Concrete Sealer**

FOOD GRADE CONCRETE SEALER

The [Food Grade Concrete Sealers](#) are known to be the best sealer system for concrete counterparts. If you need flooring for food processing plants, then call us at (800) 808-7773.

SQF 2000 APPROVED FOOD PROCESSING FLOORS

SQF 2000 is quality management system used to verify the level of implementation of a specific food safety and quality plan by a food manufacturer/supplier. Verifications are performed by a third-party audit. All auditors are certified and registered by the Food Marketing Institute, the entity that administers the SQF 2000 system.
