This is a clear indicator that the geopolitical landscape is changing for the betterment of humanity.

It also means that the Deep State Cabal have lost control over the geopolitical landscape.

Meanwhile, no new money is being printed to bail out banks.

Multiple Central Banks have already joined the Central Bank Gold Agreement (CBGA).

The US is expected to return to the gold standard next month (October).

Once the US returns to the gold standard; all nations are expected to sign a Global Gold Treaty thus triggering a Global Currency Reset (GCR).

Various nations will adopt the gold standard or transition to an asset-backed economy depending on each nation's total physical assets and natural resources.

The transition to a New Financial System is expected to be completed by the end of this year.
