

\$120
EACH WORKSHOP

HOLIDAY WORKSHOPS

The holiday workshops are a unique opportunity to attend 2-day workshops during the 2016/17 school holiday breaks. These workshops are taught by world class industry professionals, which give students a great insight to the industry along with teaching students some basic techniques which they can begin to use within their own work..

For currently available workshops visit: CDWSTUDIOS.COM/WORKSHOPS

6 DAY EVENT

INTERNATIONAL MASTER CLASSES

Each master class is a 6 day intensive workshop which is taught by an artist at the top of their industry. CDW Studios regularly hold master class events throughout the year, and have previously had world class international artists such as James Paick, Kekai Kotaki, Jamie Jones, Ben Mauro, Kevin Chen and many others as master class instructors. Our international master classes see us bring out some of the best name's in the industry out to Australia, exclusively to teach the event. The master class will allow students to view workflows, techniques, complete exercises, and receive feedback from the master class instructor for the duration of the event. The International Master Class is an opportunity for students to meet and learn from some of the most sought after artists in the industry, and presents itself as an invaluable experience for those who attend.

The master class will cover everything from tools (WACOM and software), how to begin a painting/design and the key steps to a successful result. Each day there will be a series of presentations and demonstrations, conducted live on stage backed by a huge projection screen and wide screen TV's that give everyone a fantastic view of the instructor demonstrations. Students will then have the opportunity to apply these lessons in a series of exercises and assignments and receive one-on-one feedback from each master class instructor. These collaborative studio sessions will be a unique and interactive experience as students will have be able to look up from their laptop to watch the instructor on stage, while working on their own painting/design.

BACHELOR OF CREATIVE ARTS (DIGITAL MEDIA)

CDW Studios in conjunction with Flinders University offer the 3 year full time Bachelor of Creative Arts (Digital Media) course. This course features all the instructors, LIVE demos and one-on-one industry feedback that already lead the way at CDW Studios but now offered as a full time University course. Students in the BCA (DM) can choose either the 2D or 3D streams held at CDW, or the Flinders digital media production stream.

Studying full time at CDW Studios is the best way to fast track your career in the entertainment design and VFX industry. All classes at CDW Studios are taught by industry professionals, ensuring students receive an industry relevant education. With highly focused classes in a relaxed learning environment, CDW Studios employs a dedicated but encouraging environment for students to develop their portfolios and learn what it takes to become an industry professional.

For current enrollment information please email: info@CDWSTUDIOS.COM

2017 COURSES

12 WEEK COURSES
\$950 PER 12 WEEK COURSE

If you are not studying full time at CDW Studios then you can take the 12 week courses at CDW Studios. The year is split into two semesters:

SEMESTER 1 FEB 27 - JUNE 5 2017.

SEMESTER 2 JULY 24 - OCT 30 2017.

These classes will push your drawing, painting, modelling/texturing and design skills to the next level. During the courses you will learn how to use industry specific programs with a focus on building your portfolio/reel. You will get to see production techniques used in the industry in every class with the LIVE demos. Each CDW course is taught by working industry professionals who have worked for a range of international companies such as Disney, Blizzard Entertainment, Rising Sun Pictures, WETA, Wizards of the Coast and LEGO just to name a few.

MASTER OF DIGITAL PRODUCTION FOR ENTERTAINMENT DESIGN

This high-level training program is designed specifically for the rapidly changing commercial world of visual effects and entertainment design. This innovative new course operates in a production style environment and is based around students working in small creative teams throughout the course to develop their own intellectual property from idea development through to design and implementation of complex story and animation projects.

Throughout the masters you will be taught and mentored by current practicing industry professionals who have worked for companies such as Disney, Blizzard Entertainment, Rising Sun Pictures, WETA, Wizards of the Coast and Lego. This means that you will develop knowledge and skills in the latest industry techniques and technologies, and will have the opportunity to develop networks and contacts with leading industry professionals.

Each small creative team is made up of a range of specific roles which reflect distinct career pathways within the animation and visual effects industries.

When you apply for the masters you need to select the role you would like to do from the listing below:

CONCEPT ARTIST/ILLUSTRATOR

UI ARTIST/GRAPHIC DESIGN

3D ARTIST

TECHNICAL/VFX ARTIST

MATTE PAINTER

COMPOSITER

3D ANIMATOR

STORYBOARD ARTIST

PROJECT MANAGER/PRODUCER

UI ARTIST/GRAPHIC DESIGN
