

## HYDRATION STATIONS

---

The Transportation Security Administration (TSA) liquids ban forces travelers to dump water/beverage(s) before passing through the screening checkpoint. By adding a dump station prior to the checkpoint (Level 1, Main Terminal) and refill stations beyond the checkpoint (Wiley Departure Buildings) passengers can hold onto their empty bottle/container(s) and have a convenient way to immediately refill at the gate area.

# LVIA Hydration Station

Get maximum visibility throughout LVIA by sponsoring the Hydration Station Program!

All passengers arriving and departing pass multiple hydration station locations.

Completely brand this program to fit your company's needs and goals!

Inclusive of:

- One liquid "dump" station
- Two refill stations
- One tension fabric ad in TSA hallway

## ANNUAL CONTRACT:

12 Month Contract: \$21,600  
+ production
