# International Universal Education Project

---

1. Each government has its own right to use this document for the application in order to teach adolescents, and the Youth Union grouping.
2. On behalf of the Government Imperium of Diamond's, is entitled to all legal and peaceful countries in the world, take advantage of the possibility of direct education of students of political and economic schools for gaining experience in the project to develop the skills and experience of students in building basic legal and civilizational structures of state and political functions on real political and state level.
3. Governments of countries therefore have the right to instruct their own State University for the opportunity to create a team of students who will expand their practice in real situations and to develop their own expertise in building a civilization on the foundations of a peaceful purpose, and the development of basic markets and shops for the function of the state strategy for development health, security infrastructure, social rights, building cooperation with basic International authorities for the postal service, telecommunications, geographical statistics, and organizing communication with public companies, expansion of relations with International bodies, NGO's, cooperation in the media and expanding the peaceful ideology and support for the implementation of International rights, broaden their experience at the level of diplomacy and basic logistics, development and humanitarian interests.
4. States and therefore creates educational centers of development interest act, which will then be put forward to stabilize earnings and civilization Imperium of Diamonds, and consequently for the payment functions of the project and achieving deserved success between universities and business associations that created project.
5. Number of students that will organize public conferences for education and humanitarian and peaceful development, and the expansion of educational and development interests in the company.
6. Universities and educational centers together with governments because they can acquire business and political partners and also expand business contacts on behalf of the Imperium of Diamond's, and thus at the same time build a common trade market between our countries, and it will be applied direct act of education and also ensured direct profit for all educational entities and states who participated in the project.
7. The target is to develop a stable chain of basic infrastructure construction, industry and agriculture, science and education, social policy and civilizational foundations of the state capable of existential independence, and the establishment features for lawful intelligence state, establishment of refugee camps and teaching prevention of crisis or threats of today's world dimension.
8. The first objective is to develop financial relations between states and banks, and the establishment of a stable foundation for civil infrastructure capable of managing the national economy, the building of the use of management principles of investment and business development strategies. At this point, the success of the development, the federal government Imperium of Diamonds gets the full capabilities provide the ability to use state financial budgets for the purpose of building the education of state intelligence from its own sources of funding and available resources.
9. The federal government Imperium of Diamond's best promotes the growth of education and experience at the position of the Office and Cadastral departments, positions of government Ministries, education, even at the level of the Senate and Parliament, in the interest of the constitution Imperium of Diamonds also practice at the Royal Council and State Commercial departments, and also City Council, and always with a view to developing education in the intention of peace, democracy, justice and International law.
10. Next steps education may be intended for the development of intelligence Atomic Peace policy, space policy, universal human rights, states' rights to their culture, language and education, children's rights, the principles of rights on the Prevention and Punishment of the Crime of Genocide, as well as International law for the suppression of corruption, refugees' rights, health rights, universal nature and extent of natural UNGA conventions and the fundamental principle of International politics between states.
11. Government Imperium of Diamond's so together will meet with representatives of governments and universities, and it will be common agreement created a plan designed to ensure the stable development by contracted capacity on a commercial basis and also limit the information open Interium government according willing to approach the governments of countries that support the educational project.
12. Government Imperium of Diamonds and monument in its own territory to build the heritage monument in the form of the Education and International Student Centre that is used for conferences between students and universities, and the expansion of the International Youth Diplomacy.
13. Students who have supported the growth of the civilization and development of their education, that they have all rights to the use of other special benefits for their own

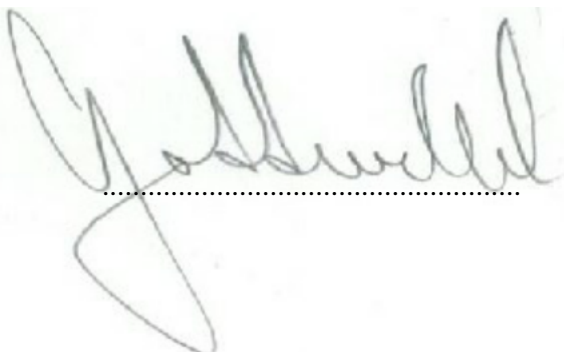

- business plans and support for subsidies from the Imperium of Diamonds.
14. So for the purpose of International peace and proof that the modern era of diplomatic relations and the development of universal principles of peaceful Global society and system.
  15. On the project can collaborate International organization UNESCO, International Business Alliance states, political and peaceful organization governments, along with NGOs and groups.
  16. The federal government Imperium of Diamonds so grateful for every government countries and states that are willing to promote the peaceful development of the states and develop the education of future generations of all participating states.
  17. Another goal of this step, the Educational ride is an act in order to create an International institution composed of the governments of countries who together want to promote humanitarian development of the fundamental forces of the state Imperium of Diamonds, and thus jointly establish joint diplomatic relations, commercial markets, and protection for safety in the developing country, and as well as the rights and safety of students universities act as well as Your state interest.
  18. Global Education Act created intelligence therefore remains preserved as a legal subject multilateral groups that it can use created its own logistics to the next step of development between countries and ensure humanitarian goals also in other countries of the Third World.
  19. The federal government Imperium of Diamonds is thus demonstrating its own intention to develop a state of the level of peaceful position and secure the project did not affect the risk of any form of stability of International political systems and Rights ensuring peaceful society and security between states and the federal government Imperium of Diamonds also asks all governments throughout the world the opportunity to demonstrate genuine peace ideology and support for the operation of the principles of the UN Charter of universal principles to promote the growth of states and the peaceful and friendly and security purposes.
  20. Governments of countries therefore have the right to initiate an organizational act and grow together logistics infrastructure, meaning the development of intelligence between educational centers and the rest of the entities that are able to apply for the purpose of educational development.
