OPEN CALL

BRITISH – CROATIAN FELLOWSHIP PROGRAMME Climate Change and COP26

The British Embassy in Zagreb is delighted to announce the **third round of its Fellowship Programme, a four week online educational programme for future Croatian decision makers.**

The purpose of this year's programme is to learn more about the UK's policies on tackling Climate Change, exchange experiences, as well as to create partnerships between the two countries, in the run up to the next year's COP26 Climate Conference in Glasgow.

The programme is targeting individuals working for the Croatian government, NGOs, or businesses whose work is focused on climate change, green recovery and green solutions.

We aim for the programme to create opportunities for future cooperation, as well as potential participation at some of the COP26 related events in the coming year.

The programme will be comprised of four weekly half- day sessions, organised via Zoom, on a targeted set of topics, with participation of relevant UK authorities on climate. The sessions will be dedicated to tackling climate change and driving climate action, developing initiatives that reduce carbon footprint, drive progress in areas of transport and nature and promote green technology expertise in business and trade.

Attached is the draft programme of activities, which was jointly created by British Embassy in Zagreb and DODS Group, our partner for this project.

The programme will take place from 26 January to 16 February 2021 and will recruit a total of 12 representatives from Croatia.

Candidates should fit the following profile:

- Representative of Croatian government, Croatian registered NGO or a Croatian registered business with a proven experience of dealing with climate change topics, green recovery or green solutions.
- A good working understanding of English that would enable a candidate to follow the programme and participate in discussions.
- A strong CV that shows leadership potential and experience in green topics.

All candidates with an intention to apply must participate in all four dedicated sessions to obtain a certificate.

Application should include a CV and covering letter and be sent to Ms Monika Suknaic on Monika.Suknaic@fco.gov.uk by Monday, 18 January 2021.

For any further information about the programme and the recruitment process, please contact Ms Suknaic by email.
