# COMPANY SYNOPSIS

Mask Up is a start-up innovation company that is focused on implementing groundbreaking designs of PPE (Personal Protective Equipment) for commercial and industrial usage all around the world.

We have 3 major masks, with our most celebrated patented design being the Saturn (MX-888) mask. A fully transparent mask that allows easy breathing with a 360-degree airflow filter, utilizing N99+ filtration infused with eucalyptus oil.

The beauty about this design, unlike anything else currently on the market is that it requires no mechanical or power assisted attachments.

The fully transparent material of the mask allows facial recognition whilst out in public, security sensitive areas, smart phones and other devices utilising this security protocol.

Our masks are an investment for consumers given the ability for them to be reused, by simply cleaning them in a mild detergent and warm water.

The MaskUp team have finished the product development and design phase of our project, with 3 prototype iterations completed we are now ready to begin manufacturing.

## Transparent

Transparent is one of the main features of the MX888 Saturn. It is great for interacting with people, as you are able to see the mouth, teeth and expression, great for security & CCTV to identify criminals. Provides confidence to the community & also this will provide significant assistance for the hearing impaired which rely on reading mouths to communicate

Anti-Fog coating is another powerful addition, the permanent coating will allow you to breathe in and out without fogging up the mask which will not disturb the transparency of the mask while in use.

## Anti-Fog

## Interchangeable Filters

Interchangeable filters play a major part in ensuring this mask is reusable, after 3-7 days of usage simply dispose of the old filter & replacement is convenient & done in seconds. You will save a lot of money with this system & help save the planet from waste, as well as filter over 99.9% of dust & particles. Interchangeable filters allow you to reuse the same mask over and over with the same level of protection.

## 360° Filter

Our 360 degree filtration allows for maximum airflow, effortless breathing aswell as even distribution of air.

## 99.9% Filtration

99.9% of airborne particles are filtered through the our five layer filtration system. GB2626 testing passed as N99+

5 Layer melt blown filter allows for maximum protection, providing over 500% more protection than the standard face mask.

## 5 Layer Filter

## 100% Bio-Degradable

## Comfortable

The most praised feature of the MX888 Saturn is that it is 100% bio-degradable from the mask, to the filter, down to even the packaging! An enormous contribution to help the planet by saving tonnes of waste & protecting the ocean animals. Traditional masks take approx 450 years to bio-degrade & the number of masks washed up on our oceans are increasing dramatically.

High levels of comfort is provided by the MX888 Saturn, designed for comfort, the areas that contact the face are made from 2 layer food grade silicone, ensuring no irritation, cushion feel with a perfect flex seal that moulds to your face shape, trapping filtered air for maximum protection. The MX888 Saturn has adjustable ear loops allowing you to adjust the tension according to your face shape & size.

# BENEFITS

## Communication

The transparency in this mask provides easy communication for the hearing impaired.

Speaking to one another is a breeze thanks to our precision engineering & patented design. Perfectly suited for medical professionals/general public

## Bacteria

Antimicrobial materials used for purification filters which protect from daily air contaminants. Fully enclosed masks, which stops bacteria seeping into the mask

## Interchangeable filters

Unique patented feature. Allows for the mask to be sanitized with alcohol wipes & then reused with replaceable filters

## Anti-Fog

Anti-Fog coating, prevents gathering of condensation on the mask

## UV Ray protection

UV protection, comfortable to wear outside and under the sun

## Eucalyptus

Highest grade Eucalyptus natural oil. Eucalyptus oil helps clear congestion as well as stop bacteria

## Comfort

Silicone cushioning, for a soft feel on the skin. Adjustable ear loops for optimum customization

## Breathable

Worlds First 360 Degree filter. The filter allows for maximum amount of air to pass through the filters to allow for easier breathing

## Facial Recognition

Face to face interactions  
Facial recognition with phones and other security devices  
Enhanced security in sensitive public areas
