CFR Pro Team

Now the French Tarmac Championship is about to start, it's times to present the 11 teams who will only compete in the CFR, teams can have only 3 drivers with the car that each drivers want. Teams got budget to respect for the season, cars to buy, to fix etc. If a team reach a negative sold this one is close and drivers are exclude of the R5 class, if they choose this class because it's reserve to Pro Team

World Rally Championship: Sweden

Before talking about Sweden, let's come back to the Monte-Carlo where the winner **joan** got disqualified for invalid setup. I can recall you to check your setup after each Update that affects your car pack, even if it's just a 3D change. Also after complete your own setup.

WRC

The Rally Sweden starts Thursday night with the traditional Super Special Stage in the stadium of Karlstad, and really starts Friday and it's snowing! A little bit. After the four stages of the morning **mimowrc** take the lead by 10sec on **hubertos**, **Juhopack** and teammate **Hug** are close together **joan** is fifth at 25sec. Here in Sweden no tyre strategies only studs tyres are proposed to the drivers. On the second stage the snow has melted and pushed out the lines leaving gravel on the road, drivers have complained about tyre wear, but it's part of the game! About that **Juhopack** crashed in this stage **joan** who already passed **Hug** is now 3rd, and **hubertos** was closing in to finally take the control of the rally on the last stage of the day, **mimowrc** drop 16sec in Torsby's stage, losing a place, **joan** still 3rd, **Hug** 4th and **rawilf** 5th.

Bad Saturday morning for **hubertos** who crashed in the first stage, **kev42130** pushes to come back to the 4th place and **G.Ros** just behind. **mimowrc** successfully contains **joan** at 30sec, big fight between **G.Ros** and **kev42130**, **G.Ros** is now 3rd and **kev42130** 4th, **Riry** makes his way to the Top5. But wait a second ... **Hug** and **rawilf** are missing! They are both out in SS11-14, this stage has made a lot of damages.

Sunday, three stages to run and **G.Ros** already out, **mcdaros** is now 5th, **Riry** 4th, **kev42130** on the podium, **joan** can't do anything to stop **mimowrc** from wining the second round of the WRC here in Sweden, **joan** take his first points but 50pts behind **kev42130** new leader of the championship.
