

# ATTENTION EMPLOYERS SEEKING TRANSLATION SERVICES:

I am multilingual native Slovenian speaker with close to native English language skills.

I will professionally translate your text from and to targeted languages as seen bellow with the most competitive price and on time delivery. Will analyze your text and have one translated into logical sentences/paragraphs for natural feel rather than use often times seen word by word translation.

Will do research and use whenever necessary special glossaries to ensure every word is in the correct context. Automatic translations are just wrong and hard(**awkward**) to understand.

See my resume to see if I can be of any help other than just project seen here.

Available translations are:

**English** to Slovenian, Croatian, Serbian, Bosnian  
**Slovenian** to English, Croatian, Serbian, Bosnian  
**Spanish** to English, Slovenian, Croatian, Serbian, Bosnian  
**Polish** to English, Slovenian, Croatian, Serbian, Bosnian  
**German** to English, Slovenian, Croatian, Serbian, Bosnian  
**Croatian, Serbian, Bosnian** to English and Slovenian

When it comes to professional, don't trust other than to best of the best. My background with rich variety of skills(**incl. technical mechanical engineering technician**) gives me yet additional advantage over here seen competition.

No subcontracting either. Everything(all) is done DIRECTLY by myself personally. Work done on time. Your complete satisfaction is my main priority.

For best and fast results(FREE evaluation), contact me immediately.

Sincerely yours,  
Sebastian
