THINGS TO SEE

(Click on the images to link to website)

Family Days Tried And Tested

“Free Virtual Tours of World Museums, Educational Sites and Galleries for Children”

can be found on this website, along with lots of other fun suggestions for family time activities to keep you entertained:

<https://www.familydaystriedandtested.com/>

Scroll down to their post from 18th March for the full list, which includes tours of amazing places such as Anne Frank’s house, Great Wall of China 360, NASA Mission Operations room and San Diego Zoo (to name just a few)

The clue is in the name; it’s all about science experiments on an enormous scale! This youtube channel is full of exciting and mind-blowing science experiments, the type we could only dream of being able to conduct in Primary School lessons!

On Youtube, simply search for the Science Max channel.

EarthCam has cameras showing high definition live streams of locations across the globe. It is interesting to see how “Lockdowns” are looking in usual tourist hotspots! (Times Square in NYC has never been so quiet!) By clicking on the 3 horizontal lines menu in the top left of the page (see image above), you can navigate through different continents.

THINGS TO DO

(Click on the images to link to website)

With almost 860 million views, “Art for Kids Hub” are probably one of the most popular channels for drawing tutorials. Their fun art lessons are accessible for children of all ages and abilities.

On Youtube, simply search for the [Art for Kids Hub](#) channel.

Download the free Duolingo app (or use the desktop version) and learn a new language for free with their bitesize lessons! Learning with Duolingo is fun and addictive. Earn points for correct answers, race against the clock, and level up.

GoNoodle engages 14 million kids every month with movement and mindfulness videos, as well as some educational songs and dances too! Many of their videos are available on youtube, but if you sign up for free on their website, each activity you complete earns you points and you can “level up” to evolve your avatar.

Sometimes we just need to be silly and let off some steam. “Milkshake” in the ‘call & repeat’ section is Kingfisher Class’s favourite!
