

# **YES, NAZIS ARE STILL A THING**

**On Saturday July 18, an assortment of neo-Nazis, white supremacists, extreme nationalists & anti-Muslim bigots will gather in Melbourne for their third attempt to "Reclaim Australia".**

**They want to convince us to be afraid of difference, to be afraid of our neighbours, our co-workers, our families and our friends.**

## **TOGETHER, WE CAN STOP THEM**

**on Saturday July 18**

**10AM**

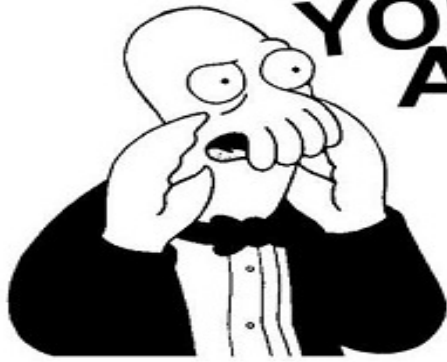

## **TAKE PARLIAMENT STEPS**

**Prevent them from spreading their divisive, hateful nonsense.**

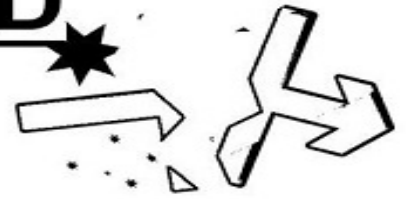

## **NATIONALISTS, FASCISTS, RACISTS TAKE NOTE YOU'LL ALWAYS LOSE IN MELBOURNE**

**STAY INFORMED, SPREAD THE WORD, TAKE TO THE STREETS**

# **YOUR POLITICS ARE BAD AND YOU SHOULD FEEL BAD**

**...and here are (just a few) reasons why**

## **YOU CANNOT RECLAIM WHAT WAS NEVER YOURS**

Everything we see around us is the product of theft. Stolen land. Stolen lives. Stolen wages. It has been two centuries without justice & the dispossession continues to this day. "Reclaim Australia" claims to speak for all who live on this continent, but denies the blood-soaked history of its colonial occupation, telling First Nations people to simply "get over it". What a load of rubbish. This always was, always will be Aboriginal land. Sovereignty over this country was never ceded.

## **WOMEN ARE NOT YOURS TO RECLAIM**

So much rhetoric from 'Reclaimers' is rooted in exercising claims of ownership over women, or as they put it "protecting our women". Such claims display their utter disregard for the independence & agency of women whilst revealing the deep misogyny inherent in their hateful ideology. These claims also serve to whitewash the violent, fundamentally misogynistic nature of Australian society. Despite the gains won over a century of struggle, women remain silenced, trivialised & objectified. They are first to be impacted by cuts to social services. In Australia, two women die a week at the hands of their domestic partners and one in three women will be subject to sexual violence. Fighting patriarchy means listening to women. Fighting misogyny starts at home.

## **'RECLAIM' LETS THE REAL CROOKS OFF THE HOOK**

Demonising 'others' because of their race, cultural background or immigration status is not just despicable & racist; it serves to maintain a status quo that is totally shithouse. There are nearly a million people out of work, another million without enough work & there are ten people for every job vacancy. Paying the rent takes half your pay-cheque. They're coming for penalty rates & slashing funding to schools, hospitals & vital social services just to keep a few billionaires happy. Just who is the real enemy of ordinary people?

## **TOGETHER, WE ARE STRONG**

Solidarity is the way to make a better world for us all, but solidarity only works when it includes everyone. Greedy politicians & dodgy bosses want us divided, so we fight amongst ourselves while they loot the joint. They claim we're too different to coexist, but we know we're stronger together. No tolerance for intolerance! Respect existence or expect resistance!
