

CENTER FOR VASCULAR MEDICINE – WALDORF

More than a diagnosis, your vascular surgeon is your partner in care. **Center for Vascular Medicine - Waldorf** has been practicing vascular surgery to help people when they show up with symptoms such as pelvic pain, discoloration of the lower extremities, blood circulation, swelling, restless legs or feet, blood clots, and ulcers. Our surgeons use the most advanced technology and techniques to quickly diagnose your condition and offer the best treatment options. We want our patients to feel empowered by their knowledge about their condition so they can make informed decisions about their options in order to get better results from their treatment plan. Our board-certified surgeons have years of experience treating these conditions. We know that patients are looking for a team of doctors who can give them the best care possible and help them feel confident in their treatment plan. When you're in need of a **Waldorf vascular surgeon**, just call us!
