Mission I-M-Possible/
The AIDS Army Intl
The Wall of Flame of Hope and Healing*

Brief History

All my life i had dreams of being able to be of service to the community. From the mid 90's with the handover of South Africa to a new Government I was filled with both Hope for change and apprehension at the Crime, Violence and Health problems esp HIV/Aids. Hence the beginning of the AIDS Army Intl.

Since then I have spent much time and personal resources to address these issues and over the turn of the century I took off 1-2 days off my practice (except when I was in the UK for 9 months). I have always looked for funding – either by an alternate business or from sponsorships from NGO's or the SA Government.

During the course of this journey I have had the pleasure of meeting incredible people wanting to make a difference to Humanity.

The Limiting Factor was FUNDING!

Most of the Projects we initiated were funded by myself and some private sponsors and friends.

We approached many SA Government Institutions for funding – without being able to access 1 penny due to nauseating corruption!

With the GCR – this will be Possible!

Summary of Anticipated Projects

1. Prevention of HIV/AIDS in South Africa/Africa

Through addressing Hunger and Poverty -

1.1 The Champion of Champions

This is a Live Reality TV Program that Rewards Positive behaviour – Challenging the School Kids, Teachers and Schools. Eventually extending to Businesses.

Funds needed – for Marketing, Prizes – eg Scholarships , Buildings and Facilities for the Schools etc. The Final Award evening similar to the Grammy's to acknowledge Excellence with Building up the Community.

1.2 Mission I M Possible

This is a Holistic approach to Optimize Nutrition for the Children through Organic Veg Gardens and Earthworm Composting. These are established at Schools and from there to the communities. This Project is linked to 1.1.

Flower Beds growing popular Flowers can be established to sell and raise funds for the schools. Flowers are in demand for all occasions – Weddings, Funerals, Valentine's day etc

1.3 Earthworm Composting – Fertilis

This is part of the Recycling Promotion and Awareness to everyone with Earthworm Composting in taking care of our Environment.

1.4 The Rainbow Kids

The Play was written and performed to highlight the above issues.

Funds needed to publish the Book, Promotion of the book along with Toy Characters. A Movie of the play is also planned.

1.5 Mission I-M-Possible 2

An Addendum to 1.2 – this involves re training Parolees on veg Gardens etc to offer a rehabilitation of those released from Prison.

They can be Trained to Crochet/Knit Blankets too.

1.6 Gardens of Eden and Soupnam

In every Metropolitan area – establishing Gardens of Edens to Gardens of Eaten.

The Soup Kitchens offering meals to the hungry helps to train the hungry to establish Seedlings and then Veg Gardens and Fruit Trees at designated areas.

After a few months they learn to harvest the crops and seeds from the Gardens back to those offering soup Kitchens.

A year or so later the recipients are equipped with the tools to start Soup Kitchens elsewhere – and so a Soupnami!

1.7 Everyone to be a SOB and SOS

Save Our Bees and Save Our Seeds – Veg and Fruit Seeds – Doing so we can solve hunger Through God's Law of Abundance at the Speed of Seed!

1.8 Giving People a sense of Independence and Purpose will help addressing Women and Child Abuse. Something close to my heart.

2 Environmental Issues

2.1 I have an idea to push back the Desert Planting trees surrounding the Desert. This includes Fruit Trees, Shrubs, Flowers, Herbs and Indigenous trees. This creating an ecosystem for the Birds, Bees and other Insects.

2.2 Encouraging Low cost housing that is environmentally friendly – Compact Polystyrene and Foam Concrete Powered with Solar Power stored with New Glass Batteries. These homes will be designed with a hot house to plant own Organic food. These homes can be built for the homeless.

2.3 Establishing a Rhino Sanctuary in China – to Save the Rhinos

2.4 Establishing Earthworm Recycling Plants to recycle Abattoir waste products.(Fertilis)

2.5 Help and Support Promotion of Alternative energy – Solar and New Battery Technology.

2.6 Invest in New Solar technology/Free energy for basic needs – lighting, hygiene and cooking.

2.7 Find the Best Water Harvesting and Filter means to Provide Clean Water wherever we are..

3 Books and Bicycles for Africa

3.1 Collect and distribute Bicycles to the Rural areas of Africa so the children can have means of travel to School.

3.2 These Bicycles can be hired out on weekends to tourists to ride in the Reserves Promoting Eco Tourism at the same time generating income for the families.

3.3 Establishing Supply and Repair centres to maintain these bicycles – creating jobs and business.

3.4 Working with Rotary bringing in Books for distribution to schools.

4. Holistic Sleep, Exercise , Weight loss and Wellness Clinics

From an ENT point of view – my interest in treating OSA and Snoring. This has a wide ramifications from a Morbidity of the person affected. This also affects the person's environment both at home and at work – in performance and in Interpersonal relationships.

I would like to see these holistic centres globally where patients are treated in a holistic fashion – addressing issues -

Healthy Lifestyle – as above with Improved diet and exercise
Places to relax with Spar and Therapeutic Massage
Treating Snoring and Sleep apnea Holisitcally.

I believe this will contribute to Peace in the Family and improve the abovementioned and many other issues. These can be centers of Research to Optimize our Lives.

I have a Book to write – The Breathe of Life

5.Funds to Support The Churches and Christians Persecuted

Donations will be made to aid our Fellow Brothers and Sisters in Christ in every part of the Globe.

6. Funds to Build a Hospital in Terrace BC

Terrace community has been i need of a New Hospital for many years and the community has to travel to Vancouver/Prince George for Treatment. I would like to fill the \$3-4K Can\$ needed to be raised by the Community so tehy can access better facilities.

7. An Independent Multi Media and Production House

With all of the above Projects we will need to establish a dedicated Multi Media center for Planning , Propagating and Spreading the news and our training materials.

A Fully equipped TV/Radio/Multi Media Broad casting studio is envisaged.

We will need to acquire land to build Training centres with fully equipped facilities to Train the Trainers

8. Scholarships to Award Champions

With the selection of Champions and those showing potential – provide full scholarships to help the Youth advance their studies so they can be better contributors to society. As in 1.1.

9. Use of the Funds

There is a group of Motivated people I have in mind for the Initial execution of these Projects.

Their Needs have to be met adequately so that their Main focus is to execute the Planned Projects for the greater good of Mankind.

With the funding available – these Dreams can be realised!

A percentage of the Funds will be used to Invest in Property , Businesses etc to generate income generating funds for sustainability.

We need solid advice wrt Business plans, Taxes etc.

***We're on a Mission I-M-Possible! -
Because the Great I Am
has made it Possible!***
