

MEKO® A-200 [Egyptian Frigate]

Following to the great success to the GOWIND® Corvettes program, Alexandria Shipyard has been licensed by TKMS (ThyssenKrupp Marine Systems) to build MEKO® A-200 frigate through transfer of technology program, the shipbuilding Contract shall Take Place Next Year with the building method fit for ASY facility and as Per TKMS consensus.

Workhorse of the sea, the MEKO® A-200 Frigate is general purpose frigates from the ThyssenKrupp stable. A fighting ship capable of full 4-dimensional warfare (AAW, ASW and ASuW, BCW), the MEKO® A-200 Frigate is also designed for sustained operations across the full spectrum of general missions and tasks: patrol and interdiction, support of special force operations, SAR and humanitarian operations.

The MEKO® A-200 Frigate is a perfect example of the innovative propulsion, stealth and survivability design, robust sea-keeping and all-weather boat and helicopter operability that characterizes frigates from TK Marine Systems.

The Frigate has outstanding sea-keeping and tactical mobility which outperforms all frigates in the same tonnage class.

Main Characteristics

| | |
|--------------------------------|--------------------------|
| Length, over all | 121 m |
| Beam maximum | 16.3 m |
| Design Draught | 3.85 m |
| Gross Tonnage (GT) | 3,700 ton |
| Speed maximum, full load | 32 knots |
| Range | 7,200 nm/16 knots |
| Complement (+ supernumeraries) | 120 (+20 special forces) |
| Classification Society | DNV.GL |
