<https://www.sishair.com/6-easy-ways-to-fix-any-bad-hair-day/>

Here are 6 simple and quick tips to help you fix bad hair day. **1. Dry Shampoo** Dry shampoo not only can absorb excess oils but also can add a volumizing texture to your hair. It is recommended to use little by little to make sure not to use too much. Otherwise, it will be noticeable. **2. Braids** Braids not only cover up that second day hair, but also look so much better on second or third day hair. **3. Tease roots** If you have flat hair, you can backcomb the roots, which will instantly lift the hair and give it a lively as well as fuller look. **4. Embrace the frizz** In general, we don't need smooth hair all the time. We can braid hair or put hair in a boho-chic looking bun. **5. Wash half hair** If we don't want to spend much time washing, conditioning, and drying the hair, we can only wash the front part of our hair when we are in a rush. And, we can only wash the bangs if we have bangs. **6. Rock that cute hat or headband** Rock a cute hat with a side braid. Alternatively, tease hair at the crown and put on a thick headband.
