Mayor,

Relative to my phone conversation with Mordy Burnstein earlier today, I confirmed that zoning approval is not required if one were to install eruv wires on their property, and that it was not a zoning issue if installed off the property.

Thank you.

So let me understand, these residents can play this little cat and mouse game with the town & this is acceptable? We know what is going on here! Why was Bridgewater ct shut down?? Shouldn't the same LAWS apply to ALL houses being used as places of worship? What does Noise have to do with it? My backyard parties are louder. Drug dealers can be quiet they are still breaking the law. Just examples

Where is the proof the 7 Harvest has been used or hasn't been used? There have been Van loads of men being dropped off at 9 Harvest. But of course, it only matters if your department sees it. One weekend driving by a situation like this, deserves more time looking into it.

Also, why aren't they being considered as one? when they are WORSHIPPING as one? Operating as one?

On Feb 1, 2017, at 3:37 PM, Kenneth Pieslak <kpieslak@jacksontwpnj.net> wrote:

Yes, one of the key points is that the residence is not being used solely as a Shul. It is being lived in as a residence and then utilized for prayer service (therefor dual purpose) for instance on Friday evening. This is allowed. Some of this is 'assumed' as we look at religious routines and sundown gatherings. Some have said they have a group over for dinner and pray after. This can be a multi prong test looking at numbers coming to the home on a 'regular basis', excessive noise, not living in the home and these types of things.

The numbers do seem to fluctuate. And I'm not certain that 27 people automatically makes this a violation. You can not assume 2 people per car as we have found in most instances it is one male arriving in a car, though not always. As far as Harvest Ct. goes we do not look at these homes 'together'. They are separate properties and perhaps one Friday there is a gathering at #7 and the next 2 weeks at #9. This can affect the case of a 'regular basis'. We as Code Enforcement Officers have to be very careful about any 'assumptions' as there are Religious Rights involved and we must report what we find as fact, as we have done.

We will continue to monitor this. Should you have any other concerns, please let me know.

Subject: Re: 9 and 7 Harvest

I thought there is a 25 Max per shul being allowed. Where that number comes from, I still have no idea? The fact that an Acting Shul is even allowed period, I still don't get! So with the two houses added up, that's 11 cars. That's just assuming one person per car. Say there are 2 people per car. That's already 22 people! Let's not forget about the 10 plus walkers!! I'm pretty sure that's goes over 25. I have pictures of 9 Harvest having 9 cars in front & 7 having 6 on other weekends.

I can't understand how two houses that are working side by side together do not deserve some kind of warning or violation? They have already asked surrounding neighbors to put up ERUV wires to attach house to house. How many more houses will be allowed to be used as active Houses of worship in a single family zoned homes? Unless you can explain to me the difference between Dual use home to a single family homes? Can single family homes have Dual uses? Im trying to understand.

Good afternoon:

I apologize for not getting back to you sooner but I was out sick and I am just getting caught up. For Friday evening on Harvest Ct. there were 6 vehicles in the driveway of 7 Harvest Ct. and 5 vehicles in the driveway at 9 Harvest Ct. One car was on the street and no noise in the area.

Also, 6 Meadow Run Ct. was monitored and there were 5 cars in the driveways there with no noise in the area.

There were also other areas monitored in the Township where there have been calls of concern. The numbers you see are the maximum numbers throughout the monitoring period. With this we are finding no violations at this time at any location. We will continue to monitor over time.

Mr. Mayor

I'm truly disgusted.

So since all houses are allowed to gather to worship every week, ALL YEAR ROUND!

And according to the Deal case, Zoning laws have no bearing it sounds like a lost cause! How many Shuls are going to be allowed on one street? How many are allowed in one neighborhood? Will there be a limit to how many houses in our town will be full acting Shuls? I think this should be public knowledge. If nothing will be done to stop it then please tell me how many will be allowed? Why would anyone remain in this town when we are all sitting ducks to a religious take over? Give me one reason we should all not move right now, unless you think we should all live next door to a shul? Would you live next door to a shul?

Here is a recent article! Shuls are going to destroy our neighborhoods if something isn't done! Look how many neighborhoods already have them! Next ERUV wires until we are no longer Jackson but a sub-division of Lakewood!

On Feb 14, 2017, at 5:27 PM, Jennifer Cusanelli <termite027@aol.com> wrote:

I guess it's just a matter of time. At one time we were told "houses of worship cannot operate in a residential area". Not so. We were also told that "no one other than a family member can live in a single family home and pay rent" and now not is the case either. Multiple families can in fact cohabit in a single family residence. This is all very disheartening because the writing is on the wall. We have no control over our residential neighborhoods. It's a free for all. And as far as I am concerned anything that we can do to slow down this process of our Town being turned into a huge religious enclave is automatically shot down by our so-called legal department. It seems to me that someone is going to need to get clever and figure out a way to preserve the quality of life in Jackson. Maybe the answer is to start with a new law firm specializes in land use matters not a law firm that is in the pocket of a radical religious community. Create your own case law! Why are our rights and freedoms are being compromised in favor of a religion? As an atheist I will not stand for religious wires to be put up in my community. And I don't appreciate public schools being rented out to house religious articles such as a Torah. Is there no such thing as a separation of church and state anymore. I have been fortunate enough to somehow get inside The Orthodox community and I could tell you that there is certainly a plan and that plan is to buy up as much as they possibly can and take Jackson. So if we don't get on the ball and figure out a way to slow it down legally then we are dead. I'm begging you all to please pull out the big guns and find our town a proactive law firm or perhaps hire a land/use attorney on retainer to do what needs to be done to protect us. That being said I do appreciate the efforts that are being made by council such as the landlord registration the no knock and most recently the ordinance on dormitories. But we are dealing with a very shrewd group and a very organized operation when it comes to the Orthodox community. baby steps just aren't going to be enough. Respectfully, Jennifer Cusanelli

On Feb 14, 2017, at 4:06 PM, Kenneth Pieslak <kpieslak@jacksonwpnj.net> wrote:

The law is the law. To be specific as far as case law 'the standard of 25 was derived from the Farhi v. Commissioners of the Borough of Deal case, in that case the homeowner had a regular congregation of 15-25

congregants in his home on the Sabbath and other Holy Days. The court held that "the guarantee of freedom of worship as set forth by our State Constitution forecloses any use by a municipal authority of its zoning power to prohibit the free exercise of religious activity in the privacy of one's home." The Court stated that any concerns about noise, traffic and crowding could be addressed adequately by the police power dealing with parking, noise or health and not through zoning.'

As far as a corporation owned rental. This is still a residential rental and as such there is a maximum amount of people that can live full time based upon square footage. That does not prohibit you from having a large gathering or having more people spend the night 'occasionally'.

I would suggest a meeting for any further questions so this can be adequately answered and understood. There seems to be misunderstandings based upon language and many assumptions being made.

Subject: 9 Harvest ct

So just to get this straight! Any house in our town will be allowed to use their home as a "house of worship" as long as they are quiet? So, here we are again! It's all up to one's person's interpretation, one might not find 25 people to be a nuisance. When I find 25 people on a weekly basis to be an incredible nuisance and a negative effect on the quality of life.

So who's interpretation do we go by. Having men sleeping over every Friday night is yes A form of Dormitory! They are being Housed for religious purposes! This isn't having "company" or a family visit.

Let's not forget how we were told the "character of Jackson will be upheld" well this isn't what is happening here. This street on a Friday & Saturday looks like Lakewood. Multiple homes being used for religious purposes.

So basically our town will be doing nothing to stop these homes from becoming Shuls through out our entire town or is it just this side of Jackson, that is collateral damage. We are the older side of Jackson so I guess our neighborhoods don't matter.

Per your email- " I also believe that 'single family owner occupied homes' do not fall into the Code for maximum occupancy. Those restrictions apply to residential rentals and commercial properties.

Isn't this home listed below owned by a corporation? Isn't it a rental?

Ms. Cusanelli :

We will have to ride through and see where the wires are at. I have not seen any on public property and would believe they cannot be on such lands. Understand this does not include the area between a sidewalk and curb as this is a 'right of way' that allows municipalities, power companies and cable providers access to overhead lines but does belong to the property owner. We will investigate and let you know.

Ms. Cusanelli :

With your updated description location I was unable to locate this by driving on New Prospect. As a result I walked the entire walkway along Harmony Farms and I was able to locate one property (#95 Hickory Hill which backs to New Prospect) that had a pole installed at each corner of their rear property connected by a wire (photo attached). Without an official survey/engineer report it would appear that each pole is on the designated private property. This conclusion is based on the fact that the poles align with fence posts to an adjoining property and unless those fences were installed improperly, which does not appear to be the case, this is the private property of #95 Hickory Hill Road. This area joins up with Harmony Farms HOA property which is where the walkway is. In any event this is not 'public property' but at worse case scenario belongs to the Harmony Farms HOA, which becomes an issue between those parties. These poles/wires do not present any safety concerns as they are currently set. The poles are not easily visible from New Prospect, even with looking for them, without foliage and certainly can not be seen when foliage blooms so there is no eyesore issue with or without the foliage. Based upon my inspection I find no violation with regards to this issue in this case.

The poles and wires are on the outskirts. Between the homes and the sidewalk on New Prospect.

> So the wires are surrounding Harmony Farms. I have a few questions. Are these wires on public property? Because when I put a sign on public property it was taken by township employees and "destroyed". How about the safety of them? Do they attract lightening? There is no covering over them. Are they safe for the environment? And lastly why should I have to look at a religious structure of any kind on public property? As an atheist I am highly offended by this and I'm sure other atheists in town will also be. They are pushing. Testing the waters. We're permits requested or provided? Another home listed today with a realtor. People are being pushed out and it's not longer a matter of telling your neighbors "don't sell". It's a matter of the walls closing in on residents. Would you want the home next to you to have 20 men and now woman and children frequenting it on a weekly basis? Respectfully, Jennifer Cusanelli

Ms. Cusanelli :

I apologize for the delay, however, as you know, there were conflicting thoughts/understandings on the ROW that we had to have Legal do some research. As a result we have been advised that the area where the poles are is in what is described as a 'public right of way' therefore not allowed in that area. As a 'public right of way' the things allowed would be utility poles, DOT approved traffic signs, mailboxes and street signs. With this, we are in the process of notifying the homeowners involved that these poles must be removed from the ROW.

Dear Council
members,
There seems
to be quite a
few eruv poles
with wires or

ropes being put up on "the row" or "right of way" in Jackson neighborhoods occupied by Orthodox families.

Apparently they are used to allow an extension of the area in which Orthodox families can travel on their days of prayer. As this may be of religious benefit to them it does nothing but create an eyesore and puts a label on the entire neighborhood. I have inquired with Ken from code and I am told that there is currently no ordinances on record regulating their placement. I respectfully request that this is addressed as soon as possible. If poles are going to be put up then perhaps they should be treated like signage and regulated as such. I have personally had signs removed from the "right of way"

on my
property and
"destroyed" by
township
employees
because
"nothing is
allowed on the
right of way
other than
mailboxes and
utility needs.
If religious
pole are going
to be allowed
then they
should only be
kept of private
property and
not be allowed
to be placed
on the right of
way. Also if
they are being
installed in the
ground should
they not have
to have
surveys done
as to prevent
interference
with under
ground
utilities? Or
are they even
safe as far as
lightening or
high winds are
concerned?

Please
address this
issue. A clear
precedent has
already been
set in regards
to the function
of "the right of
way". Please
consider
amending it to
include that
nothing other
than what is
already
permitted is to
be put on "the
row". Thank
You, Jennifer

Mr. Mayor

I'm truly disgusted.

So since all houses are allowed to gather to worship every week, ALL YEAR ROUND! And according to the Deal case, Zoning laws have no bearing it sounds like a lost cause! How many Shuls are going to be allowed on one street? How many are allowed in one neighborhood? Will there be a limit to how many houses in our town will be full acting Shuls? I think this should be public knowledge. If nothing will be done to stop it then please tell me how many will be allowed? Why would anyone remain in this town when we are all sitting ducks to a religious take over? Give me one reason we should all not move right now, unless you think we should all live next door to a shul? Would you live next door to a shul?

Here is a recent article! Shuls are going to destroy our neighborhoods if something isn't done! Look how many neighborhoods already have them! Next ERUV wires until we are no longer Jackson but a sub-division of Lakewood!

On Feb 14, 2017, at 5:27 PM, Jennifer Cusanelli <termite027@aol.com> wrote:

I guess it's just a matter of time. At one time we were told "houses of worship cannot operate in a residential area". Not so. We were also told that "no one other than a family member can live in a single family home and pay rent" and now not is the case either. Multiple families can infact cohabit in a single family residence. This is all very disheartening because the writing is on the wall. We have no control over our residential neighborhoods. It's a free for all. And as far as I am concerned anything that we can do to slow down this process of our Town being turned into a huge religious enclave is automatically shot down by our so-called legal department. It seems to me that someone is going to need to get clever and figure out a way to

preserve the quality of life in Jackson. Maybe the answer is to start with a new law firm specializes in land use matters not a law firm that is in the pocket of a radical religious community. Create your own case law! Why are our rights and freedoms are being compromised in favor of a religion? As an atheist I will not stand for religious wires to be put up in my community. And I don't appreciate public schools being rented out to house religious articles such as a Torah. Is there no such thing as a separation of church and state anymore. I have been fortunate enough to somehow get inside The Orthodox community and I could tell you that there is certainly a plan and that plan is to buy up as much as they possibly can and take Jackson. So if we don't get on the ball and figure out a way to slow it down legally then we are dead. I'm begging you all to please pull out the big guns and find our town a proactive law firm or perhaps hire a land/use attorney on retainer to do what needs to be done to protect us. That being said I do appreciate the efforts that are being made by council such as the landlord registration the no knock and most recently the ordinance on dormitories. But we are dealing with a very shrewd group and a very organized operation when it comes to the Orthodox community. baby steps just aren't going to be enough. Respectfully, Jennifer Cusanelli

<kpieslak@jacksontwpnj.net> wrote:

The law is the law. To be specific as far as case law 'the standard of 25 was derived from the Farhi v. Commissioners of the Borough of Deal case, in that case the homeowner had a regular congregation of 15-25 congregants in his home on the Sabbath and other Holy Days. The court held that "the guarantee of freedom of worship as set forth by our State Constitution forecloses any use by a municipal authority of its zoning power to prohibit the free exercise of religious activity in the privacy of one's home." The Court stated that any concerns about noise, traffic and crowding could be addressed adequately by the police power dealing with parking, noise or health and not through zoning.'

As far as a corporation owned rental. This is still a residential rental and as such there is a maximum amount of people that can live full time based upon square footage. That does not prohibit you from having a large gathering or having more people spend the night 'occasionally'.

I would suggest a meeting for any further questions so this can be adequately answered and understood. There seems to be misunderstandings based upon language and many assumptions being made.

Subject: 9 Harvest ct

So just to get this straight! Any house in our town will be allowed to use their home as a "house of worship" as long as they are quiet? So, here we are again! it's all up to one's persons interpretation, one might not find 25 people to be a nuisance. When I find 25 people on a weekly basis to be an incredible nuisance and a negative effect on the quality of life.

So who's interpretation do we go by. Having men sleeping over every Friday night is yes A form of Dormitory! They are being Housed for religious purposes! This isn't having "company" or a family visit.

Let's not forget how we were told the "character of Jackson will be upheld" well this isn't what is happening here. This street on a Friday & Saturday looks like Lakewood. Multiple homes being used for religious purposes.

So basically our town will be doing nothing to stop these homes from becoming Shuls through out our entire town or is it just this side of Jackson, that is collateral damage. We are the older side of Jackson so I guess our neighborhoods don't matter.

Per your email- " I also believe that 'single family owner occupied homes' do not fall into the Code for maximum occupancy. Those restrictions apply to residential rentals and commercial properties.

Isn't this home listed below owned by a corporation? Isn't it a rental?

On Friday (2/10/2017) evening there were 10 walkers observed entering 9 Harvest. Additionally a total of 10 vehicles came between both properties. They parked in the driveway of #7 and #9 and then some were parked legally on the street.

There has been no 'change of use' applied for on either property that I know of. These are designated 'single family homes' and owner occupied as such. The 'dual use' is allowed through established Case Law where the Courts have ruled on similar cases. What they are saying is it can not be used solely for prayer service and not lived in as a single family house. It must first be their home and then they can have a prayer service as is their religious right. Additionally the courts have held that the number of people coming over on a 'regular basis' should not exceed 25 people. There is also a consideration for 'quality of life' where excessive noise can be used to establish a violation in this multi-prong test.

What we have found through our monitoring is that the numbers do not exceed these on a regular basis. Additionally no noise has been noted. We have also monitored during the week and found that both these homes are lived in and utilized as a single family owner occupied home. Being they are 'single family homes' I believe the dormitory definition would not apply. I also believe that 'single family owner occupied homes' do not fall into the Code for maximum occupancy. Those restrictions apply to residential rentals and commercial properties.

I am reporting what we are finding with our monitoring and to the best of my understanding of the laws to make a determination of any violation. At this point we have not determined there to be a violation here. If someone should have further information/code/laws that I am not aware of then that would certainly be considered.

Good Afternoon,

What is the status of 9 Harvest Ct? Neighbors say last weekend their had been TONS more walkers.

Also, has 9 Harvest applied for a change in "use" for their home? How did it become a "Dual use"? Aren't single family homes just that, single family, unless they apply for a special use? I OPRA'd 9 Harvest and their are no application for any change in use.

Also, where does the number 25 Max come from without having a floor plan?

And if it is being used for gatherings there are fire codes and building codes that need to be followed.

Also,

Now with our NEW DORMITORY ordinance, these men are being housed weekly to stay over for " RELIGIOUS ORDER" I believe our ordinance states how that is no longer allowed?

Dormitory- Any building, or portion thereof, designed or converted to contain living quarters which are provided as residences or for overnight sleeping for individuals or groups operated as an accessory use to a school, college, university, boarding school, convent, monastery, non-profit educational institution, religious order, or other.

Once again,

Thanks for all that you do,

HD

Good afternoon,

What time are these monitoring occurring?

I live here in Harmony Farms and I and several of my neighbors on harvest Observed over 15 + cars on Friday and Saturday and OVER 25 people walking to the home. What about the White passenger van that drops off between 4 and 4:30pm

I do not understand.. Please help me????? When does a violation occur?? We live in a residential area that is becoming more and more crowded by the weeks. How long is this allowed to continue for?

There is no doubt that this home is being used as a house of worship

I can't understand how two houses that are working side by side together do not deserve some kind of warning or violation? They have already asked surrounding neighbors to put up ERUV wires to attach house to house. How many more houses will be allowed to be used as active Houses of worship in a single family zoned homes?

Unless you can explain to me the difference between Dual use home to a single family homes? Can single family homes have Dual uses? Im trying to understand.

Good afternoon:

I apologize for not getting back to you sooner but I was out sick and I am just getting caught up. For Friday evening on Harvest Ct. there were 6 vehicles in the driveway of 7 Harvest Ct. and 5 vehicles in the driveway at 9 Harvest Ct. One car was on the street and no noise in the area.

Also, 6 Meadow Run Ct. was monitored and there were 5 cars in the driveways there with no noise in the area.

There were also other areas monitored in the Township where there have been calls of concern. The numbers you see are the maximum numbers throughout the monitoring period. With this we are finding no violations at this time at any location. We will continue to monitor over time.

On Friday (2/10/2017) evening there were 10 walkers observed entering 9 Harvest. Additionally a total of 10 vehicles came between both properties. They parked in the driveway of #7 and #9 and then some were parked legally on the street.

There has been no 'change of use' applied for on either property that I know of. These are designated 'single family homes' and owner occupied as such. The 'dual use' is allowed through established Case Law where the Courts have ruled on similar cases. What they are saying is it can not be used solely for prayer service and not lived in as a single family house. It must first be their home and then they can have a prayer service as is their religious right. Additionally the courts have held that the number of people coming over on a 'regular basis' should not exceed 25 people. There is also a consideration for 'quality of life' where excessive noise can be used to establish a violation in this multi-prong test.

What we have found through our monitoring is that the numbers do not exceed these on a regular basis. Additionally no noise has been noted. We have also monitored during the week and found that both these homes are lived in and utilized as a single family owner occupied home. Being they are 'single family homes' I believe the dormitory definition would not apply. I also believe that 'single family owner occupied homes' do not fall into the Code for maximum occupancy. Those restrictions apply to residential rentals and commercial properties.

I am reporting what we are finding with our monitoring and to the best of my understanding of the laws to make a determination of any violation. At this point we have not determined there to be a violation here. If someone should have further information/code/laws that I am not aware of then that would certainly be considered.

Good Afternoon,
What is the status of 9 Harvest Ct? Neighbors say last weekend their had been TONS more walkers. Also, has 9 Harvest applied for a change in "use" for their home? How did it become a "Dual use"? Aren't single family homes just that, single family, unless they apply for a special use? I OPRA'd 9 Harvest and their are no application for any change in use.

Also, where does the number 25 Max come from without having a floor plan?
And if it is being used for gatherings there are fire codes and building codes that need to be followed.

Also,
Now with our NEW DORMITORY ordinance, these men are being housed weekly to stay over for "RELIGIOUS ORDER" I believe our ordinance states how that is no longer allowed?
Dormitory- Any building, or portion thereof, designed or converted to contain living quarters which are provided as residences or for overnight sleeping for individuals or groups operated as an accessory use to a school, college, university, boarding school, convent, monastery, non-profit educational institution, religious order, or other.

Once again,
Thanks for all that you do,

So let me understand, these residents can play this little cat and mouse game with the town & this is acceptable? We know what is going on here! Why was Bridgewater ct shut down?? Shouldn't the same LAWS apply to ALL houses being used as places of worship? What does Noise have to do with it? My backyard parties are louder. Drug dealers can be quiet they are still breaking the law. Just examples

Where is the proof the 7 Harvest has been used or hasn't been used? There have been Van loads of men being dropped off at 9 Harvest. But of course, it only matters if your department sees it. One weekend driving by a situation like this, deserves more time looking into it.

Also, why aren't they being considered as one? when they are WORSHIPPING as one? Operating as one?

On Feb 1, 2017, at 3:37 PM, Kenneth Pieslak <kpieslak@jacksontwpnj.net> wrote:

Yes, one of the key points is that the residence is not being used solely as a Shul. It is being lived in as a residence and then utilized for prayer service (therefor dual purpose) for instance on Friday evening. This is allowed. Some of this is 'assumed' as we look at religious routines and sundown gatherings. Some have said they have a group over for dinner and pray after. This can be a multi prong test looking at numbers coming to the home on a 'regular basis', excessive noise, not living in the home and these types of things.

The numbers do seem to fluctuate. And I'm not certain that 27 people automatically makes this a violation. You can not assume 2 people per car as we have found in most instances it is one male arriving in a car, though not always. As far as Harvest Ct. goes we do not look at these homes 'together'. They are separate properties and perhaps one Friday there is a gathering at #7 and the next 2 weeks at #9. This can affect the case of a 'regular basis'. We as Code Enforcement Officers have to be very careful about any 'assumptions' as there are Religious Rights involved and we must report what we find as fact, as we have done.

We will continue to monitor this. Should you have any other concerns, please let me know.

Good Afternoon,
Just wondering what was found on Harvest Ct. Any Violations?

Also, Another house listed today on Meadowrun Ct because of the Shul being used by the Rabbi. Another great Jackson Family FORCED out! It's a sad day in Jackson.

Good Morning,

9 & 7 Harvest Ct has been an ongoing problem. It is getting out of hand now. It is obviously being used as a Shul. There are so many cars Friday and Saturday and so many people who walk there.

What is Jackson Township doing about this????

Yes, one of the key points is that the residence is not being used solely as a Shul. It is being lived in as a residence and then utilized for prayer service (therefor dual purpose) for instance on Friday evening. This is allowed. Some of this is 'assumed' as we look at religious routines and sundown gatherings. Some have said they have a group over for dinner and pray after. This can be a multi prong test looking at numbers coming to the home on a 'regular basis', excessive noise, not living in the home and these types of things.

The numbers do seem to fluctuate. And I'm not certain that 27 people automatically makes this a violation. You can not assume 2 people per car as we have found in most instances it is one male arriving in a car, though not always. As far as Harvest Ct. goes we do not look at these homes 'together'. They are separate properties and perhaps one Friday there is a gathering at #7 and the next 2 weeks at #9. This can affect the case of a 'regular basis'. We as Code Enforcement Officers have to be very careful about any 'assumptions' as there are Religious Rights involved and we must report what we find as fact, as we have done.

We will continue to monitor this. Should you have any other concerns, please let me know.

I thought there is a 25 Max per shul being allowed. Where that number comes from, I still have no idea? The fact that an Acting Shul is even allowed period, I still don't get! So with the two houses added up, that's 11 cars. That's just assuming one person per car. Say there are 2 people per car. That's already 22 people! Let's not forget about the 10 plus walkers!! I'm pretty sure that's goes over 25. I have pictures of 9 Harvest having 9 cars in front & 7 having 6 on other weekends. I can't understand how two houses that are working side by side together do not deserve some kind of warning or violation? They have already asked surrounding neighbors to put up ERUV wires to attach house to house. How many more houses will be allowed to be used as active Houses of worship in a single family zoned homes? Unless you can explain to me the difference between Dual use home to a single family homes? Can single family homes have Dual uses? Im trying to understand.

I apologize for not getting back to you sooner but I was out sick and I am just getting caught up. For Friday evening on Harvest Ct. there were 6 vehicles in the driveway of 7 Harvest Ct. and 5 vehicles in the driveway at 9 Harvest Ct. One car was on the street and no noise in the area.

Also, 6 Meadow Run Ct. was monitored and there were 5 cars in the driveways there with no noise in the area.

There were also other areas monitored in the Township where there have been calls of concern. The numbers you see are the maximum numbers throughout the monitoring period. With this we are finding no violations at this time at any location. We will continue to monitor over time.

Mayor,

Relative to my phone conversation with Mordy Burnstein earlier today, I confirmed that zoning approval is not required if one were to install eruv wires on their property, and that it was not a zoning issue if installed off the property.

Thank you.

Subject: Eruv wires.

So the wires are surrounding Harmony Farms. I have a few questions. Are these wires on public property? Without seeing them, it's difficult to determine. Because when I put a sign on public property it was taken by township employees and "destroyed". How about the safety of them? I don't see that they would be a physical danger, nor an impediment to health and well being. Do they attract lightening? There is no covering over them. Are they safe for the environment? Perhaps one could reach out to the NJDEP. Attached is a list of contact numbers. And lastly why should I have to look at a religious structure of any kind on public property? As an atheist I am highly offended by this and I'm sure other atheists in town will also be. They are pushing. Testing the waters. We're permits requested or provided? If they are on private property, zoning approval is not required, and if on public property, zoning would not be involved. Another home listed today with a realtor. People are being pushed out and it's not longer a matter of telling your neighbors "don't sell". It's a matter of the walls closing in on residents. Would you want the home next to you to have 20 men and now woman and children frequenting it on a weekly basis? Respectfully, Jennifer Cusanelli

White Rd near Galassi Court. As you can see it's attached to the utility pole. There are several others in

Kensington Manor.

Dear Council
members,
There seems
to be quite a
few eruv poles
with wires or
ropes being
put up on "the
row" or "right
of way" in
Jackson
neighborhoods
occupied by

Orthodox families. Apparently they are used to allow an extension of the area in which Orthodox families can travel on their days of prayer. As this may be of religious benefit to them it does nothing but create an eyesore and puts a label on the entire neighborhood. I have inquired with Ken from code and I am told that there is currently no ordinances on record regulating their placement. I respectfully request that this is addressed as soon as possible. If poles are going to be put up then perhaps they should be treated like signage and regulated as such. I have personally had signs removed from the "right of way" on my property and "destroyed" by township employees because "nothing is

allowed on the
right of way
other than
mailboxes and
utility needs.
If religious
pole are going
to be allowed
then they
should only be
kept of private
property and
not be allowed
to be placed
on the right of
way. Also if
they are being
installed in the
ground should
they not have
to have
surveys done
as to prevent
interference
with under
ground
utilities? Or
are they even
safe as far as
lightening or
high winds are
concerned?
Please
address this
issue. A clear
precedent has

Dear Council members,
There seems to be quite a few eruv poles with wires or ropes being put up on "the row" or "right of way" in Jackson neighborhoods occupied by Orthodox families. Apparently they are used to allow an extension of the area in which Orthodox families can travel on their days of prayer. As this may be of religious benefit to them it does nothing but create an eyesore and puts a label on the entire neighborhood. I have inquired with Ken from code and I am told that there is currently no ordinances on record regulating their placement. I respectfully request that this is addressed as soon as possible. If poles are going to be put up then perhaps they should be treated like signage and regulated as such. I have personally had signs removed from the "right of way" on my property and "destroyed" by township employees because "nothing is allowed on the right of way other than mailboxes and utility needs. If religious pole are going to be allowed then they should only be kept of private property and not be allowed to be placed on the right of way. Also if they are being installed in the ground should they not have to have surveys done as to prevent interference with under ground utilities? Or

are they even safe as far as lightening or high winds are concerned? Please address this issue. A clear precedent has already been set in regards to the function of "the right of way". Please consider amending it to include that nothing other than what is already permitted is to be put on "the row". Thank You, Jennifer Cusanelli

Ms. Cusanelli :

With your updated description location I was unable to locate this by driving on New Prospect. As a result I walked the entire walkway along Harmony Farms and I was able to locate one property (#95 Hickory Hill which backs to New Prospect))that had a pole installed at each corner of their rear property connected by a wire (photo attached). Without an official survey/engineer report it would appear that each pole is on the designated private property. This conclusion is based on the fact that the poles align with fence posts to an adjoining property and unless those fences were installed improperly, which does not appear to be the case, this is the private property of #95 Hickory Hill Road. This area joins up with Harmony Farms HOA property which is where the walkway is. In any event this is not 'public property' but at worse case scenario belongs to the Harmony Farms HOA, which becomes an issue between those parties. These poles/wires do not present any safety concerns as they are currently set. The poles are not easily visible from New Prospect, even with looking for them, without foliage and certainly can not be seen when foliage blooms so there is no eyesore issue with or without the foliage. Based upon my inspection I find no violation with regards to this issue in this case.

There is no covering over them. Are they safe for the environment? And lastly why should
I have to look at a religious structure of any kind on public property? As an atheist I
am highly offended by this and I'm sure other atheists in town will also be. They are
pushing. Testing the waters. We're permits requested or provided? Another home listed
today with a realtor. People are being pushed out and it's not longer a matter of telling
your neighbors "don't sell". It's a matter of the walls closing in on residents. Would
you want the home next to you to have 20 men and now woman and children frequenting it on
a weekly basis? Respectfully, Jennifer Cusanelli

Has this been brought up to the town?! Based on the ongoing concerns received, I'd say they are aware. Are you saying that the twp isn't concerned with this and those of us who find these wires discriminatory, obnoxious and segregating are wasting our time?! No. Please clarify that for me. Thanks, Jennifer Cusanelli

Subject: Re: Eruv wires.

Where shall I begin. Poles being on public property for religious purposes, segregation, is there an issue with lightening considering they are right next to trees, are there any requirements as far as how high or the materials used or location? 244-156 addresses heights of various uses, but I cannot find anything in this section that could be used in this situation. Are you suggesting that the EPA or DEP? I'm suggesting if you have concerns relative to the environment, the New Jersey Department of Environmental Protection may be an avenue in which your environmental concerns may be directed. If this is all knew to you don't you think there needs to be regulations?! It's not a matter if I think regulations are needed, but rather if the Twp wants regulations for this Dept to enforce.

Subject: Eruv wires.

So the wires are surrounding Harmony Farms. I have a few questions. Are these wires on public property? Without seeing them, it's difficult to determine. Because when I put a sign on public property it was taken by township employees and "destroyed". How about the safety of them? I don't see that they would be a physical danger, nor an impediment to health and well being. Do they attract lightening? There is no covering over them. Are they safe for the environment? Perhaps one could reach out to the NJDEP. Attached is a list of contact numbers. And lastly why should I have to look at a religious structure of any kind on public property? As an atheist I am highly offended by this and I'm sure other atheists in town will also be. They are pushing. Testing the waters. We're permits requested or provided? If they are on private property, zoning approval is not required, and if on public property, zoning would not be involved. Another home listed today with a realtor. People are being pushed out and it's not longer a matter of telling your neighbors "don't sell". It's a matter of the walls closing in on residents. Would you want the home next to you to have 20 men and now woman and children frequenting it on a weekly basis? Respectfully, Jennifer Cusanelli

To : mikereina@jacksontwpnj.net

Hey,

I just OPRA'd the township on the Eruv issue. No harm intended! I just don't want to look like I am targeting and/or picking and choosing. Sorry, couldn't make it last night. Crazy busy. Will hopefully try to meet up with you in beginning of next month.

Best Regards,

Yehuda E Tomor

Help regarding municipal consent letter for eruv

From : Dovid Ritter <dovidritter@gmail.com>

Fri, Jul 21, 2017 04:21 PM

Subject : Help regarding municipal consent letter for eruv**To** : Mikereina@jacksontwpnj.net

Dear Mayor Reina,

As I am sure you know Jewish law forbids us from carrying outside on Saturday without using a "eruv". There are many different ways to build them, and after much research we have come to the conclusion that renting space from the utility companies is the best way forward. Firstly, this would greatly minimize the need for private eruvs which would help make it that there is no unnecessary tension with regard to this subject. The pipes are the ones already on the electric poles and would not be seen to the average person. In fact most people would not even know it exists. This seems to be the method most cities around the country utilize, and the reasons are obvious. In addition, this would greatly increase the quality of life of the over 500 Orthodox family's in Jackson. This would enable them to be able to bring their children, especially babies, outdoors on Saturday, take walks, and socialize with their neighbors. As a resident of Jackson I am asking for your help in getting the necessary municipal consent.

Your resident,
David Ritter
24 Illinois Ave
Jackson NJ 08527

Subject: Consent for an Eruv

Good afternoon,

I'm reaching out to you on behalf of the Orthodox Jews living in the Brookwood 3 neighborhood.

There has been a few instances lately in Jackson that Jews where meet with opposition in putting up an Eruv (religious enclosure allowing us to carry on Saturday).

There are different way on constructing an Eruv, while one type may be noticeable others may not. One way to make it that it will be unnoticed is by using the telephone poles. (This specific type of Eruv will work in the majority of neighborhoods, but sometimes it may not). However, in order to do it this way we would be required to rent the poles from the phone company. In order to do that we need the townships approval.

There will be a significant benefit to us, enabling us to take our young children who can not walk by themselves outside with us on walks, going to neighbors....

Please help us get the necessary consent from the township so that we can move forward.

Thank you,

Moshe Heiman
On behalf of the Brookwood 3 Orthodox Jewish residence

Dear Clerk Eden,

As I am sure you know, Jewish law forbids us from carrying outdoors on Saturday in an area not enclosed by an "eruv". There are many different ways to build one, and after much research we have determined our best option would be to rent space from the utility companies. The proposed eruv would not be in public view, and would eliminate the need for private eruvs, minimizing unnecessary tension between neighbors. Such arrangements are common in cities with sizable Jewish communities. The eruv would greatly increase the quality of life of the 500+ Orthodox families in Jackson, as they would be able to bring

their children outdoors on Saturday, take walks, and socialize with their neighbors. As a resident of Jackson I am asking for your help in getting the necessary municipal consent.

Thank you,

I haven't heard back from anyone and the house is only getting worse, so I wasn't sure what or if anything was happening. You have to understand this is heartbreaking to me being a resident who grew up here to see old friends homes being used for other than its purpose, single family home.

Thanks Again

Hope

Subject: Fwd:

Hi again. With the meeting ending at 9 30 and my wife ready to kill me I had to run out. I wanted to point out the following. While I respect the rule of law . When it comes to eruvs I feel we can work something out. First of all contrary to what one speaker said tonight there is No safety issue..there has never been one that I have ever heard of . And thats after there being thousands of such poles all over the globe and also here in America. In addition with regard to the eyesore issue many people ave driven down california and not noticed where they are without being told. Yes if you look for them they are there. But you have to look. In addition I love the fact that by my neighborhood the kids play ball in the street and are not hot potatoes on their couches. Do we really want to ban over 500 basketball hoops in this town. Quality of life tells me that a ordinance should be drawn up thar permits such things in the row as long as they can be moved if needed. Which eruvs and hoops can be as eruvs ARE NOT cemented in to the ground. In addition there are ways to build them in many ares in a

manner that does not stand out for example with permission from the utility companies in a manner that most residents would not even know they are there. But again we need municipal consent and we can not do it without working together. Like I have said lets work together before this becomes a issue and not after. Recently in Toms river a eruv wads erected including a very large area and done in a way thathmost residents do not know even exists but they did it together with the township. Yes the governing body of Tomsriver worked together with the communitys to make sure everyone could enjoy the quality of life they deserve. There is only one town in this country that I know of that has over 100 orrhodox familys on the USA that does not have a eruv. I do not nee to tell you that it is Jackson .I can get a list of probably 100 cities here in our country that have one, including Manhateen, Miami, Lad Vegas.....WE want to work this out for everyone but we cant do it without you and the township helping so again I ask you to please find a time to sit down and talk and get thw ball rolling on these issues before they turn into problems.
Thank you, Mordy
