Showing 1 to 35 of 35 entries

**We did not include the Libyan Dinar which is trading at 1:1.39 to the USD because the currency is artificially pegged by the Central Bank of Libya. Black market rates are around \$1=04.51*

***We also did not include countries in the South African rand union i.e Namibia, Lesotho, Swaziland & Namibia since their currencies are 1:1 with the South African rand*
