The Library Catalog

Most of my reports include extensive timelines, some with maps, players involved, money flow, and how it all connects. I expose the nests, webs, and operations in a comprehensive but easy-to-follow format, and link to all evidence. These are not typical articles – they are dissections, though there are many shorter articles in this library as well. I like to show people what is coming down the pike so they can prepare, make choices, and take action. Most of my lengthier reports can also be found in [The Bookshop](#) available in PDF download.

This [video](#) below is **KEY** to understanding how the entire healthcare industry operates, who is really running the show, how they influence policies, prioritize funding for health issues, and ultimately use taxpayer dollars to do it. This is an extensive video breaking it all down, in addition to chapter 3 of the book on AIDS, which covers the financials and agendas of the Bill & Melinda Gates Foundation. They are essentially the revolving bank for the healthcare industry and much more. It is a front. Mind you, this was published in conjunction with the book on AIDS prior to their plandemic.
