Garena Free Fire MOD APK + OBB: 2020 is the year of battle Royale, no game is as popular as battle royale games. I realize the most popular one is PUBG Mobile but it's miles very hard to get a modded version of PUBG(Playerunknown's Battlegrounds). This is why in this article I will give you a modified version of Garena Free Fire Fire – Winterlands which is Garena Free Fire MOD APK. Besides MOD APK + OBB, Normal APK is also available to download.

If there's no PUBG Mobile then the best game left would be Garena Free Fire MOD APK. Most I preferred is Garena Free Fire mod apk which is nothing but just a Modified version of the game. So Free fire is one extra battle royal game and what the best part about the game is that it's really easy to understand and control.

Like in PUBG, it's far very hard to recognize and master the controls and about guns & scopes for the brand beginners. But on another hand, there's nothing like a noob and you can become a pro in short while.

The latest new 2020 version of Garena Free Fire MOD APK- Winterlands includes many new features. one of my favorite features is Aimbot. Well, most of time it happens that it becomes difficult to target your enemies, especially when your enemies are running from one place to another. In that case, you can miss the fire. It is really difficult to fire enemies when they are moving, what you need to good at for better kill is good Aim.

If you will have a good aim then you will not get a problem while killing your enemies. But I don't have a good aim and I am neither good at killing enemies. This is why our team has specially MODDED the game to a little extent and now you'll have a feature of Auto-aim. You don't need to aim at your enemies, all you can do is just move your gun towards the enemy and gunpoint will automatically move towards head for a better shot. You then just need to hit the fire button, nothing else.
