Proviron; Winny (ONLY if going into competition) No Trenbolone, ... to hearing your answers as well as any other advice you have as currently the best advice I've found is to use test/tren/mast @ 350mg each per week but I have concerns about tren at my age. Winy and Masteron together are gonna kill your joints. Also you dont need Proviron if your running Masteron. If your cutting, I'm assuming your using Test Prop. Test Prop and Masteron would be a nice cycle. If you have to have a third compound, substitute the Winy with Primo or Anavar. Be very very careful with the T3.

Planning next cycle with Test Prop, Mast Prop, Tren Ace blend of 100mg/ml each and wanting to add Winstrol and Anavar at the end. I've done everything here a few times except for Masteron and Winy. My goal is to mostly shred up but add some lbn is always a must! Go ahead and critique. Thanks for all the input in advance! 350 mg tren ace weeks 1-10 350mg mast prop weeks 1-10 350mg test prop ...
