Frankie Lee (Founded) CEO & Chairman of BNF Group

Frankie Lee with a team of highly qualified management team and functional group personnel, BNF has expanded into an existing 350 workforce, whom are highly motivated and focused

BNF Group core competency resides in being able to respond to the needs of the market. This enables us to capitalize on good business opportunities by responding flexibly to a continually changing business environment. By doing so, we are able to sharpen our existing strengths and establish a platform for future new business initiatives Our ability to do that stems from our foresight and culture of collaborating with our strategic business partners in diverse industries. The result of such practice has led to BNF Group being a convergence of diverse businesses today.

St. John's Island

BNF Engineering is a multi disciplinary company that engages in M&E and A&A filling works to help our clients optimise the potential of their existing facility.

Our fully integrated building solution enables us to understand to develop a method to maximise efficiency yet bring you the best value possible. Over the years we have covered projects of all sizes.

St. John Island

National Park HQ

One of the islands situated around Singapore is a popular site for visit. BNF does construction as well as M&E for this small island.

National Parks Board HQ

The dedicated body providing and enhancing the greenery in Singapore with the aim to become a city within a garden with their Headquarters in Singapore Botanical Gardens. BNF has done A&A and M&E work to improve the interior.

Botanical Garden

Nestled in the Ginger garden within Singapore Botanical Gardens, serving impeccable food. BNF was appointed to improve the space by building the

Lorong G, G Residence

BNF designed and built a modern living space in the bustling Joo Chial area that still blends in with the atmosphere to create a homely environment. Spacious living area with a modern touch.

Changi Village Mechanised Carpark

BNF was tasked with building the first HDB Mechanised Parking System (MPS) in Singapore where we also developed the software and application of the parking system. The project helped to solve a parking constraint issue in the area, increasing the number of spaces by two fold.
