

When you're expecting, expect the best.

Crouse Health's family-centered maternity care goes beyond the expected when you're expecting, providing around-the-clock care and support throughout all phases of pregnancy — before, during and after delivery.

That's why our diverse team of highly regarded OB/GYN physicians, nurses, midwives and doulas delivers more babies than any other hospital in Central New York.

Along with 24-hour in-house OB and anesthesia coverage, Crouse offers the most comprehensive resources and services to make your birth experience special — from an array of pre-birth classes, lactation support and integrative therapies, to personalized post-delivery care for both mom and baby.

Thankfully, most births go as planned. Yet it's reassuring to know the region's highest level of specialized newborn care is only available in our Neonatal Intensive Care Unit.

For the health of you and your baby, choose a provider who delivers at Crouse.
