1.88 Previous Week

Three Rivers Public Health Department

Dial is intended to give an overview of the current risk of COVID-19 in the Three Rivers Public Health Jurisdiction. The guidance for each risk level is based on federal and national guidance published by top public health experts. To see the guidance for each risk level click on the risk level button at the b..

All Three Rivers Jurisdiction (Dodge, Washington, Saunders)

Dodge

Washington

Saunders

Updated September 30, 2020

The main factors considered in the risk dials each week include:

- The increase in the number of COVID-19 cases over the past three weeks.
- The increase in the percentage of positive COVID-19 tests.
- The capacity of the district and local healthcare system including the number of patients hospitalized with COVID-19 and the ventilators being utilized by COVID-19 (suspect and confirmed patients).
- The presence of community clusters and or community spread.
- The availability of testing in the district and local communities.
- The availability of 3RPHD to trace all identified contacts of positive cases in 48 hours.

As a reminder 3RPHD updates the community risk dials each Wednesday, and the 3RPHD Data Dashboard is updated each weekday. Please visit our website to learn more.

For questions or more information about COVID-19, please call Three Rivers at 402-727-5396, email info@3rphd.org or visit www.threeriverspublichealth.org
