When it comes to hiring a photographer for your wedding, it is important to take a look at the overall package on offer. What are wedding photographers offering? Are they going to provide you with all the pictures in digital format? Will they show you the "behind the scenes" pictures as well? Are they going to have more than one photographer on site, to ensure no moments are missed? These are the types of questions you need to ask. It is also a good idea to look through their portfolio to assess the types of photographs they have taken at previous events.
