### RV/INTELLIGENCE ALERT - October 9, 2019

***(Disclaimer: The following is an overview of the current situation of the world based on intelligence received from several sources which may or may not be accurate or truthful.)***

Multiple sources are agreeing that a "hot coup" is being planned against President Trump.

In the event of a hot coup, President Trump will declare Martial Law and order US Marines to initiate mass arrests.

The Recent security staff cut in the White House was an excuse to pre-emptively kick the CIA out of the White House prior to the mass arrests.

Mass arrests are expected to take place sometime this month [Red October].

Dramatic changes and reforms within the US government are expected to take place after the mass arrests.

US Marines will continue to aid law enforcement to keep the peace during the changes.

The gold fringe coming of all US flags will be the indicator that the Republic has been restored.

Meanwhile, the IMF is expected to make a significant announcement by the end of this month (October) which is timely with the expected mass arrests and changes in the US.

This announcement is expected to be about a Global Gold Treaty which will require all nations to begin adopting a new modernized gold standard monetary system.

This announcement will also cause the US release a new gold-backed currency.

According to sources, there is an 80% chance that the currency redemption event (RV) may begin at anytime between now until the end of December.
