2021 SSC TUATARA COUPÉ ADDENDUM ONE

“MISSILE” TWO TONE PAINT

The “Missile” paint livery is a two tone finish. The center of the car is painted in a contrasting color to portray a missile shape from a top down view. The shape follows the triangular form of the front hood and narrows with the tapering form of the rear hood. Note: Image depicts Nose to Tail Racing stripes which are available as a separate option.

2021 SSC TUATARA COUPÉ ADDENDUM THREE

HIGH DOWNFORCE TRACK PACKAGE

The High Downforce Track Package for the 2020 SSC Tuatara provides nearly 3x the downforce at 160MPH vs. the base car. The exterior features ALL NEW carbon fiber aero aids including a high downforce fixed wing with vertical stabilizer, large diffuser, side rockers with directional vanes to optimize airflow, and a larger multi-piece front splitter with integrated dive planes. The Track Package also includes the “Track” Interior (see Page 19), with an exposed carbon fiber dash & roll structure, Alcantara, choice of Sport Enduro or Racing seats, and four point racing harnesses (to be installed by dealer). Given the substantial increase in downforce, Tuatara’s optioned with the Track Package will achieve a top speed of < 300 mph.

Version 2021.11

2021 SSC TUATARA COUPÉ ADDENDUM FOUR

COLLABORATION WITH JASON CASTRIOTA

Work directly with Designer Jason Castriota to create unique one-off design features, including one of a kind exterior body. Your car will be signed by Jason and you will receive a book documenting the experience, as well as an original piece of artwork from Mr. Castriota.
