Stop Trump's drive to war

Trump's escalation of the bombing in the Middle East has resulted in tens of thousands of casualties. His withdrawal from the nuclear deal with Iran risks igniting a new regional war in the Middle East. His warmongering policies are increasing tensions and are increasing the risk of direct military confrontation between the great powers.

We demand that Theresa May stops cheerleading for Donald Trump and participating in his military actions, and that she instead publicly breaks from his push to war.
