

How to create multilingual template free

First step

Before you start, you must download these files

Download demo of multilingual menu

Bo8 file

<https://docdro.id/1wCQBlu>

<http://www.mediafire.com/file/pt2fbag8bcapcl/bo8.pdf/file>

Download demonstrated video

<https://docdro.id/qGuiJlP>

Download filer BO (menu template)

RBO FILE

<https://docdro.id/xr1fsro>

<http://www.mediafire.com/file/dgyyp8fqb24e1u3/RBO12.docx/file>

Now start

For demo press any language and see

Back to menu by arrow

Then see the video to know how to create your own menu

How to create your own menu

Use the template

Whatever your menu language

Second page of the template press (me)

Insert your menu as word or pdf or picture

Go to google translate and press translate document

From your language to Arabic, Russian, chines.

The free version 4 languages

The pro version contain all word languages

Then copy past in template for each language

Just press the name of the language in template

The page will appear of that language

Insert the translated menu to that language

Do not insert translation at any page only the specific page

By pressing the name of the language

You can translate menu through official translation office

To avoid translation mistakes then copy past

In the page of the specific language, you reach it

By pressing the name of the language in the template

Once finish save as pdf

Transfer to your mobile or tablet

Just press any language the menu

Will appear by that language

You can insert pictures as you like in the menu

It is better to put number for every item to know it,

If the guest language is different

No limitation to number of items in the menu

No limitation of languages in pro version

You can change menu at word copy but not at pdf copy

You can send the pdf of your menu to any mobile

or tablet or computer you can print it

For any question
