

Knitted Vest For Baby Girls

I'm Knitting

Designed by: Esra Kaya | Edited by: Jessica Los

Hi dear ladies,

I share with you the wonderful vest Esra Kaya (@esrosun_orguleri) has designed for his daughter. This cute vest is a good work for the beginner level. If you have a little girl or if you are expecting a baby girl, you can try this knitted vest.

Required Materials

Yarns: Nako Saten (2 balls)

Related Needles: 3.5

Size: 0-3 years

I used the Nako Saten yarn in a pleated vest pattern for the baby girls. I used needle with number 3.5 for this pattern.

How to knit vest pattern

I started with 84 stitch. I made 1 purl, 1 straight [rib stitch](#) along 2 rows, then I made 3 rows stockinette stitch. I created a buttonhole for the first stockinette stitch.

For Yoke, I knitted as it will be separated the front side is 16, the arms are 11, and the back is 26 stitch. Increase places are 8 rows of knit. I then made 3 rows of stockinette stitches. In the meantime I continued to increased, I made 16 increments.

After the increase, I again made 3 rows of stockinette stitches. At the same time, I continued to open the other marrows 10 times. After 3 pieces, I reserve out the arms and went to the body part. I made a 6-stitch stocknitte stitch for the front parts. Then for pleated; I found the exact center of the stichs on the front and back, and I stitch it. I did this every 6 in 1 rows. I increase it 1 of 6 rows from the left and right side of the single increase i made. I continued until i had 21 stitches.

I have increased the stitches in the reverse from front, front from reverse so that the reverse will be flat. I made 5 rows of stockinette stitch when my enhancements were 21 and finished the mane. Then I decorated it with rose embroidery (Brazilian Embroidery) with a needle on it. It is already easy for those who will knit this vest. Goodbye
