YEAR-ROUND MOST BREEDS.*

**FREE SHIPPING ON ORDERS!**

# ORDERING DETAILS & TERMS:

**HOW TO ORDER:** We suggest you pre-book your poultry order in advance to ensure the largest breed availability. Orders must be placed via phone, and soon our website: [www.ThePoultryHatchery.com](http://www.ThePoultryHatchery.com).

**MINIMUM ORDER:** We can ship as few as 15 total birds, you can mix and match. Best price is at 5 or more. The more combinations of breeds, the harder it is to find common available and order may have to be split. Local pick up orders, you can pick up as few as 6 total birds or more and can again mix and match.

**HOW WILL THE BIRDS ARRIVE:** Your order will be shipped United States Postal Service Priority 1-2 Day delivery. The birds will be stopped at your local post office closest to your shipping address you provided, the chicks will NOT be delivered to your store, they must be picked up from your local post office once they arrive.

**PICK UP ORDERS:** Your pick-up date will be confirmed via phone and or email. You must bring a clean container or box with just a single layer of paper towels. We request no pine shavings, no straw, no newspaper. Please call prior to leaving your location to verify the hatch is ready for pick up to avoid wasted time of an unsuccessful hatch or delays.

**SMALL ORDER CHARGE (SOC):** If you order less than 100 chicks/chickens you will notice on your invoice a 'small order charge'. This fee is \$7.00 per order. In larger orders of over 100+ chick/chickens you will not be charged this fee.

**SPECIFIC BREED CALL (SBC):** We allow you to mix and match your breed combinations without restrictions (1 of these, 4 of that, 2 of this); although it can be very time-consuming depending on the mixture. You will be charged \$1.00 per breed, per gender. Example: 1 Barred Plymouth Rock Female, 1 Black Australorp Female; you will be charged \$1.00 X 2 Birds = \$2.00 charge. If you need further explanation; please ask.

**HATCHING DATES:** We do our best to decide your hatch date; although we are dealing with live poultry and counting our chickens before they hatch! Your hatch dates are approximate and can change with and/or without notice; although we do our best to let you know of such changes. Please call your local post office to let them know you are receiving a live delivery of chicks on your specified delivery date and to let you know when they arrive. If your chicks did not arrive on the schedule date, please call your post office first to see if they receive an express truck or 2nd delivery, then call us so we help expedite the process.

**ASSORTMENT (HATCHERY CHOICE):** Assortments will be The Poultry Hatchery's choice of breeds available after specific breed orders have been filled. Assortments include breeds hatched on that specific day, and can vary each hatch date. Every attempt will be made to give the best assortment possible, but there is no guarantee.

**POULTRY SEXING GUARANTEE\* 90%:** We guarantee on a 100-paid pullet order that you will receive at least 90 pullets (assuming all chicks survived to be counted). If we make an error and we did not live up to our stated guarantee, we will refund the pullet purchase price on under 90%. In other words, if you have over 10% that are roosters of your pullet order we should be able to refund at pullet price over the 10%. Claims must be sent directly to us when chicks are not more than 8 weeks old, no exceptions. We have one of the best rated and multiple gender selecting methods in the industry, however, still it is only about 90% accurate. We do not have any guarantees on percentages on male or females for assorted chicks or straight run chicks.

**GUARANTEE:** We guarantee 100% livery delivery of poultry paid for. Our poultry is under strict bio-security and under the supervision of New York State AG & Markets National Poultry Improvement Program (NPIP). Any losses should be reported at once to note your account. ..[continued page 3]

If order loss if greater than the shipping minimum, [varies depending on weather and breed] we will reshipe one (1) time at no charge. If order cannot be sent safely or meet the required minimums, credit adjustments will be made. Credits can take up to 1-2 weeks for processing.

**DECLINED CREDIT CARD FEE:** If your credit card payment method has been declined by our banking institution you will be charged \$3.00 per occurrence. Please ensure at the time of order the funds are available for withdrawal and you have the correct credit information.

**REFUNDS, DEPOSITS, PAYMENTS:** Deposits are not refundable, in the event that you decide to cancel your order see cancellation fee and refund below. Payments of invoices are due at the time of booking in full.

**ORDER CHANGES:** Once an order has been placed and billed any additional/subtractions (changes) to the existing order will incur a \$5.00 change order fee. Constant changes need added book keeping and causes errors. Please send only completed orders to avoid charges.

**CANCELED ORDER FEE (RESTOCKING FEE):** Any orders place and then canceled will have 20% of the total price deducted from the total purchase of the invoice. The difference refunded by check if paid by check and if paid by credit will have the credit card credited back at the difference. Rational for the fee: Orders paid for/booked are taken off the market for sale and are marked sold and we potentially could have a lost opportunity for a buyer if canceled. Canceled orders create book keeping and labor cost to process the canceled order, labor to recalculate deletions and adding back on the sell sheets, along with postage or credit card fees to process credits. Our chicks pricing is not formulated for canceled order cost. We do make exceptions for the 20% fee for emergencies and will move a ship date to another date; however, every effort should be made to be prepared to receive your chicks on your given date. Refunds are processed ASAP, but on busy rare occasions can take up to 3 weeks to be completed. It is customary practice for customers to order their poultry 2-8 weeks in advance of the time they would like them delivered. Because live new chicks become perishable the day they hatch, it is necessary to have them all sold well before their hatch date. Your confirmation notice will give you your hatch date. You should be very flexible around your hatch date so you can take your birds immediately to your brooder to be warmed up, so they will go to eating and drinking. See our care sheet and preparation online.

**CREDIT CARD CHARGEBACK POLICY:** Chargebacks will be prosecuted as fraud under News York State Law. A\$50.00 fee will be added for a chargeback, and account will be forward to our collection department and our attorney. We will be happy to resolve any issues you may have to avoid using this clause in our company policy, although we must be notified prior to starting the chargeback.

**RETURNED CHECK CHARGE:** The Poultry Hatchery will charge \$50.00 for any check returned by a financial institution to The Poultry Hatchery.

**HEALTH CONCERNS:** Live poultry can be a source of potentially harmful microorganisms; therefore, precautions must be taken when handling and caring for them, to prevent fecal/oral transmission among people. Adults must supervise children when they handle poultry to make sure they do not put their hands or fingers into their mouths. Do not keep baby poultry in the family living space. Always wash your hands with soap and water after handling poultry.

**\*\*IMPORANT\*\*:** Upon arrival of your baby poultry, read "TIPS FOR TAKING CARE OF BABY POULTRY" which is available to you on our website under "E-Learning". Seller warrants that the poultry described in the order will be in good condition, so far as can reasonably be determined, at the time of delivery by Seller, who has exercised flock control, egg selection, production, and handling methods (including established sanitary and disease control standards) generally accepted in the industry. It is understood, agreed, and considered reasonable that THERE ARE NO

**WARRANTIES, EXPRESSED OR IMPLIED, WITH RESPECT TO THE POULTRY THAN THOSE SPECIFICALLY STATED IN THIS AGREEMENT, AND SELLER SPECIFICALLY DISCLAIMS ANY WARRANT OF MERCHANTABILITY OR FITNESS OF THE POULTRY. WE RESEVE THE RIGHT TO SUBSTITUTE ALL ORDERS WITH OR WITHOUT NOTICE; STRAIGHT RUN MALES MAY BE ADDED TO COMPLETE YOUR ORDER! Rest assured, we will do our best to move your hatch date or do separate pick up and/or ship dates to complete your order, although we must add\ this clause to our company policy. The seller's liability for any reason whatsoever shall be limited to the amount paid for the goods or services claimed to be defective, and that in no event shall Seller be held liable for any consequential or incidental damages. By acceptance of the poultry hatchery, the Buyer acknowledges that the limitations and disclaimers herein set forth are conditions of the sale, and constitute the entire agreement between the parties regarding warranty or other liabilities and the remedy therefore. Rev: 1/1/2017**

**AMBERLINK**

This graceful white and amber colored sex link can lay eggs like no one's business, even in the cold dark winters. It is derived from the ISA genetic line and does not disappoint in egg production and wintry weather hardiness. It is a very well-balanced bird that lays nice medium size table eggs. They are docile and make great foragers.

APPROX. 270 MEDIUM EGGS/YEAR | EGG COLOR: BROWN | MATURE WT: MALE 6 LBS. FEMALE 5 LBS.

SEX	1--4	5--14	15--24	25--49	50--99	100+

Unsexed	3.20	3.05	2.90	2.75	2.60	2.45

**AMERICANA**

Every backyard flock needs a colored egg layer. Our Americana will give you an assortment of colors from turquoise, to olive to light brown. The Americana breed comes from the Araucana and Ameraucana mix and has different color plumage variations. It is because of this genetic combination that our birds are not meant for exhibition.

APPROX. 240 MEDIUM EGGS/YEAR | EGG COLORS: BLUE, GREEN, LIGHT BROWN MATURE WT: MALE 5.5 LBS. FEMALE 4.5 LBS.

SEX	1--4	5--14	15--24	25--49	50--99	100+

**ASIAN BLACK**

PHOTO  
COMING SOON

The Asian Black is a slower growing bird. The males can reach market weight in 10 to 12 weeks, and the females take 15 weeks. It's striking colors with a blue/green hue on the black and red feather pattern makes it a beautiful addition to any flock. It is a hardy bird that can adapt to many growing conditions.

APPROX 250 MEDIUM EGGS/YEAR | EGG COLOR: BROWN MATURE WT: MALE 5 LBS. FEMALE 4 LBS.

SEX	1--4	5--14	15--24	25--49	50--99	100+

### BARRED PLYMOUTH ROCK

Barred Plymouth Rock Chickens are an old-time favorite brown egg layer as well as a popular dual-purpose breed. The Plymouth Rock breed is very friendly and does well in cold weather. Plymouth Rock Chickens have high egg production, a meaty body, a docile personality, and good hardiness, all characteristics that are desired in a great flock. These lovely birds have black and white barred feathers, with the roosters slightly lighter in color than the hens.

APPROX 250 MEDIUM EGGS/YEAR | EGG COLOR: BROWN  
MATURE WT: MALE 7-7 ½ LBS. FEMALE 6 LBS.

SEX	1--4	5--14	15--24	25--49	50--99	100+

Unsexed	3.20	3.05	2.90	2.75	2.60	2.45

### BLACK SEX LINK

The Black Sex Link is an excellent brown egg layer. It is created from a Barred Rock hen and a Rhode Island Red cockerel. This creates a very versatile bird that is a great egg layer, has the temperament of a Barred Plymouth Rock and can hold its own through the cold dark winter.

APPROX. 265 LARGE EGGS/YEAR | EGG COLOR: BROWN  
MATURE WT: MALE 6 LBS. FEMALE 5 LBS.

### BLACK AUSTRALORP

The Black Australorp is one of the best breeds for newcomers to chickens, and for families with young children. Named for the English town they were developed. Black Australorps are black in color with a green color hue. This breed is winter hardy and a popular brown egg layer.

APPROX 220 MEDIUM EGGS/YEAR | EGG COLOR: BROWN  
MATURE WT: MALE 8.5 LBS. FEMALE 7 LBS.

SEX	1--4	5--14	15--24	25--49	50--99	100+

Unsexed	3.20	3.05	2.90	2.75	2.60	2.45

### BLACK JERSEY GIANTS

In the late 1800's New Jersey breeders created a chicken designed to rival the meatiness of the turkeys back then. The massive Black Jersey Giant was the result of merging the genetics of several large breeds. Later the White Jersey Giant was created. They grow slowly but eventually are a third larger than most other heavy breeds. It can take up to 9 months for this bird to fill out its meat proportions.

APPROX 240 X-LARGE EGGS/YEAR EGG COLOR: BROWN

Unsexed	3.20	3.05	2.90	2.75	2.60	2.45

### BROWN LEGHORN

Brown Leghorns share the productive traits and nervous personality of their white cousins but have slightly larger bodies clothed in one of the most beautiful feather patterns of any white egg laying breed. Always alert, Brown Leghorns are athletic, excitable, chatty, and often better able to avoid predators than slower breeds.

APPROX. 280 LARGE EGGS/YEAR | EGG COLOR: WHITE

Unsexed	3.20	3.05	2.90	2.75	2.60	2.45

### BUFF ORPINGTON

One of the best breeds for newcomers to chickens, and for families with young children. Named for the English town where they were developed, Orpingtons come in several feather colors but all are big quiet birds with fluffy feathers that keep them toasty warm during frigid weather. Buff Orpingtons are the most common color and lay about 220 brown eggs a year.

APPROX. 220 MEDIUM EGGS/YEAR | EGG COLOR: BROWN  
MATURE WT: MALE 8.5 LBS. FEMALE 7 LBS.

Unsexed	3.20	3.05	2.90	2.75	2.60	2.45

### CALIFORNIA WHITE

California White hybrids look almost exactly like the White Leghorns they were developed from but are slightly larger and have a few black spots on their white feathers. California Whites are quiet, calm and one of the best white egg layers for backyard flocks. Adding a few California Whites to a flock of brown egg layers adds color diversity to the egg carton.

APPROX. 290 LARGE EGGS/YEAR | EGG COLOR: WHITE

Unsexed	3.20	3.05	2.90	2.75	2.60	2.45

### CINNAMON QUEEN

A beloved breed that takes the best qualities from its parents, a Rhode Island Red rooster and a Silver Laced Wyandotte hen. The Cinnamon Queens are wonderful egg layers and can take the cold hardiness of winter, ensuring that you will have eggs all year long.

APPROX. 260 LARGE EGGS/YEAR | EGG COLOR: BROWN  
MATURE WT: MALE 6 LBS. FEMALE 5 LBS.

SEX	1--4	5--14	15--24	25--49	50--99	100+

Unsexed	3.20	3.05	2.90	2.75	2.60	2.45

### GOLDEN COMET

One of the best breeds for newcomers to chickens, and for families with young children. Named for the English town where they were developed, Orpingtons come in several feather colors but all are big quiet birds with fluffy feathers that keep them toasty warm during frigid weather. Buff Orpingtons are the most common color and lay about 220 brown eggs a year.

Unsexed	3.20	3.05	2.90	2.75	2.60	2.45

### GOLDEN LACED WYANDOTTE

Golden Laced Wyandotte's are not all show with their elegantly patterned feathers. They are also great egg layers. Golden Laced Wyandotte's are one of the most strikingly beautiful chickens to grace a backyard flock. Developed in New York, they are quiet, easy to manage and are of the most winter hardy of all breeds.

APPROX. 180-260 LARGE EGGS/YEAR | EGG COLOR: BROWN  
MATURE WT: MALE 8 ½ LBS. FEMALE 6 ½ LBS.

SEX	1--4	5--14	15--24	25--49	50--99	100+

Unsexed	3.50	3.35	3.20	3.05	2.90	2.75

### ISA BROWN

The ISA Brown is one of the top sellers in the industry because of the number of eggs they lay and their gentle demeanor. The ISA Brown has excellent shell quality and texture. A docile bird, extremely easy to work with. When they are hatched the pullets are red and the cockerels are white.

APPROX 300 LARGE EGGS/YEAR | EGG COLOR: BROWN  
MATURE WT: MALE 6 LBS. FEMALE 5 LBS.

SEX	1--4	5--14	15--24	25--49	50--99	100+

Unsexed	3.20	3.05	2.90	2.75	2.60	2.45

### NEW HAMPSHIRE RED

The New Hampshire Red grows a bit faster than the Rhode Island Red and was an important broiler breed until the era of modern hybrids. The New Hampshire Red pullet sports light rusty red feathers and lays about 240 eggs each year.

APPROX. 240 MEDIUM EGGS/YEAR | EGG COLOR: BROWN  
MATURE WT: MALE 6.5 LBS. FEMALE 6.5 LBS.

SEX	1--4	5--14	15--24	25--49	50--99	100+

Unsexed	3.20	3.05	2.90	2.75	2.60	2.45

### PRODUCTION RED

The Production Red is not a true sex link, but it performs like one! This breed is one of the most hardy and productive birds we offer for sale. The hens lay good sized eggs that have strong shell quality.

APPROX. 260 LARGE EGGS/YEAR | EGG COLOR: BROWN | MATURE WT: MALE 6 LBS. FEMALE 5 LBS.

SEX	1--4	5--14	15--24	25--49	50--99	100+

Female	3.95	3.80	3.65	3.50	3.35	3.20
Unsexed	3.20	3.05	2.90	2.75	2.60	2.45

### RAINBOW DIXIE

The Rainbow is a dual-purpose bird that has one of the most unique feather color patterns you will ever see. It has every color you can imagine, and no two birds look alike. The best part about this breed is that they make wonderful birds for small backyard flocks giving you the opportunity to butcher them or keep the hens for eggs!

APPROX. 250 MEDIUM EGGS/YEAR | EGG COLOR: BROWN  
MATURE WT: MALE 6 LBS. FEMALE 5 LBS.

SEX	1--4	5--14	15--24	25--49	50--99	100+

Female	4.25	4.10	3.95	3.80	3.65	3.50
Unsexed	3.50	3.35	3.20	3.05	2.90	2.75

### RED SEX LINK (RED STAR)

The Red Sex Link is the result of crossing two heritage chicken breeds, Our pure Rhode Island Red with our pedigree pure Delaware hen. An excellent choice for raising backyard chickens and an excellent source for eggs and chicken fun. This breed is suited for small chicken coops, larger chicken houses, tractor chicken pens and free-range chicken farming. Mix in with your heritage breed flock.

APPROX. 200-280 MEDIUM EGGS/YEAR | EGG COLOR: BROWN

Unsexed	3.20	3.05	2.90	2.75	2.60	2.45

### RHODE ISLAND RED

The Rhode Island Red breed was developed in the late 1800's. Their ability to lay about 265 eggs per year made this breed famous worldwide and became the parent of several modern hybrid egg layers. The glossy mahogany colored hens with black tail feathers are as beautiful as they are gentle and productive.

APPROX. 265 LARGE EGGS/YEAR | EGG COLOR: BROWN

Unsexed	3.20	3.05	2.90	2.75	2.60	2.45

### SILVER LACED WYANDOTTE

These lacy girls are not all show with their elegantly patterned feathers. They are also great egg layers. Wyandotte's are one of the most strikingly beautiful chickens to grace a backyard flock. Developed in New York, they are quiet, easy to manage and one of the most winter hardy of all breeds. Columbian Wyandotte and Blue Laced Red Wyandotte sold as straight run only.

Unsexed	3.35	3.20	3.05	2.90	2.75	2.60

### TETRA BROWN

The Tetra Brown is the bird of choice for today's egg farmers. It is a hybrid type of Sex Link originally the result of crossing Rhode Island Reds and Rhode Island Whites, but now has genetics from a wide range of breeds. They are a very docile bird and will get along in almost any environment.

Unsexed	3.20	3.05	2.90	2.75	2.60	2.45

## WHITE LEGHORN

Years ago, a small amazingly productive chicken breed was imported from Italy through the port of Livorno. "Leghorn" became the Anglicized word for that port and the breed. Supermarket eggs are almost always laid by White Leghorns or hybrids developed from them. Hens lay about 290 eggs every year while eating less feed than most other breeds.

APPROX. 290 LARGE EGGS/YEAR | EGG COLOR: WHITE  
MATURE WT: MALE 4 LBS. FEMALE 3.5 LBS.

SEX	1--4	5--14	15--24	25--49	50--99	100+

Unsexed	3.20	3.05	2.90	2.75	2.60	2.45

## WHITE PLYMOUTH ROCK

In 1620 a band of Pilgrims set foot on Plymouth Rock, and years later a new breed of chickens was named for this famous site. Few birds are as stunningly regal as a Plymouth Rock strolling across a summer lawn. With their New England heritage, they do not let January's blizzards interrupt their laying. White Rocks are just as productive as their Barred cousins and are as brilliant white as fresh snow.

APPROX. 250 LARGE EGGS/YEAR | EGG COLOR: BROWN | MATURE WT: MALE 9.5 LBS. FEMALE 7.5 LBS

## BLACK MARAN

The Maran breed originates from a town called Marans, France. It is a very winter hardy breed with a docile temperament. This breed is known to be more athletic and taking to foraging and free ranging more often than other breeds. The Black Maran lays a lighter brown egg, unlike the Black Copper Maran that lays a very dark brown egg. These tough birds make a terrific addition to any backyard flock.

APPROX. 200 MEDIUM EGGS/YEAR | EGG COLOR: BROWN

### CALICO PRINCESS

The Calico Princess is topaz colored and its feathers alternate in color between the light red-orange and white making it seem like a glimmering topaz stone. They are great egg layers and do well in many different environments. They are also robust and can adapt well to different climates. This bird is a specialty hybrid that was created by a breeder in the Czech Republic.

Approx. 290 Large Eggs/Year | Egg Color: Cream  
Mature Wt. Male 5 lbs. Female 4 lbs.

## DOMINIQUE

The Dominique is considered a “heritage” bird because it is considered America's oldest breed of chicken. Dominique hens tend to be calm and personable. Their calm, steady demeanor makes them successful as show birds or family pets. At first glance, Dominique’s and Barred Rocks appear strikingly similar. The strongest difference is the Dominique’s have a rose comb while Barred Rocks have a single comb.

APPROX. 180 MEDIUM EGGS/YEAR | EGG COLOR: BROWN

Unsexed	3.50	3.35	3.20	3.05	2.90	2.75

## JERSEY WHITE GIANT

Brown Leghorns share the productive traits and nervous personality of their white cousins but have slightly larger bodies clothed in one of the most beautiful feather patterns of any white egg laying breed. Always alert, Brown Leghorns are athletic, excitable, chatty, and often better able to avoid predators than slower breeds.

APPROX. 280 LARGE EGGS/YEAR | EGG COLOR: WHITE

### SALMON FAVORELLE

People own Salmon Faverolles for their silliness and their steady egg production. These bearded beauties are great docile birds that are very friendly. They also have an extra toe! The breed originated in France and became the premier meat and egg laying breed at the Paris market in the late 1800s. The salmon color is the most prominent in Europe and where they are available in the United States.

APPROX. 180 MEDIUM EGGS/YEAR | EGG COLOR: LIGHT BROWN

### SILVER LACED POLISH

The breed name Polish came from the Polish army's feathered caps because it resembled their feathered crests. The chickens originated in Spain and then brought to Holland, where the Dutch perfected their coloring. They became a popular bird in France, then started appearing in the United States around the 1830's. They are a great breed, very docile and even tempered. They are easily surprised due to their feathers limiting their eye sight, making them vulnerable to predators.

### BROAD BREASTED WHITE

This turkey is one of the most common and largest breeds available in the United States. The Broad Breasted White's size makes it a terrific addition to any table. If you wish to grow for commercial turkey meat this is the breed for you. The mature female weight at 20 weeks is 25 pounds, and the males will mature at about 45 pounds.

SEX	1--24	25-49	50+
Unsexed	6.27	6.02	5.77

### BROAD BREASTED BRONZE

Much like the Broad Breasted White, the Bronze is still as large and meaty as its counterpart. Because of its size it's hard for this breed to reproduce. Its size makes it the perfect bird to raise on your own for holiday gatherings. If you wish to grow for commercial turkey meat this is the breed for you. Bronze typically have more darker meat. The mature female weight at 20 weeks is 23 pounds, and the males will mature at about 33 pounds.

SEX	1--24	25-49	50+
Unsexed	6.80	6.55	6.30

### BOURBON RED

This breed received its name from being popular in Bourbon County, Kentucky. The Bourbon Red is a rare heritage breed. This breed is a popular table turkey! A flavor that isn't comparable to other breeds. It matures at 20 weeks. The female will mature at 16 pounds, and the male will mature at about 25 pounds.

## CAYUGA

The Cayuga duck is one of the most popular ducks for exhibition. They are calm and love foraging for many of the destructive insects in your yard and/or garden. The hens are good egg producers and lay both brown and white eggs.

APPROX. 130-180 EGGS/YEAR

SEX	1—24	25+
Unsexed	6.14	5.10

## GOLDEN 300 HYBRID LAYER

The Golden 300 are outstanding egg producers. As adults, the females vary in color, they can be light brown to a very dark brown. The males can have white and dark markings and may look like a dull Cayuga duck.

APPROX. 200-300 EGGS/YEAR

SEX	1—24	25+
Unsexed		

## KHAKI CAMPBELL

One of the most famous duck breeds in the US, the Khaki Campbell gained its popularity by its excellent egg production. The Khaki Campbell makes a great meat bird as well? They tend to be more nervous but make great mothers.

APPROX 165-210 EGGS/YEAR

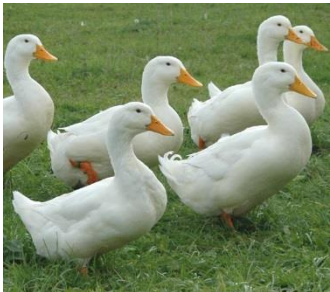

SEX	1—24	25+
Unsexed	5.99	5.07

### MALLARD

The Mallards are excellent flyers but also have a calm disposition. It takes the males approximately 16 weeks to get their full coloring and they start to full coloring, and they start to fly at about 14 weeks of age. APPROX 60-120 EGGS/YEAR

<b>SEX</b>	<b>1--24</b>	<b>25+</b>
<b>Unsexed</b>	6.14	5.10

### PEKIN

The Pekin duck is the most popular breed for eating and they are the most common domestic duck. If managed carefully, they have excellent egg production too. The duck can be processed around 40 days old when it reaches around 7 lbs. The Pekin are calm, do not fly, and aren't as motherly as other duck breeds.

APPROX. 150-200 EGGS/YEAR

<b>SEX</b>	<b>1—24</b>	<b>25+</b>
<b>Unsexed</b>	6.14	5.10

### ROUEN

Rouen ducks are larger than the Mallard breed but are similar in color. This is a close second favorite breed of duck next to the Pekin They have very tasty meat and have a lean body. Their temperament is calm, and they lay a decent amount of eggs per year. A terrific addition to any size farm.

APPROX 140-180 EGGS/YEAR

<b>SEX</b>	<b>1—24</b>	<b>25+</b>

SEX	1--24	25+
Unsexed	6.14	5.10

**WELSH HARLEQUIN**

This calm and inquisitive bird makes an excellent egg producer due to its Khaki Campbell heritage. The Welsh Harlequin is gaining popularity because of these characteristics and because they still have great instinct to hatch a nest of ducklings. The Welsh Harlequins also make great foragers. APPROX. 100-150 EGGS/YEAR

SEX	1—24	25+
Unsexed	6.49	5.67

**WHITE CRESTED**

The White Crested was a very popular breed in the late 1600's, and was featured in many paintings by various artists. They are a wonderful, dual-purpose bird that also makes a great show bird. The breed tends to be nervous but lays a decent amount of eggs. APPROX. 100-130 EGGS/YEAR

SEX	1—24	25+
Unsexed	7.04	5.98

**WHITE LAYER**

The White Layer duck is a great forager and a prolific egg layer. It equals the Golden 300 Hybrid layer in production but has white plumage. This breed is calm, and the mature birds will average 4.5 to 5.75 lbs. APPROX. 200-290 EGGS/YEAR

SEX	1—24	25+
Unsexed	7.04	5.98

### AFRICAN

A curious goose, the African was introduced to the U.S. in the mid 1800's. It has a black knob on the tops of its head and a dark strip down the back of its neck. It is a smaller bird than the Embden and Toulouse. Its adult weight is 12.5-15.5 pounds.

APPROX. 35-45 EGGS/YEAR

### BUFF

The American Buff is an apricot-fawn color. This very calm natured goose sports buff colored feathers on its back, and its sides are edged with creamy white. The Buff's abdomen is nearly white, and its legs may fade to pick during laying, or when green grass is not available. Its adult weight is 14-16 lbs.

APPROX. 25-35 EGGS/YEAR.

SEX	1—8	9+
Unsexed	16.70	16.55

**EMBDEN**

The Embden is the most popular goose for eating. They are a nice strong bird with blue eyes and orange beaks and feet. They have all white plumage and you will be able to tell the males by the color of their feathers when they are very young. The grey down on the males is much lighter than females when they are very young. Their adult weight is 15-20 lbs.

APPROX. 35-45 EGGS/YEAR

SEX	1--8	25+
Unsexed	11.65	11.50

**TOULOUSE**

Developed in the 1850's the Toulouse was bred for exhibition purposes. This very calm breed is slower growing, not reaching full maturity until at least three years old. Their plumage comes in shades of grey. The adult weight is 18-25 lbs.

APPROX. 15-25 EGGS/YEAR

SEX	1—8	9+
Unsexed	12.25	12.10

**WHITE CHINESE**

The White Chinese goose is smaller than the Embden or Toulouse. It can be noisy but is the most prolific egg laying goose available. Its most distinguishing feature is the one that sets it apart from the African, its raised knob is more prominent. Its adult weight is 10-15 lbs.

APPROX. 45-55 EGGS/YEAR
