Manager Atlas Telecom Romania

2003 - 2009 (7 years)

Anca Verma was heading the implementation and expansion of networks for Atlas Telecom service areas in Romania. During tenure at the helm of affairs at Atlas Telecom Romania, Anca was also nominated on the Board of Directors for netTV project of Atlas Interactive India Private Limited in 2003 and successfully implemented the installation and commissioning of the prestigious US\$ 2 billion TV over IP network in several Indian cities.

Member of the Board of Advisors ~ Atlas Interactive India

2003 - 2006 (3 years)

Atlas Interactive India Private Limited, a joint venture corporation with the Atlas Group of Companies provides a range of video, voice, data, internet services and interactive content to customers in over 70 countries. The company was founded in 1994, is privately owned, and has proven highly entrepreneurial in capturing new and profitable market opportunities arising from market liberalisation and new technologies. Atlas has launched an innovative local mobility service in Romania, using DECT, has the necessary technical, commercial and financial skills, as well as a strong presence in India to undertake various projects. Sales revenues of Atlas Group of Companies exceed US\$ 500 million

Atlas Interactive India is creating a new business on behalf of fixed line telephone operators to provide an unparalleled range of TV and internet services to residential and business customers in India. For the first time, Indian households will have access to a wide range of basic and premium television and radio channels, on-demand videos and music, interactive services, email and web access, videoconferencing and other communications services. TV services will be more extensive and of a higher quality than are available today on cable or satellite, while internet access will be at true broadband speeds. By facilitating email and web access via the television set, netTV will help India become internet-enabled, overcoming the constraint of current very limited PC penetration.

Atlas' netTV plans to use state-of-the-art, but proven, IP (Internet Protocol) over DSL, offering the greatest service flexibility at the best quality/cost combination. netTV will install complementary equipment in fixed line operators' exchanges, enabling a rapid and cost effective rollout of services. netTV enterprise valuation in 2005 was US\$ 2 billion.
