INDIA

Indian Agriculture -Statistics –Advantages –Disadvantages – Opportunities

*(Key Issue: Removing Controls &Trade Barriers – Free Market)

S.NO	DETAILS (More details in Annexure – I)
1	Statistics 1.1) Land 172 MH - Farmers - 540 million people (110 Families) 1.2) Production Rice -Wheat - 179 MT – Fruits – Vegetables 189 MT – Milk 100 MT Cotton 30 M Bales
2	Advantages 1.1) Cheap Labour - 365 days sun shine – Diverse Agro Regions – crops – animal Husbandry – fisheries 1.2) Low Investment – Competitive Agriculture. 1.3) Native Crops – Mango – Natural Fiber – Medicinal - Organic

3.

Disadvantages

3.1) Government Controls - Centralized Agriculture Planning – Restrictions – Trade - Prices - Procurement - Processing – Storage - Exports.

3.2) Indian agriculture is stagnated – 400 million malnutrition – children – women – 30,000 Farmers Commit suicides - Rural Unemployment and Social Unrest.

3.3) Manipulated policies – suppressed prices – institutional failures

4

Opportunities

4.1) Scope for increasing production - land - Water utilization.

4.2) Scope for investment in agriculture - Financial - Technologies – Markets – Consumers

4.3) Scope for Diversification - Bio Diesel - Natural Fibers - Aqua – Meat –

4.4) Realization on importance of agriculture and welfare of farmers.

S.NO	<p style="text-align: center;">DETAILS</p> <p style="text-align: center;">*(Key Issue : Empowerment of Small Farmers)</p>
3	Needs for small farm sustainability in developing nations
3.1	Agriculture Centric – Farmers based economic – Policies and planning.
3.2	Empowerment and involvement of small farmers in agriculture planning, implementation and management.
3.3	Access to Information – Science – Technologies – Markets – Policies – Consumer choice – global trends – Quality parameters for improving productivity , quality and achieving global competitiveness.
3.4	Removal of controls – Licenses – Restrictions – Monopolies for Free Markets.

3.5	Increased Investments by Governments – private – international – to provide economic equity to small farmers and achieve food security.
3.6	Institutionalization & Legalization of farmer Organizations for studies , analysis lobbying and curtailing Exploitation.
3.7	Partnering with private sector (Indian and International) for Marketing –technology access and utilize global opportunities.
3.8	Join International farmers organizations for common causes.

<p>SL</p> <p>•</p> <p>N</p> <p>O</p>	<p style="text-align: center;">DETAILS</p> <p style="text-align: center;">*(Key Issue : Networking through CIGS)</p> <p>Key Words FO = Farmers Organizations CIGs = Commodity (Producers) Interest Groups</p>
<p>4</p>	<p>Need for establishing a professional (apolitical) small farmers organizations (FOs):</p>
<p>4.1</p>	<p>In developing nations Pro-farmer policies will be opposed by the organized sectors</p>
<p>4.</p> <p>2</p>	<p>Farmers empowerment will not be allowed by the political / vested interest.</p>
<p>4.</p> <p>3</p>	<p>Politicians and administrators will oppose de-centralized agriculture planning.</p>

4. 4	FOs , CIGs can efficiently plan and manage resources to improve productivity, quality and establish own processing and marketing arrangements.
4. 5	FOs / CIGs networked at different levels will have capacity to evolve favourable policies, make institutions accountable, curtail exploitation and lobby.
4. 6	FO / CIGs will enable them establish partnership with Industry / Research / Govts.
4. 7	NGOs working in developing nations cannot network small farmers – NGOs are non-democratic – personalized agenda – limited capacities.

CIFA ACTIVITIES IN INDIA – SUPPORTED BY AGRITERRA
