What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you will find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign. If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Aspects between the planets are also listed and interpreted.

If the birth time is unknown, we cannot know the Ascendant or house positions. The natal chart shown here is an Aries chart in that case. Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days, making it quite possible that someone is born on a day in which the Moon sign changes. Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (example the Sun changes signs every 30 days or so). For an unknown time, on some birth dates the Moon may be in one of two possible signs. The possible range for Moon signs can be determined by noting the sign at 00:01 and also at 23:59.

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be downright timid in love, and that same person can be aggressive in business. Not only that, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the largest benefits of astrology is the ability to understand ourselves better so that we can work with our natal charts rather than

against them. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations that follow are detailed, while others are brief. You can do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables here show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart report.

Planet Positions, Ascendant, & Houses

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

The following table shows the planetary aspects in your natal chart. Interpretations of these factors are found below. The numbers listed under the column "Value" serve as a relative rating system for each aspect and are determined based on the planets involved, the aspect type, and the orb of influence. Negative values suggest more stressful or challenging influences while positive numbers show more flowing, easy energy.

Natal Chart Report

Birth Chart

This birth chart report shows the positions of the planets for Brittany Gae Petros .

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

Sun in Virgo

It is rare to find the stereotypical nitpicky, exacting, "clean freak" in modern-day Virgos. Although the sign of Virgo has evolved with the times, there are some unmistakable traits that remain. Virgo people are generally respectable, hard-working individuals who have a love of knowledge and know-how.

Virgo's symbol, the Virgin, shows itself in the lives of Virgos through a love of all that is "natural" and a certain purity of spirit that keeps Virgos self-sufficient and self-contained, at least on the surface. Virgos are sensitive to their surroundings, and they tend to embarrass easily. They are generally reticent when faced with anything or anyone new. However, once they feel comfortable, they can talk up a storm. Many Virgo Suns are not too comfortable in the limelight. These types are just fine living in the background, as long as they feel useful and appreciated. Solar Virgos have a strong sense of responsibility. Even when they've convinced themselves to be irresponsible about something or the other, they worry about it.

Not all Virgos are workaholics. However, when Solar Virgos are not involved in some kind of project, there is generally a vague feeling of discontent. Even when their lives are filled up with work, they are restless and somewhat nervous creatures. The fear of under-performing is often strong. Virgos want to do things well. Some are exacting and thorough, and those Virgos who have convinced themselves to do a less-than-perfect job will generally feel incomplete. There's an odd combination of the intellectual and the practical in Virgo that is sometimes mistaken for coolness. In fact, Virgos are often self-effacing and shy. They'll brush off your compliments quickly and, sometimes, critically; but don't let that fool you. They need your respect and

appreciation. In fact, the happiest Virgos are the ones who feel appreciated and useful. Add plenty of worthwhile projects to keep them busy, and Virgos can be some of the sweetest, kindest people around.

Keywords: analytical, intelligent, reserved, critical, helpful, conscientious.

Virgo ascendant Libra

Sun in XI

You are a humanitarian who aims to treat everyone as equals. You seek to be unique and original, and you do your best to avoid bias and prejudice. Social status is less important to you than belonging to a group of diverse personalities. Your identity, in fact, is somehow linked to a larger unit than yourself. You have high hopes and goals, and tend to look at life in terms of opportunities. You have magnetic appeal, as people sense your broad tolerance and openness. The friendships you establish are crucial to your development. If you identify too much with your friendships and your friendliness, you may become too impersonal and alienate those who would like to get close to you. Successful career thanks to support of patrons, friends or relations. You are a leader in groups and people look up to you.

-145 Square Sun - Moon

You have an internal struggle between your needs and your wants. You can lack focus and be indecisive as a result. Your ability to be objective is both an asset and a liability, simply because when you decide on one route, you are pulled in another direction at the same time. Something tugs at you, and you begin to question your stance. "But what if..." and "on the other hand..." are statements you can't help but make, and that might plague you. You are always aware of the opposing point of view and the other side of the coin.

-261 Opposition Sun - Jupiter

Although your intentions are generally good, you are given to overdoing things. You can easily gloss over realistic details and get yourself into debt, overindulge in pleasures such as food and drink, and promise more than you can deliver. For the most part, you find help for your excesses. Somebody's there to bail you out, as plenty of people believe that your heart is in the right place. Generally, this is the case, but if excessive behavior becomes a pattern, and you continually face light consequences, there is the danger that you will not learn from your mistakes and abuse the "system", relying on your friends and family to help you out a little too often. Your reputation for being "good people", thus, can eventually be used to further your purposes--something that should, of course, be avoided.

However, many people with this aspect don't fall into the trap of losing their sincerity. You are generous, helpful, and charitable. Still, the tendency to live beyond your means is a real threat that you might struggle with much of your life. Another thing to watch for is depression. You tend to go through periods of intense highs when you are excessively optimistic. These periods

are so marked that they seem to be unnatural and a fall seems to be inevitable. You can make promises you intend to keep, but have a problem with follow-through. Self-control can be a real problem. Try to avoid gambling altogether. Usually quite knowledgeable and generous with your time, you have many talents that you might take for granted.

195 Sextile Sun - Saturn

It is easy and natural for you to accept responsibilities, to lead a rather ordered life, and to apply caution in your financial and business dealings. You rarely jump to conclusions or take uneducated risks. You have a certain amount of patience and enough self-discipline to slowly but surely achieve what you set out to do. Although somewhat undemonstrative, you are generally loyal and responsible people to those you care about. You take your time in most endeavors and generally use a step-by-step approach to most projects--but you steadily reach your goals. You are naturally trustworthy, and you don't have much patience for those who don't show respect for others, who take foolish risks, and who lead disorganized lives.

The Moon represents the emotional responses, unconscious pre-destination, and the self-image.

Moon in Gemini

Lunar Geminis are usually pleasant, witty, and charming people. At home and with family, however, they can be moody and irritable at times. People with Moon in Gemini are always interesting people--they have a finger in every pie, are curious to a fault, and are generally well-informed. Nervousness and worry are common traits with this lunar position. An underlying restlessness is common, and many Lunar Geminis need more stimulation than others. They usually read a lot, talk a lot, and think a lot with this airy, mutable position of the Moon.

Their homes are often a perpetual work-in-progress. They generally dislike housework, but are big on home improvement. Re-organizing their homes in little--and sometimes big--ways seems to keep them happy, as Lunar Geminis are easily bored by both routine and constancy. Often, this is a reflection of their inner world--"the grass is always greener..." applies here. Inwardly, Lunar Geminis are often unsettled. Moon in Gemini parents are generally more adept at handling the intellectual needs of their children than emotional ones. Others' complicated emotions, in general, can be difficult for Lunar Geminis to handle. In their families, Lunar Geminis often take on the role of organizing get-togethers. They are at their best when they have plenty of things to do beyond routine. Moon in Gemini people almost always have a way with words. They are clever and witty, and more often than not can be found chatting with others. They are sociable and friendly, and feel comfortable in crowds. Some pay too much attention to what everyone else is doing, and lose touch with what they really want to do. Generally, Lunar Geminis have a million and one projects going. They are impressionable folk, and their imagination is boundless.

Their openness to new ideas is admirable, although decisiveness and persistence take a blow as

a result. Still, versatility and adaptability are some of the stronger traits of this position of the Moon. When irritable, they can easily become snappy. Their moodiness is complicated--this is not the same kind of moodiness you'll find with water sign moons, for example. Usually, difficult behavior stems from inner restlessness. Lunar Geminis want to do it all, and have trouble sticking to any one project. When problems arise, the first instinct of Moon in Gemini natives is to talk things out. Their tendency to analyze can give them the appearance of emotional detachment. In fact, Lunar Geminis may be especially comfortable talking about their feelings, but feeling their own feelings doesn't come as easily. Those that don't take time out to really emote and understand their own needs may end up baffling others. Feeling misunderstood is common for Moon in Gemini natives. The only real solution to the problem is learning to get in touch with their own feelings.

Short description:

Sharp intellect. She likes literature, and will adapt to all situations and social groups. Work in contact with the public, literary occupations, travel.

Potential issues: lack of follow-up of ideas, indecision, may go back on decisions.

Moon in VIII

She has a predilection for deep and profound dreams. Romantic fantasies figure strongly. Possibly quite interested in the occult.

While you have a strong need for emotional security, you are also a person who is drawn to pushing your own limits, and many lifestyle changes can be the result of this need to challenge, or reinvent, yourself emotionally. You are always fascinated with how people work, taboos, secrets, and all that is forbidden or hidden. Sexual unrest, or an apparent need to constantly change sexual partners or to challenge yourself sexually, may be a symptom of emotional insecurity. Connecting with another person intimately is an emotional need, but your changeable emotions might often get in the way of your goal. Jealousy and possessiveness might also be qualities you struggle with. At your best, however, you are a person who is intimate, deep, and intensely loyal to a partner.

-50 Square Moon - Jupiter

She is sometimes indifferent to others, to those who surround her; she is sometimes careless, and perhaps a little negligent and indecisive. She may "feed" inner restlessness with excesses in gambling, shopping, or other comforts, and her honesty is sometimes a bit elastic. This aspect does not help professional success, especially as she tends to spend more than she earns, but this aspect doesn't deny success either. Making the most of success can be the challenge. Sometimes enthusiastic and gung-ho, and other times indifferent, it can be challenging for others to understand her. Changeable morals to suit the current situation. Should look for constructive avenues for her inner restlessness. Wonderful sense of humor and big hearted.

Mercury represents communication, Cartesian and logical spirit.

Mercury in Libra

Usually quite diplomatic and tactful, she evaluates and weighs things up endlessly, often to the point of indecisiveness. Of good judgment, she expresses herself clearly. Before coming to an opinion on a subject, she listens to the opinions offered by various people and can compare them before making up her own mind. Mental affinity in her relationships is paramount. She is good at compromising and always tries to put herself in others' shoes. Some mental laziness.

Mercury in XI

She has lots of friends. She likes intelligent, cultivated people around her with whom she can enjoy verbal sparring. She likes debates, interminable discussions. Often has friends who are younger, or friends come and go.

You are endlessly curious about people, group interactions, community affairs, trends, and teams. You are attracted to people who bring new ideas into your experience, and who have something novel to contribute on an intellectual level. You are very forward-looking and fair-minded. Fair play, impartiality, and unselfishness are important ideals for you. There can be many changes or fluctuations in your personal wishes, dreams, plans, and ideals. You might attract friends who come and go, or who are dishonest or duplicitous.

146 Conjunction Mercury - Mars

She likes discussions, debates, polemic. She has good judgment and can be very determined. She is a worker and has lots of energy. She has a lively intelligence and usually goes to the heart of things. She is enthusiastic, incisive, and energetic in thought and speech.

146 Sextile Mercury - Neptune

She can put down in writing everything that her imagination and intuition dictates. A wonderful storyteller.

339 Conjunction Mercury - Pluto

She has a great sense of observation and quickly grasps and sizes the situation. She is crafty, subtle, and perceptive.

Venus represents an interest in emotions and values, exchange, and sharing with others.

Venus in Virgo

Venus in Virgo people are not the flirtatious sort. Instead, their appeal lies in their dedication, their willingness to work on the relationship, and to make the relationship work in real terms. Unlike Venus in Leo, they won't try to impress you with grand gifts or promises. Their gifts are

less showy, but perhaps far more generous -- gifts of devotion and attention to details about you. Venus in Virgo natives quietly (and often slowly) make their way into your heart. They are quite sensitive in love -- even insecure -- and this reserved, loner-like quality is part of their appeal. They prefer to play it safe in their relationships, and they need to be confident that you like them before they make a move. They are great listeners and they make it a habit to observe and learn all of your ins and outs. Their love can be of the Kindergarten variety -- they show they care by nagging or criticizing. Remember, though, that they are not trying to hurt you when they are pointing out the flaws in your thinking, plans, or even character. They truly are trying to help! Venus in Virgo is attracted to nondescript people who have largely gone unnoticed. Show-offs and know-it-alls turn them off.

Pleasing Venus in Virgo involves showing you appreciate them for all the little things they do -- and they do a lot. The problem is, they do these things so quietly that you may not always notice or credit them for all these kind gestures. They do need some space (after all, they're generally quite busy making everything work), so give it to them. Be genuine, not ostentatious. They are really not difficult to please after you have taken care of these basic needs. Avoid pushing your friends or family on them too fast -- remember they are a little shy. They aim to please, and are easily intimidated by your experiences. Let them know how much you value them, and they will reward you with devotion and a charming willingness to talk things out.

Short description:

She is very devoted, but may not always show emotions; she doesn't always let herself go, either through fear of ridicule or through fear of not being loved in return as much as she loves. She is therefore sometimes too undemonstrative. May give off the sense that her love is not for free. Caring but worries that she is not exciting enough. Careful with money.

Venus in X

Her best years may be in the parental home and also the last years of life. That said, the rest are not unhappy, but contain certain hurdles. Love can help in the professional life; she has a gift for seduction. She likes to entertain; she likes the comfort and attractions of home life.

Others tend to respect you for your charming manner, and you have many admirers, although some of these are admirers from afar, as there is an aura about you that is charming yet strangely (and intriguingly) distant. You have a great need to be recognized or admired for your charm, beauty, or loving manner, but should be careful not to become too wrapped up in what others think of you, as you might come across as phony or superficial. Some people with this position are "married" to their work or to their image. You are good at making contacts and organizing social events.

2 Sextile Venus - Uranus

Independent in love. Her love life is rich, but possibly with passing love affairs. She can tire

quickly and can be scared of losing her liberty. Traditional marriage may not be for her. She has that little something that attracts others. She likes amorous adventures or unusual pastimes, she is romantic, although a little detached or unpredictable. She is the eternal lover and is more likely to break something off than live untruly. She likes art, anything new.

The ability to get along with--and accept--people from all walks of life as friends is strong with this position. She can readily see through insincerity in others. In relationships, tolerance is the most important "ingredient" to her. Her sexual preferences can be somewhat unconventional, and she may not be happy with a partner who tries to limit her sexual expression. She is usually quite capable of maintaining relationships that require a great deal of freedom and tolerance, such as long-distance romances or set-ups in which partners are unable to see each other consistently. Her style in love can be somewhat free and breezy, and possibly noncommittal. She quite naturally accepts the idea that her partner might need some personal space and freedom.

-14 Square Venus - Neptune

She might lack self-confidence and her ideals are not always easy to achieve. In love, she is unstable and deceitful or, more likely, meets people who are like this. She is easy-going and follows others' wishes in love much of the time, and might let the partner take the initiative more often than not.

This aspect indicates a suggestible romantic nature. Being "in love with love" is a strong possibility. You are naturally compassionate and are generally willing to go over the top for a loved one. It's hard to say whether your expectations in personal relationships are too high or too low. On the one hand, you tend to easily accept behaviors in your partners that others wouldn't accept, as you are compassionate and even drawn to people who others might consider trouble. On the other hand, your romantic dreams may be so powerful that you are easily disappointed with the reality of relationships. Deception in love is possible, but self-deception is even more likely. In love, you see what you want to see, rather than what is. Feelings of being used or deceived may come up. However, if a distinct pattern exists in your love life that involves you being let down, deceived or used, it will be especially worthwhile to examine whether self-deception was at work.

The possibility of clinging to romantic delusions is very high with this position. For example, some with these aspects cling to a romantic notion that someone loves them when in reality that person doesn't return the affection. Or, they may cling to a romance that has lost all hope. Another possibility is devoting their love to someone who is unattainable or who is unable to commit. Yet another Venus-Neptune scenario is loving someone who treats them badly, all the while clinging to an idealized image of the partner. No matter what the scenario, romantic yearning and longing, as well as delusion, tends to be the theme. The expectation here is that loving someone requires self-sacrifice. The result is an attraction to relationships that are co-dependent and even abusive. Venus-Neptune people are drawn to victim/savior relationships,

and they can play either the role of victim or savior! Dependency or neediness in a partner can be confused for love. In an attempt to love unconditionally, you may too readily sacrifice your own needs and eventually feel used.

51 Sextile Venus - Ascendant

She likes everything beautiful, the Arts, balance, and harmony. She is amiable and sociable. She likes entertainment and has a loving nature.

Mars represents the desire for action and physical energy.

Mars in Virgo

These productive and busy people are goal-oriented, practical people. Although they can be a little scattered at times, simply because they are doing so many things at any give time, Mars in Virgo natives get things done--quite well! They have a knack for handling a wide variety of tasks at once, and a tendency to take on perhaps too much at the same time. Most Mars in Virgo natives are not particularly aggressive by nature. Although they can be a little hard-nosed and critical at times, they rarely resort to pushing others around. Still, an annoyed Mars in Virgo native can be difficult to be around! Arouse their anger and they turn into complaining, over-critical nags. Generally, these natives don't make themselves nuisances, so this stage is unlikely to last for very long. It is a sensitive position, however. It doesn't take much to make these people nervous.

Mars in Virgo people are quite protective about their "system" for getting things done. Although rather humble in a general life sense, they can be quite particular about their methods--how they organize and accomplish their goals, mostly with work. Theirs is a nervous energy. Although they have some staying power, they can be restless and are not given to sticking with the same projects for too long. These natives derive plenty of energy and life force from the things they do--their work, hobbies, and any kind of projects they take on. An idle Mars in Virgo native is a sorry sight, indeed. Fidgety, nervous, worried...all of these things are a sure sign that Mars in Virgo people have either too little to do, or far too much on their plates. There is a perfectionist at the heart of all people with this position. They'll be the first to deny this, but it's there! They worry when they are not producing anything, and they worry about whether what they've produced will measure up.

An earthy and sometimes nervous sexuality generally characterizes people with this position of Mars. In a sense, their performance in bed is similar to their work. These people want to be good at what they do. They will generally be open to experimentation, if only to feed their curiosity and to feel savvy. There's often a shy and humble side to Mars in Virgo in any area that involves putting themselves out there and letting go (areas ruled by Mars). But experience and knowledge are important to these natives, and this drive generally wins over their natural reticence.

Mars in XI

She achieves her ambitions. She is impulsive and presses on without thinking. She starts something new without necessarily finishing the previous job. She likes to dominate and may lack diplomacy at times where friends and professional relations are concerned.

57 Conjunction Mars - Pluto

She is ambitious with a great capacity for work and effort, self-confidence, and determination. Will stick it out to the end with her plans.

You are committed, determined, and passionate. For you, it's all or nothing, and you are baffled by, and possibly impatient with, others who do things only halfway or half-heartedly. You are usually quite decisive, and often unwavering once committed. You are certainly a passionate person and you possess a fascinating and commanding aura.

You are generally confident about your own talents. You employ strategy when you are going after something, and you are very talented at this, saving time and energy. You're naturally very resourceful and usually quite persistent when pursuing a goal. You are a wonderful person to be around when there's a crisis. Very little fazes you, and you're especially effective when circumstances call for a leader.

Jupiter represents expansion and grace.

Jupiter in Pisces

She attracts the most good fortune when she is charitable, tender, devoted, compassionate, giving, and looking out for the underdog. Values compassion and charity, and is motivated by a universal vision. Peaceful personal philosophy. Faith in the goodness of life brings rewards.

Jupiter in V

She likes games and distractions. She has much passion that lights up her days. She is lucky in love, but also professionally, with pleasant working conditions and duties. She loves her children deriving much enjoyment from them.

16 Trine Jupiter - Saturn

She is serious, patient, honest, hard-working, orderly. Her judgment is good and she is inclined to think things over. She pursues her objectives to the bitter end, usually knowing when to choose the right moment. She is upright, usually law-abiding and respecting order.

-34 Square Jupiter - Neptune

She is easily influenced. She is a dreamer, perhaps allowing herself to be seduced by others' fine words which are not always sincere or by a new imagined plan that may not materialize. She

does not see wickedness right away, preferring to give the benefit of the doubt, but can often be duped by others due to a philosophy that one should trust in people until they prove themselves untrustworthy.

Saturn represents contraction and effort.

Saturn in Cancer

May feel fundamentally unloved and unsupported, but can miss opportunities to receive support because of the basic attitude that she isn't going to get love.

Saturn in IX

She is studious, patient, rigorous, austere. She likes reflection, meditation. She carries out all the plans she makes. She can be a stay-at-home.

Uranus represents individual liberty, egoistic liberty.

Uranus in Libra

Well-developed artistic leanings; her balance can be upset by too great an independence. Questions traditional approaches to relating and wants to do things differently.

Uranus in XII

She has difficulties fully adapting to the modern world, to new technology. She looks for a job in an isolated place or need a lot of space to tap into their genius.

69 Conjunction Uranus - Ascendant

She is always changing, somewhat unstable. She is ready to innovate, to change everything. She is inventive.

Neptune represents transcendental liberty, non-egoistic liberty.

Neptune in Sagittarius

May especially enjoy long voyages, things foreign, being close to water. Altruistic, broad spiritual vision, humane, spiritual.

Neptune in II

She may prefer not to attach too much value to money, but if this is overdone, there can be quite a few problems in life concerning money and ownership. She might make money through artistic pursuits, but must avoid the potential pitfalls of putting too much faith in ideas that don't have enough grounding in reality. It's vital to seek out financial advice for significant ventures.

50 Sextile Neptune - Pluto

Pluto represents transformations, mutations, and elimination.

Pluto in Libra

May look for new ways to relate to others.

Ascendant in Libra

Everybody seems to like Libra Ascendant natives. They just come across as nice, pleasant, and fair. Look a little closer at their lives, and these nice people may have had quite a few problems in their relationships. Some of them have had a string of relationships, and it can be hard to imagine why! These natives attract others to them effortlessly. Besides, they simply don't know what to do with themselves without a significant other. Libra rising generally appear to be smoothing everything over. They have charming smiles, a gentle approach with others, and an easygoing image. Even if they were not endowed with good looks, they are attractive. Most pay a lot of attention to their personal appearance -- the colors they wear, their hair, the way they walk.

Libra rising people can be enormously persuasive, although they will almost always use a "soft sell" approach when they want to win others over, which is all of the time! A tendency to pass the buck and keep up that "nice guy/gal" image are their worst qualities. However, they can make excellent mediators and will generally be the first to accommodate you. Libra rising natives are usually attracted to competent, active partners. Their relationships are often characterized by bickering or competitiveness until they learn to drop their sweet image once in a while and to stop blaming their partners for everything that goes wrong.
