HOW TO ENSURE A GOOD FIT SARA's Fit Specialists and Quality Control team are committed to ensuring that every style corresponds to our size charts. To ensure you receive styles that are just the kind of fit you like, please take a moment to measure yourself and then use these measurements to select the correct size for you.

Please note these are body measurements and not garment measurements, which vary according to style. When selecting your size, fit to the widest part of your body, choosing the size nearest to the widest measurement. For further info please visit our website or phone our contact centre to talk to a Customer Service Representative.

MEASURING TIPS Garments may vary in size specifications depending on the style and ease allowance, but they will still fit the body size indicated.

- BUST** Measure around fullest part and across shoulder blades. (try measure for tops and loose fitting dresses)
- WAIST** Measure around natural waistline keeping tape comfortably loose. (try measure for loose fitting shirts)
- HIP** Measure around fullest part of seat, approx. 22cm or 9" down from waist. (try measure for trousers, jeans and skirts)
