INFESTED SEWERS OF KINGSHILL

~Event Guide~

Quick Overview

Required level:	**20-100**
Duration:	**11 of August 12:00 - 31 of August 00:00 CEST**

Event Summary

There have been strange noises coming from the Sewers recently, earthquakes are shaking Kingshill, and workers are disappearing during their shifts.

Sir Hardy asks the player to go beneath the Sewers to investigate… where the player encounters gigantic, man-eating worms that have invaded the Sewers and captured the workers for their feast.

You must free the workers and get rid of those filthy worms!

Prepare for the Battle of Unknown!

During the event, all worthy opponents you encounter in your adventure can drop Sewer Keys, with rats having a higher chance to drop them.You'll need them to enter the Sewers.

General Information

- Collect Sewer Keys from worthy opponents and rat monsters (for a higher chance) in all dungeons.
- Use the keys to enter the three maps – Sewers beneath the Harbor, Sewers beneath the Fairground, and Sewers beneath the Crypts.
- Defeat the monsters in those sewers to collect progress (Bronze Plumber's Dogtag) for the main event.
- Collect the Valve Handle, Valve Steam, Valve Spring, and Valve Gate from those Sewers to craft the Valve of the Castle's Sewer (Required to enter the Main Boss room).
- Complete the quests offered by Sir Hardy (in Kingshill) to be prepared for the upcoming Infested Sewers of Kingshill - Rampaging Worms events.

BUT Beware! You need special essences, called Antidotal Essences to fight the main Boss:

These essences deal damage to the main boss and the mini-boss which appears during Infested Sewers of Kingshill - Rampaging Worms events.
Can be acquired either by crafting or from the shop using Andermants.

Infested Sewers of Kingshill – Toxic Fumes

You must finish the non-repeatable Sewers Event quests to access the area for Toxic Fumes. Once those are completed, you will need to enter the Abandoned Sewer Passage and kill the Contaminated Worms which will reveal the area nearby.

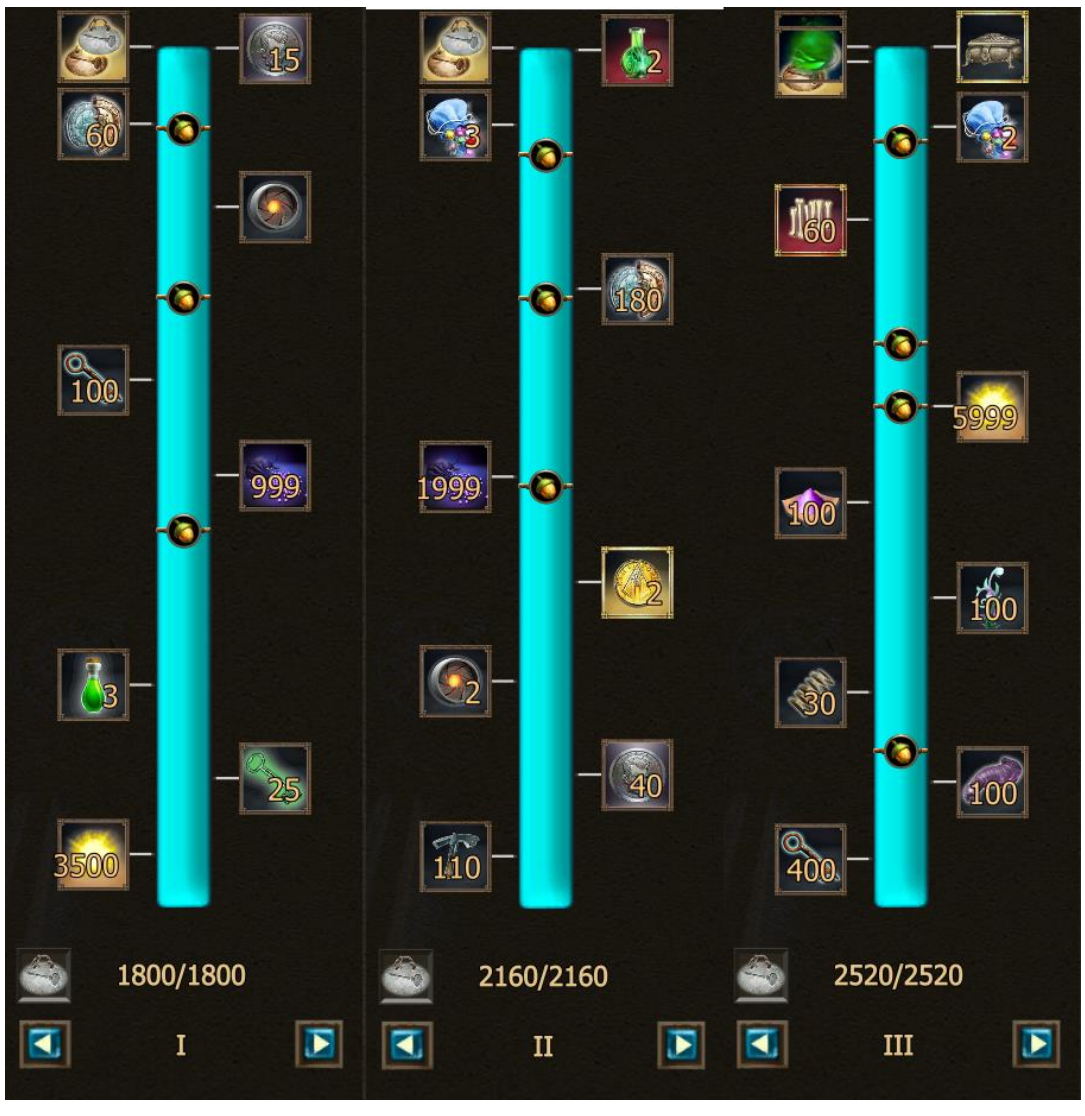

Players will find bodies of citizens there which need to be clicked to collect the Progress for Toxic Fumes.

Once all the worms are killed and the bodies are interacted with, players can proceed to the Boss Room and defeat Mhorblik to gain exclusive rewards such as **Jewel of Poisonous Thorns** and **Death Wink Pet.** Before the fight with the boss, you will need to defeat the guarding him worms.

There are a total of 6 dead bodies/contaminated Grotto Worms in the Abandoned Sewer Passage.

Beware: You need Antidotal Essences to defeat the enemies in the Abandoned Sewer Passage and the Boss room.

Progress Bars (Toxic Fumes) (Level 100)

There will be 3 progress bars* in the Toxic Fumes event. They can be filled up and unlocked consecutively by collecting the Silver Plumber's Dogtags.

There are 2 different variations of the progress bars, based on the following level ranges:

- *Level 20 – Level 50*
- *Level 51 – Level 100*

Infested Sewers of Kingshill - Rampaging Worms

There would be mini-events running all around the Dracania (one map at a time) after a specific interval. Players need to enter the map on Infernal difficulty and higher, which has the Mini Event running, and click on the Mounds of Dirt in the map to find the hiding carrion worm and defeat it. There is only one carrion worm per map, so don't waste your drills after you defeat the enemy and reset the map.

You will need Antidotal Essences to deal damage to the carrion worm and drill heads to interact with the Mounds of Dirt.
