILCoin

The creation of the ILCoin based economic
system has started!

“ILC BASED ECONOMIC SYSTEM”
ILCoiners can:

EARN

SPEND

TRADE

ACCUMULATE

ILCOINS FOR EVERYONE'S BENEFIT

The value of a digital currency is determined by acceptability / tradeability

The level of technological sophistication and the number of participants

Global e-marketplace:

Nowadays, most conventional businesses do not have experience in digital commerce

That is why Ilgamos is developing a complete system designed to maximise merchants' profits and also to grow ILCoin into a globally recognized and accepted digital currency

The launch pad of ILCoin, as the base of a new global economic system

More than just a digital currency – it is a comprehensive independent payment system

New market opportunities for merchants

Complete system designed to maximise merchants' benefits - new customers, new markets

Business advertising - at little or no cost

Potential profits from ILCoin appreciation

Entry into the world of digital commerce and crypto currencies

WHY SHOULD MERCHANTS ACCEPT ILCOINS FOR THEIR PRODUCTS AND SERVICES?

- ✓ they gain new customers / new markets
- ✓ more loyal customers
- ✓ more sales, higher revenue
- ✓ free promotion and advertising
- ✓ „accept and hold” strategy – future profit expectations

THE ILGAMOS BUSINESS MODEL:

Ilgamos provides its partners with a mining opportunity; it mines ILCoins

ILCoins received by partners are used for trading and shopping on the e-marketplace platform

One more exciting benefit
ONLY FOR OUR REGISTERED PARTNERS:

ILGAMOS GOLD PROGRAM

- Gold at wholesale prices
- Storage free of charge / house delivery
- 100% buyback guarantee
- Swiss 999.9 certified gold bullions
