Download

Get all MagicLauncher versions here: magiclauncher.com

Download MagicLauncher 1.3.4. Fixed Reddit RSS feed, increased limit on accounts up to 100, improved handling derived profiles (Forge + LiteLoader) and fixed the \$version_type option in the main menu): Windows, Mac, Windows/Mac/Linux mirrors: Windows, Mac, Windows/Mac/Linux

Note for Minecraft 1.6.2+

Start

Double click the downloaded file, and the MagicLauncher will start.
