

# Phoenix BATHROOMS

DESIGNED FOR **YOU**

# WELCOME

## Your home is your space and your space is your life.

More than any other room in the house, the bathroom is about the senses and how we sooth, pacify and reinvigorate them. Finding your dream bathroom has never been easier, with a comprehensive portfolio of products in a new and improved Phoenix brochure.

All Phoenix products are designed in-house and

manufactured to our cutting edge specifications, so you know that personalised care and attention has gone into offering the ultimate interior fashion while retaining and enhancing your everyday functionality. Whether you're aiming for eye-catching design, opulent comfort or minimalist practicality, we have the products for you.

So let Phoenix guide you towards your sensory perfection.

Please ask our appointed dealer for your  
**New Extensive Heating Brochure!**

DESIGNED FOR **YOU**

# OUR BROCHURE

Phoenix recognise that every detail counts in your bathroom, and, while everybody has an opinion about design, we can sometimes be overwhelmed by choice. Our new brochure includes an extensive range of products whilst also demonstrating our keen attention to detail. It also opens up your mind to new possibilities and makes the important decisions less stressful.

The easy-to-navigate content opens up your imagination to the aesthetic potential of your home. The build and design qualities of the products speak for themselves and we also assure you that the key details and specifications are covered.

# FURNITURE

Phoenix bathroom furniture has been designed with a combination of functionality and elegant design. Our range of contemporary storage solutions allows you to complement your bathroom design with the style and finish of your choice. Clean, crisp lines offer a penthouse look or we have a multitude of finishes for the practical family bathroom.

Complete the appearance of your luxury bathroom with one of our stunning mirrors or cabinets.

## ENZO MINERAL CAST WORKTOP & BASIN

There is certainly more to our Enzo range than meets the eye. Innovative edging techniques have created a clean and polished design which incorporates a hidden vanity drawer and hidden handles. These defy the true practicality of robust but elegant units which also feature soft close doors and drawers.

This, complimented by our range of ceramic or mineral cast basins and the choice between either smooth white or textured slate effect worktops, gives you ultimate choice in designing your unique bathroom.

### UNIQUE FEATURES

- 22mm construction
- 3 x basin options
- 4 x colour finishes
- Concealed vanity drawer
- Soft close metal drawers
- Soft close door hinges
- Clean lines

# AMARI

With the Amari range we have taken a fresh and indulgent look at a classic design. Using our innovative hidden handle design the Amari range offers a selection of two door soft close units to suit any size or shape in your home.

All our slimline units are available in two colours, Gloss White and Avola, and the basin units feature a ceramic finish that combines a fresh and clean appearance with a robust and hard-wearing practicality.

## UNIQUE FEATURES

- Soft close doors
- Hidden handle design
- Ceramic basin
- Matching back to wall unit
- Matching bath panel
- Matching storage unit

## TREND

Trend is an extensive range of slimline units designed to fit any smaller space configuration with style and practicality. Perfect for the smaller downstairs bathroom or en-suite, the Trend range incorporates astute space-saving features such as corner units and integral WC, basin and storage systems.

Featuring our hidden, scooped handle design the Trend range comes in two colours - Gloss White and Avola. These open up more possibilities than you could ever imagine, while maintaining a crisp, attractive look for your smaller space.

### UNIQUE FEATURES

# MIRRORS

A mirror unlocks a bathroom's potential and is far more than just functional decoration. With a mirror, a bathroom has output and it reflects both the bathroom design and the completeness of our everyday lives; and with the right mirror our bathroom reflects well on ourselves.

We should treat the selection of a mirror as we would a work of art, for we look at it more often than a priceless oil painting. That is why the Phoenix range of mirrors and mirrored units has been designed to complement all our bathroom options, but also the varying needs of our busy lives.

From mirrored cabinets to integral shaver sockets, and from infrared on/off switches to heated demister pads we have thought of everything to accommodate both your routines and your individual tastes.

Our mirrors come with orientation hanging options and are all LED lit and A+ energy rated, but most importantly we have designs which cater for traditional tastes through to the latest motion sensor, LED tunnel technology and Bluetooth designs.

Search through our extensive range and find the right solution to truly open up and complete your bathroom.

# SATURN CABINETS

# SANITARYWARE

Phoenix have designed a sanitaryware range with you in mind. Combining conventional practicality with an array of shapes and designs to complement your bathroom, the Phoenix sanitaryware range covers every possibility in terms of space, ambition and taste from the traditional to the contemporary.

Also available within Sanitaryware is our **RIMLESS TECHNOLOGY** which provides extra hygienic and energy efficient features as well as an ultra slim design.

Every WC in the Phoenix range is supplied with an anti bacterial urea soft-close toilet seat, which will prevent those bumps in the night. Also supplied by Phoenix is a quick release toilet seat and cover. This allows the seat to be removed easily for a thorough clean.

If you're looking to save space or want a more compact design, then consider our **SHORT PROJECTION** designs which offer the style, comfort and quality of our other ranges with space saving features.

## R RIMLESS TECHNOLOGY

Rimless sanitaryware features a unique design with a whole host of attributes:

It's hygienic because the open rim allows for simple and effective cleaning - the entire inside of the bowl is flushed completely and the precise flow of water avoids splashing right up to the open rim.

It's also cost effective and energy efficient as it carries the ideal water flow for maximum flushing and saves water with a 3 - 4.5 litre flush.

Cleaning is made easy with its quick release hinge system and ultra slim design.

It comes with a range of attractive, adaptable and timeless designs which give it the versatility to fit neatly into any bathroom suite with the ultra-slim profile and soft close seat proving very popular features.

# BASINS

Your practice should mirror your environment, so by design your daily washing routine should be carried out in spotless and immaculate conditions. For such a task there is no better solution than our range of mineral cast counter top basins.

Using clean, crisp lines which still exude a luxurious softness, our six versatile designs are manufactured using techniques which produce a flawless and pristine, high gloss white finish. By their nature the designs have a neat, uncomplicated style with no overflow system to detract from the sleek, unfussy counter top facility.

'Perfect' is perhaps an over-used word, but nothing else describes the statement finish of the mineral cast range, which, despite its visual purity, offers a pleasing durability to enable a lasting, everyday use.

VB030

# BRASSWARE

Our extensive range of hand crafted taps and showering solutions spans all tastes and personal preferences from modern, innovative designs to traditional brassware that is faithful to everything that is quintessentially British.

Our range covers every whim from the bold statement to

the delicate flourish - Round, square, curved and angled designs perfectly compliment your bathroom furniture.

When we consider, design and produce our handcrafted taps and showering solutions, these key principles underpin our entire process:

## Design

Our design team leaves no stone unturned in the search for the most current and aesthetically-pleasing design solutions, coming up with something that is not only new, but fulfils a need in the marketplace. Whether it's durability, appearance or functionality, our designers are dedicated to maintaining a pioneering approach to ensure installation is simple and everyday use is practical and appealing.

## Materials

Our quality systems cover the whole product process, and that includes sourcing materials that meet our expectations at every stage. We deal only with the highest grade raw materials, the finest quality chrome plating, and brass fittings with a high copper content for the durability you demand.

## Manufacture

Our design and manufacturing systems and processes are rigorously audited to ensure all our products are built to the required internal and external standards. Our industry standards are exacting and challenging but using cutting edge technology and state of the art machinery, we are committed to meeting them. We also recognise a need for the personal touch and a hand-finished, flawless finish is what our customers deserve.

## Testing

All stages of the manufacturing process involve rigorous testing in line with industry standards and our own internal standards. This involves raw material, in-process and finished product checks. 100% of the items in our range are tested, including salt spray testing for longevity, operational testing for lifespan, and chrome thickness testing for appearance and durability.

## You

You can be assured that all Phoenix brassware has evolved from a concept that has our customers at its heart. We are dedicated to supplying products that have an ease of function, provide endless opportunities for design suitability in the home and function perfectly for all of your family.

## Low Pressure Systems

All products in the Phoenix showering range have been designed to work from a low pressure 0.2 Bar system, unless they carry one of our symbols. You'll find them throughout our brassware section to help you when choosing your items.

# COLDTOUCH

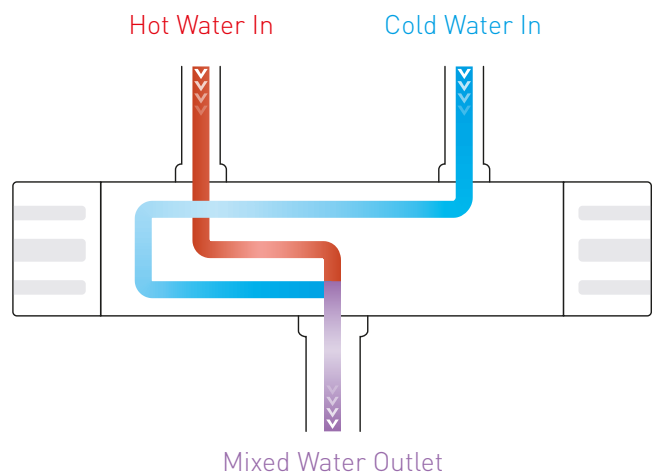

## COLDTOUCH

Safety is of the upmost importance, you should be able to enjoy your bathing and showering experiences without worrying about being scalded by hot water.

The Phoenix Coldtouch System has been designed to minimise the chances of you and your family getting burned from hot surfaces.

Coldtouch limits the heat transfer from the hot water pipes within our valves to keep the outer edges and body of the valve cooler to the touch than a conventional valve.

Our valves also feature anti-scald technology which limits the maximum temperature to 38°. This can only be increased by pressing the safety button.

**NEW** TOUCH

DESIGNED FOR **YOU**

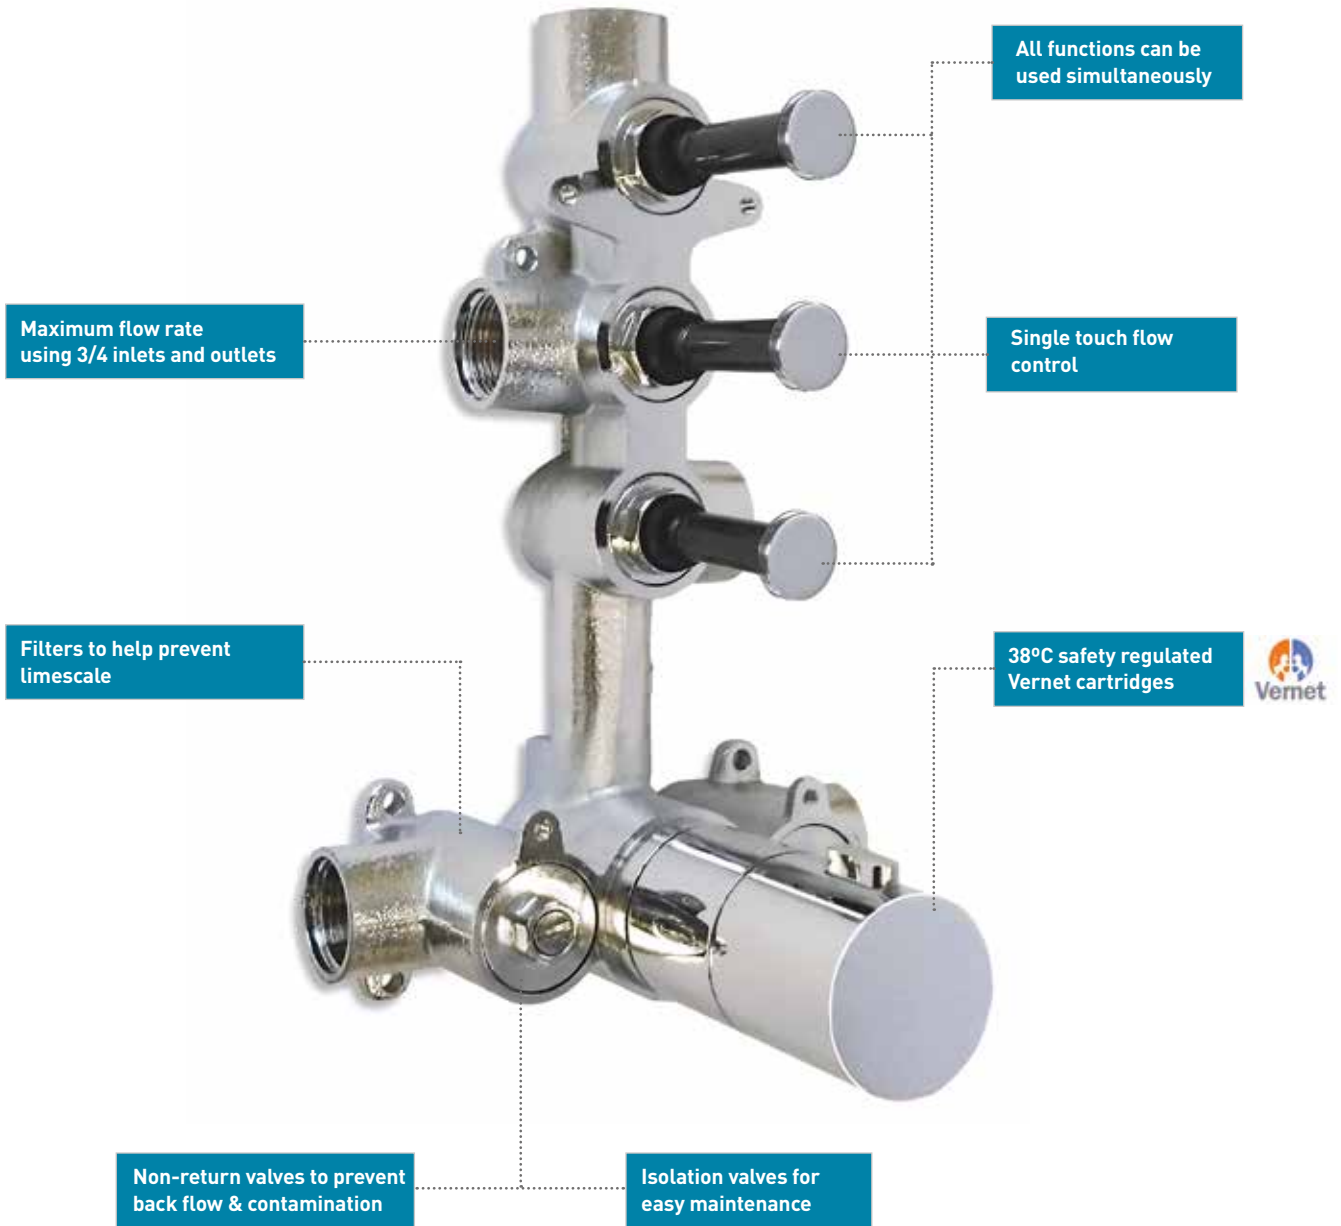

# TOUCH

Introducing the new Phoenix Touch Valve Series featuring the Taio Round and Matteo Square designs. Both are available with 1, 2 and 3 function valves giving you total choice in designing your perfect showering or bathing solution.

The simple functionality of the Phoenix Touch Valves could not be easier - simply press once for on and again for off. All Phoenix Touch Valves are supplied with our built-in

38°C anti-scald temperature control, powered by **Vernet Cartridges**, the Worlds leading thermostatic cartridge producer. Phoenix Touch Valves are the only choice in design functionality and safety for your new bathroom.

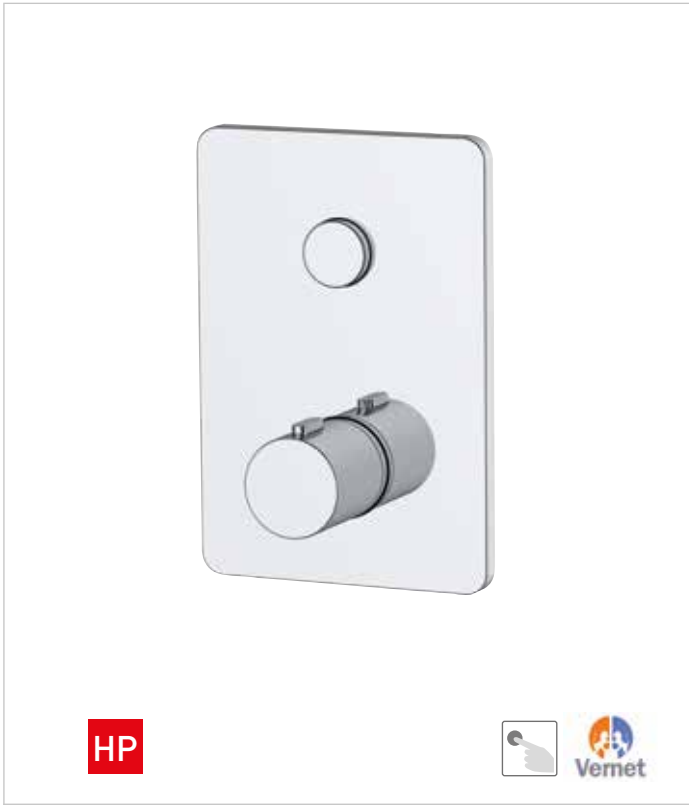

All Phoenix Touch Valves come with an easy fix plumbing kit making these valves the perfect choice for most installation situations.

# SHOWER ENCLOSURES

Phoenix understand that your shower enclosure needs to be aesthetically pleasing whilst being durable to withstand daily use, often by the whole family. Therefore the Phoenix range of shower doors and enclosures is geared towards your requirements of space-saving practicality, attractive appearance and robust build quality.

The range features a choice of thicknesses that are all toughened safety glass produced to UK and European standards. It also provides a choice of polished aluminium frames that combine durability with your desired look to complement the rest of your bathroom.

A factor in diminishing the bright appearance of your shower

enclosure is the build-up of limescale residue and other contaminants. Phoenix provide a free-of-charge surface protection for all our shower enclosures which is clearly marked with the  logo. This is an invisible coating applied during the manufacturing process which helps to maintain your showers 'new' look for as long as possible by providing a barrier against the surface deposits that can dull the surface of your shower.

You don't need to ask for this protection, it is supplied as standard on all Phoenix shower screens which are clearly marked with our logo.

# LUXURY BATHING

A long soak in the bath is far more than just a run-of-the-mill affair. It can be a physical makeover or the solution to a mountain of everyday troubles and has been for centuries. As the oldest form of relaxation known to man, Phoenix have paid particular attention to this most calming of activities. So loosen up, unwind and splash around in the Phoenix range of luxury bathing.

Whether you are looking at a freestanding or traditional bath, or have palatial ideas for a large or even a unique

shaped bath, Phoenix has a choice you will want to dive into straight away. We have a bath for every possible space from whirlpools and airpools to shower/baths for the ensuite or smaller bathroom.

There is certainly something in the Phoenix range that will have you dreaming of candles, bubbles, soft music and the age-old, de-stressing and recuperative qualities of a simple, long soak in the bath. So dip in.

- K ELCB

Milan bath featured above

Phoenix have spent over three decades working with customers to develop our whirlpool systems and provide simple cleaning and maintenance solutions. This prevents some of the common problems people have found with other whirlpool systems.

Our unique **V-Jet system** ensures that the bath is fully drained every time and the Phoenix **Dry-Run Pump Protection** prevents the system running without water.

All Phoenix airpool jets are made from low profile chrome-plated solid brass. These are attractive and robust and are also fitted with a non-return valve which minimises water flow back into the pipes below the bath and prevents water

sitting unseen while the bath isn't in use.

You can also control your airpool experience with our variable **three-speed airpool blowers**, which allow you to switch from a soothing ripple to a more invigorating blast.

An **inline heater** can be added to help maintain your water temperature during the use of your whirlpool system.

Why not further enhance your airpool experience by adding a luxury **colour kinetic underwater light**? Lights can be set to rotate through 7 different colours or, alternatively, you can choose the colour you prefer at anytime by the press of a button. Lights available are featured below:

# AMANZONITE

Over the last 30 years Phoenix have developed an unrivalled reputation for luxury bathing that incorporates the most versatile and contemporary designs.

This commitment to our customers doesn't start and end simply with shape, size and colour. We also look at the materials used and how these can be manufactured to provide durable products that continue to deliver and offer you, the customer, the product lifespan you expect.

Modern technical advances are always being analysed by our designers and one development we are proud of introducing to the market is Amanzonite, which delivers the ultimate in strength, rigidity and heat retention.

Amanzonite is a reinforced layer applied to our baths which enhances their thermal properties. This gives you a consistent bathing experience time and time again and ensures your bath is always the welcoming feature of the home that you need it to be.

Although it was originally developed for heavy duty applications, Amanzonite is now respected throughout the industry and is the barometer of quality by which bath manufacture is judged. As a result, it has become our most popular bath option. The range of baths available with the Amanzonite finish is listed below.

## Baths available in Amanzonite

# TERMS & CONDITIONS

## PHOENIX PRODUCT GUARANTEE:

All product guarantees are subject to the following terms and conditions: The product has been fitted/installed in accordance with the appropriate fitting instructions, local bylaws and general good plumbing practice; The product has been maintained and cared for in accordance with the instructions (including regular and appropriate cleaning); If any product has been modified, misused, neglected, wilfully or accidentally damaged then the product guarantee is invalid.

The guarantee on all products is 12 months from the date of supply from Phoenix unless otherwise stated. The guarantee only covers the material structure of products (excluding shattering glass) and not serviceable moving parts that perish due to fair wear and tear such as cartridges, valves, hinges, seals etc.

In the event of a guarantee claim, the liability of Phoenix is limited to the product supplied and does not extend to consequential loss or damage arising from defective product. The guarantee applies to the original purchaser ONLY and is not transferable. This guarantee does not affect your statutory rights and is applicable in the UK and Republic of Ireland. All products installed in a commercial environment carry a 12 month guarantee.

The specifications and prices contained within this brochure are for information purposes only and, as our products are continually updated, are subject to change without prior notice. We cannot be held responsible for the use of incorrect dimensions shown for first fix without the actual products on site. All dimensions stated in this brochure are nominal and are subject to manufacturing tolerances. All prices include VAT at 23%.

‡Production Item - All production items are specially produced in our UK factory and have a delivery time of approx. 7-10 working days. These items cannot be cancelled or returned after production has commenced.

---

## RETURNS PROCEDURE:

Phoenix appreciate that choosing your ideal bathroom does not always run as smoothly as you may wish. Whilst we do not operate a sale or return policy, we do provide an option for the return of products under the conditions below:

1. It is our policy to only accept the return of unwanted products in good condition in their unopened original packaging that have been supplied within two months from the date of invoice. Returns requests can be made via the following options:

- <http://www.phoenix-uk.co.uk/pages/online-returns-form>
- [http://www.phoenix-uk.co.uk/pdf/2016\\_Returns\\_Request\\_Form.pdf](http://www.phoenix-uk.co.uk/pdf/2016_Returns_Request_Form.pdf)
- E-mail a completed returns form to [returns@phoenix-uk.co.uk](mailto:returns@phoenix-uk.co.uk)
- Fax a completed returns form to 0113 201 2268

All return requests must be made by the Phoenix Customer who originally purchased the goods stating the original invoice or delivery note number, the product code and description, quantity of items for return along with a clear description of the reason for return.

2. Upon receipt of the returns request our returns team will process the relevant paperwork to arrange the collection of the requested products. We may sometimes require additional information relating to the returns request such as images of the products to highlight any relevant reason for return. It would be a benefit if these can be provided at the time the returns request is submitted to us. Once confirmation that the goods are available for collection a carrier will be booked to collect the items. Should a failed attempt be made to collect the goods for return then a fee to cover the transport costs for the failed delivery may be applied and deducted from the value of the credit.

3. All items that are due to be returned must be suitably packaged to reduce the risk of damage during transit. Any products that are found to be returned damaged due to being unsuitably packed may result in a request for credit being refused.

4. Any products returned in a condition other than that which is stated in the returns request may result in a request for credit being refused.

5. Any items that have been reported and accepted by Phoenix as faulty or damaged will be credited in full upon inspection on return to our warehouse. Please note that any damages or shortages will only be accepted if reported within two days of receipt in writing by email or fax. Notification outside of the two day period will void any claim.

6. All items returned, with the exception of faulty or goods reported damaged when originally delivered, will be subject to a transport and administration charge.

As per our conditions of sale and terms of our guarantee below the liability of Phoenix is limited to the product supplied and does not extend to consequential loss or damage arising from products received defective or damaged.
