

# Audio/Video/Lighting Technician (m/f)

---

We are the most creative team in Croatia (and beyond) for organizing promotions, events, celebrations, and conferences. Our job is to push the boundaries of the possible to provide unique experiences, create unforgettable experiences, and trigger the best emotions.

We offer our clients support in the complete organization and implementation of events, from technical support in the fields of lighting, sound, and video, and design and creation of scenographic solutions, to complete logistic support that includes storage, transport, handling, and distribution of goods and equipment for events.

With us, everything is possible. We can proudly say that we have successfully organized many conferences, concerts, and festivals, such as the Ultra Europe Festival, LEAP Summit, and WinDays Conference.

At Promo logistika, we try to take good care of our clients and our employees, so due to the increased amount of work, we are looking for new colleagues for the job

## AUDIO/VIDEO/LIGHTING TECHNICIAN (m/f)

If you...

- enjoy working,
- like being on the move,
- enjoy events, combinations, commotion, and agreements,
- have an avid interest in sound or light, and you know how important they are to creating a good atmosphere and a particular experience,
- love fieldwork and find it cool to travel all over Croatia and sometimes abroad,
- enjoy working in a good team with people who jump in and help,
- want a unique job that is unforgettable,

come and join us!

### Your main work tasks

Whether you are a junior or a senior, your main job tasks will include:

- Collection of equipment for the event in the warehouse and preparations for transport
- Loading equipment into vehicles and unloading it at the event location
- Participating in event preparations on site and assisting in the assembly and disassembly of equipment
- Handling state-of-the-art professional lighting, audio, and/or video equipment
- Stacking and caring for AVL equipment in the warehouse and tidying up the storage space
- Searching for equipment and vehicle failures, and reporting them
- Filling out documentation on projects, working hours, field work, and official vehicles

If you are more experienced, according to your knowledge and skills, you may also participate in some of these jobs:

- Making cost estimates and planning and selecting equipment for gigs
- Developing electricity plans
- Setting up equipment and helping to rig and test it before events
- Operating equipment during rehearsals and events
- Providing technical support during events
- Leading teams
- Direct communication with clients and taking care of their satisfaction with services

- Minor repairs and maintenance of equipment
- Training other people to use the equipment

#### Conditions you must meet:

- Graduation from a technical high school (fitter, electrical and electronic device mechanic, electrician, etc.)
- Have the physical ability to perform as a technician in event production
- Be able to lift and carry heavier loads independently (approx. 25 kg for men and 15 kg for women)
- Be prepared to work at height
- Have solid computer skills and be able to navigate applications easily (mail, internet, WhatsApp, etc.)
- Be a hard-working person and have a sense of responsibility towards equipment, colleagues, companies, and clients
- Respect for time, space, and agreements
- Possess solid communication skills and prefer teamwork

#### Your additional pros and pluses could be:

- Previous experience of working on gigs, concerts, and events (audio, video, light, stage, scenography, etc.)
- Completed trainings and certificates for the handling of A/V/L equipment
- Driving license B, as well as the C and E categories (active driver),
- Permit and forklift driving experience
- Knowledge and experience with scaffolding and the installation of formwork and fences
- Active communication in English

#### What do we offer you?

In addition to all the great things that are already listed in the ad, with us you can expect to:

- Participate in a variety of events, conferences, celebrations, and concerts (but behind the scenes) ... and some of your friends will sometimes be seriously envious
- Have a job where no two days are the same
- Learn and work with state-of-the-art equipment and the best experts in the event industry
- Get opportunities and support for your professional development and advancement
- Have a regular and stimulating income, as well as the possibility of additional earnings
- Get an official mobile phone, paid mobile network costs, and quality work equipment (clothing, footwear, tools, and other equipment)
- Go for thorough annual medical examinations
- Have a cooked meal every day when you are in the company
- If desired, share the office pet dog
