## **Congratulation for Marocco unity in African Union**

---

**I King Peter Gottwald, indeed Congratulations !**

I Congratulate You very much in your interests alliance with the African Union and demonstrating that your country wants to develop in a positive way even for peaceful purposes, as well as the interests of growth and prosperity of nations friendship.

Your decision is a great pleasure for me, because it is good that your choice is a unification of the entire continent of Africa, as a continent of unified policy and without intolerance. My personal view and the interest is The One World ideology, the unification of all governments in the world, and the joint creation of a single state covering an area of our planet. Therefore, I also celebrate your sovereign decision which means a new step to form larger world of unitary and alliances between states.

Your decision is also a big step for the country of the Kingdom of Morocco and mostly good step for the presentation of Morocco at International level.

Your membership in the African Union presents a much greater interest of your government to promote human rights and ensure justice and diplomatic cooperation, stopping all criminal actions and drastic action against the human rights of innocent people and civilians.

Your expression of membership in the African Union and your concern for human rights, therefore, also means that your country has a better view of the International representatives of the countries and thus your country is a much better chance to win business relationships much more modern development, because stopping the deterioration of Human Rights it is really a much more significant step than to stand publicly as a deterrent to the whole world.

Morocco has a favorable International position, as intelligence is able to develop, and if your real support for human rights particularly in Western Sahara, then your country will obtain greater success abroad, the country of my party in Europe, and beyond, America and Africa, while open Atlantic and thus the ability to develop into a significant level and position in the International market, even at the level of your civilization.

Keeping human rights in your country is important, and public example You can get the example of countries like the United Arab Emirates, and other countries which own territory in the arid zone and in the desert, but still with the full capability to develop dynamically.

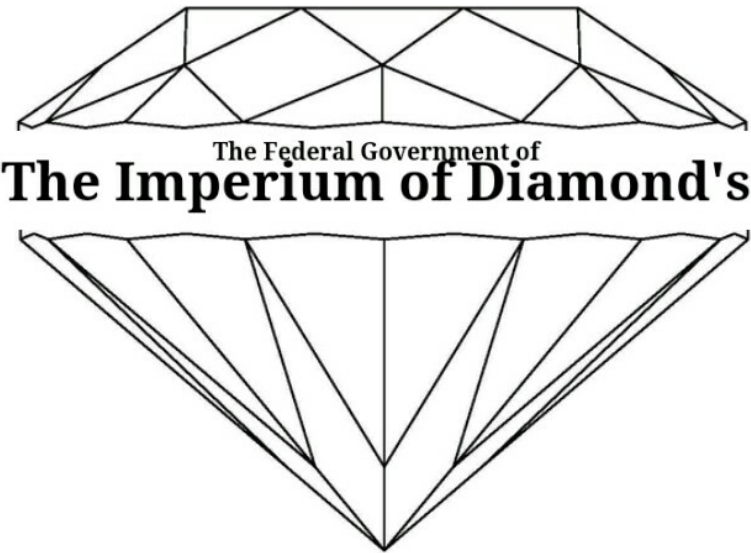

And I certainly want to continue to jointly market and develop our civilizations and common friendship between us, always happy will ensure the development of your country and support the growth of infrastructure, industry and agriculture, the health of your nation and also good growth for the country.

Thank You for your valuable time, it is my pleasure that your government is

the willingness of growth for the peaceful interests and direction of prosperity is the maintenance of human rights, is really best step for Morocco.

Today, it is also true that my country is also part originating in Africa, ID's Diamond Oasis North Eastern Africa Bir Tawil and with full interest to merge with the African Union to confirm actual alliance of African unity to ensure the growth of the common interests of peace policies.

**Thank You for your step that is a great pleasure for many people around the world!**
